
Contents

1	On the Concept of IFSs	1
1.1	Definition of the Concept of IFS	1
1.2	First Example	2
1.3	Some Comments on the Concept of IFS	3
1.4	First Example from Number Theory	6
1.5	An Example Related to the Game of Chess	7
1.6	Some Ways for Altering the Experts' Estimations	12
2	Operations and Relations over IFSs	17
2.1	Basic Operations and Relations over IFSs	17
2.2	Short Remarks on Intuitionistic Fuzzy Logics. Part 1	23
2.3	Second Example from Area of Number Theory	23
2.4	Other Operations over IFSs	26
2.5	On the Difference between Crisp Sets and IFSs	30
2.6	Intuitionistic Fuzzy Tautological Sets	32
3	Geometrical Interpretations of IFSs	37
3.1	Geometrical Interpretations of an IFS	37
3.2	Geometrical Interpretations of Operations	39
3.3	Other Geometrical Interpretations of the IFSs	42
3.4	On IF-Interpretation of Interval Data	44
3.5	On Some Transformation Formulae	45
3.6	Property of the IFS-Interpretational Triangle	46
3.7	Other Ways for Altering Experts' Estimations	49
3.8	An Example: IFSs and Complex Analysis	50
4	Modal and Topological Operators	53
4.1	"Necessity" and "Possibility" Operators	53
4.2	Topological Operators over IFSs	56
4.3	Extended Topological Operators	60
4.4	Weight-Center Operator	64

4.5	Other Extended Topological Operators	65
4.6	Short Remarks on Intuitionistic Fuzzy Logics. Part 2.....	69
4.7	An Example: IF-Interpretations of Conway's Game of Life. Part 1	70
4.7.1	IF-Criteria of Existing, Birth and Death of an Asterisk	70
4.7.2	IF-Rules for Changing the Game-Field	72
4.7.3	Transformations of the Game Field by Standard Topological Operators	74
4.7.4	Transformations of the Game Field by Extended Topological Operators	75
5	Extended Modal Operators	77
5.1	Operators D_α and $F_{\alpha,\beta}$	77
5.2	Short Remarks on Intuitionistic Fuzzy Logics. Part 3.....	81
5.3	Operator $G_{\alpha,\beta}$	82
5.4	Operators $H_{\alpha,\beta}$, $H^*_{\alpha,\beta}$, $J_{\alpha,\beta}$, and $J^*_{\alpha,\beta}$	83
5.5	An Example: IF-Interpretations of Conway's Game of Life. Part 2.....	87
5.5.1	Global Transformations of the Game Field by Modal and Extended Modal Operators	87
5.5.2	Local Transformations of the Game Field by Modal and Extended Modal Operators	87
5.6	Relations between Operators	89
5.7	Operator $X_{a,b,c,d,e,f}$	97
5.8	Extended Modal Operators for Negation	100
5.9	Operator $x_{a,b,c,d,e,f}$	107
5.10	Partial Extension of the Extended Modal Operators	109
6	Other Types of Operators	113
6.1	IFs of Certain Level	113
6.2	Level Type of Operators.....	117
6.3	Other Types of Modal Operators	121
6.4	Relations between the Most General IF-Modal Operators	128
7	Norms and Metrics over IFs	133
7.1	Standard IF-Norms and Metrics	133
7.2	Cantor's IF-Norms	139
7.3	Intuitionistic Fuzzy Histograms	140
8	Intuitionistic Fuzzy Relations (IFRs)	147
8.1	Cartesian Products over IFs	147
8.2	Index Matrix	150
8.2.1	Basic Definitions and Properties.....	150
8.2.2	Other Definitions and Properties	153
8.2.3	Intuitionistic Fuzzy IMs (IFIMs)	162
8.3	Intuitionistic Fuzzy Relations (IFRs).....	165

8.4	Intuitionistic Fuzzy Graphs (IFGs)	167
8.5	Example	180
8.5.1	Experts Who Order Alternatives	182
8.5.2	Measurement Tools That Evaluate Alternatives	186
8.6	Some Ways of Determining Membership and Non- membership Functions	190
9	New Intuitionistic Fuzzy Operations	195
9.1	Remarks on IFL. Part 4	195
9.1.1	Definitions and Properties of Some Intuitionistic Fuzzy Implications and Negations	196
9.1.2	On Law of Excluded Middle and Its Modifications	204
9.1.3	On De Morgan's Laws and Their Modifications	205
9.1.4	On the Axioms of Propositional Intuitionistic Logic	206
9.1.5	A New Argument That the Intuitionistic Fuzzy Sets Have Intuitionistic Nature	208
9.2	IF Implications and Negations over IFSSs	208
9.2.1	Definitions and Properties of IF Implications and Negations	208
9.2.2	On One of Baczynski-Jayaram's Problems	225
9.2.3	IF Negations and the Operators over IFSSs	230
9.3	Definitions and Properties of Some IF Subtractions	236
9.4	(ε, η) -Negations, Implications, Subtractions, Norms and Distances	243
9.5	Concluding Remarks	257
10	On Two New Extensions of Intuitionistic Fuzzy Sets	259
10.1	On Some Intuitionistic Fuzzy Extensions	259
10.2	Temporal IFSSs	260
10.3	Example: An IF-Interpretation of RGB-Colour System	264
10.4	IF Multidimensional Sets	266
11	Concluding Remarks	273
11.1	The Intuitionistic Fuzzy Sets as Constructive Objects	273
11.2	On Some Open and Solved Problems	280
	References	285
