Part I Preclinical Behavioral Genetics

Using Zebrafish to Unravel the Genetics of Complex Brain Disorders.	3
Robert Gerlai	
Forward Genetic Approaches to Understanding Complex Behaviors	25
Lisa M. Tarantino and Amy F. Eisener-Dorman	
Mouse Models of the 5-HTTLPR $\times$ Stress Risk Factor for Depression.	59
Valeria Carola and Cornelius Gross	
Behavioral and Pharmacogenetics of Aggressive Behavior	73
Aki Takahashi, Isabel M. Quadros, Rosa M. M. de Almeida and Klaus A. Miczek	
Selectively Bred Rodents as Models of Depression and Anxiety.	139
Gregers Wegener, Aleksander A. Mathe and Inga D. Neumann	
Stress-Induced Deficits in Cognition and Emotionality: A Role for Glutamate	189
Carolyn Graybeal, Carly Kiselycznyk and Andrew Holmes	

Susceptibility Genes for Schizophrenia: Mutant Models, Endophenotypes and Psychobiology	209
Colm M. P. O'Tuathaigh, Lieve Desbonnet, Paula M. Moran and John L. Waddington	
Genetic Models of Sensorimotor Gating: Relevance to Neuropsychiatric Disorders	251
Susan B. Powell, Martin Weber and Mark A. Geyer	
 Part II Clinical Behavioral Genetics	
Applications of Second Generation Sequencing Technologies in Complex Disorders	321
Mònica Bayés, Simon Heath and Ivo Glynne Gut	
Rare Genomic Deletions and Duplications and their Role in Neurodevelopmental Disorders	345
Joseph T. Glessner, John J. M. Connolly and Hakon Hakonarson	
Toward a Mechanistic Understanding of How Variability in Neurobiology Shapes Individual Differences in Behavior.	361
Ryan Bogdan, Justin M. Carré and Ahmad R. Hariri	
Behavioural Genetics of Childhood Disorders.	395
Christine M. Freitag, Philip Asherson and Johannes Hebebrand	
Schizophrenia Genes: On the Matter of Their Convergence	429
Dan Rujescu	
Gene × Environment Interaction Models in Psychiatric Genetics	441
Katja Karg and Srijan Sen	
Behavioral Genetics of Affective and Anxiety Disorders	463
Katharina Domschke and Andreas Reif	
Behavioural Genetics of the Serotonin Transporter	503
K. Haddley, V. J. Bubb, G. Breen, U. M. Parades-Esquivel and J. P. Quinn	

Genetic Factors Modulating the Response to Stimulant Drugs in Humans	537
Amy B. Hart, Harriet de Wit and Abraham A. Palmer	
The Cognitive Genetics of Neuropsychiatric Disorders	579
A. Corvin, G. Donohoe, A. Hargreaves, L. Gallagher and M. Gill	
Behavioral Genetics of Neurodegenerative Disorders	615
Daniela Galimberti and Elio Scarpini	
Index	633
