Progress in the Pathology of Gastritis and Duodenitis

M. F. DIXON

1	Introduction	2
2	Type B Chronic Gastritis	3
2.1	Morphological Observations	6
2.2	Human and Animal Infection	8
2.3	Immunological Studies	9
2.4	Biochemical Mechanisms	10
2.5	Treatment Studies	11
2.6	Conclusion	11
3	Type A Chronic Gastritis	12
3.1	<i>Campylobacter</i> Status	12
3.2	Pathogenesis	13
3.3	ECL Cells and Polyps	13
4	Lymphocytic Gastritis	14
4.1	Relationship to Varioliform Gastritis	14
4.2	Prevalence	15
4.3	<i>Campylobacter</i> Status	16
4.4	Aetiology	17
5	Reflux Gastritis	17
5.1	Foveolar Hyperplasia	18
5.2	Paucity of Inflammatory Cells	19
5.3	Hyperaemia	19
5.4	Pathogenesis	20
5.5	Specificity	21
5.6	<i>Campylobacter</i> Status	21
5.7	Reflux in the Intact Stomach	22
5.8	Reflux and Ulceration	24
5.9	Hyperplasia Versus Dysplasia	24
5.10	Gastric Antral Vascular Ectasia	25
6	Pathogenetic and Diagnostic Classification of Gastritis	27
7	Duodenitis	27
7.1	Duodenitis and Duodenal Ulcer	28
7.2	Histopathological Aspects	29
7.3	Gastric Metaplasia and <i>C. pylori</i>	31
7.4	Conclusions	32
	References	33

A Barrett's Oesophagus

F. POTET and V. DUCHATELLE

1	Introduction	43
2	Definition	44
3	Pathogenesis	45
4	Microscopic Features	46
4.1	Histological Features	46
4.2	Ultrastructural Studies	46
5	Adenocarcinoma in Patients with CELLO	47
5.1	Frequency	47
5.2	Definition	48
5.3	General Features	48
5.4	Histology	49
5.5	Dysplasia and Adenocarcinoma in CELLO	50
5.6	Superficial Adenocarcinoma in CELLO	51
5.7	Precancerous Conditions and Aetiological Factors	52
5.8	Association with Extra-oesophageal Neoplasms	52
5.9	CELLO and Cardiac Adenocarcinomas	53
6	Precancerous Lesions and Precancerous Markers	53
6.1	Dysplasia	53
6.1.1	Definition and Classifications	53
6.1.2	Frequency of Dysplasia	56
6.1.3	Surveillance of High Grade Dysplasia	56
6.2	Histochemical Studies in CELLO	56
6.3	Other Lines of Research	57
6.3.1	Immunohistochemical Study of Mucins in CELLO	57
6.3.2	Ornithine Decarboxylase	57
6.3.3	Fluorescent Lectins	57
6.3.4	Measurement of Cell Proliferation in CELLO	57
6.3.5	Flow Cytometry in CELLO	57
	References	58

B Gastric Dysplasia

P. SIPPONEN

1	Introduction	61
2	Definitions	62
3	Types and Grading	63
4	Criteria	64
4.1	Architecture	64
4.2	Cytology	64
4.3	Differentiation	68
5	Clinical Significance	71
6	Summary	73
	References	73

C Duodenal and Peri-ampullary Adenomas

A. H. QIZILBASH

1	Introduction	77
2	Classification	79
3	Clinical Features	79
3.1	Tubular Adenomas	79
3.2	Villous Adenomas	80
3.3	Location	83
4	Pathological Features	83
5	Development of Carcinoma	86
6	Diagnosis of Carcinoma	87
7	Management	88
8	Personal Experience	88
	References	89

D Intra-epithelial Neoplasia in the Anal Canal and Peri-anal Area

C. FENGER

1	Definitions and Nomenclature	91
1.1	Intra-epithelial Neoplasia	91
1.2	Anatomy and Histology	92
2	Aetiology	93
3	Incidence	94
4	Clinical Diagnosis	95
5	Pathology	95
5.1	Handling of Specimens	95
5.2	Peri-anal Skin Intra-epithelial Neoplasia	96
5.3	Anal Canal Intra-epithelial Neoplasia	98
6	Differential Diagnosis	99
	References	100

Gastrointestinal Biopsy Diagnosis in the Tropics

M. M. MATHAN and V. I. MATHAN

1	Introduction	104
2	Stomach	105
2.1	Gastritis	105
2.2	Tuberculosis	105
3	Small Intestine	106
3.1	Tropical Enteropathy	106
3.2	Malnutrition	107
3.3	Bacterial Infections	107
3.3.1	Cholera	107
3.3.2	Tuberculosis	108
3.4	Parasitic Diseases	108
3.4.1	Hook Worm Infestation	108
3.4.2	Strongyloidiasis	109
3.4.3	Capillariasis	109
3.4.4	<i>Cryptosporidium</i>	109
3.4.5	Microsporidia	111
3.4.6	Kala Azar	111
3.4.7	Coccidiosis	113
3.4.8	Sarcosporidiosis	113
3.4.9	Giardiasis	114
3.5	Tropical Sprue	114
3.6	Immunoproliferative Small Intestinal Disease	118
4	Large Intestine	119
4.1	Tropical Colonopathy	119
4.2	Acute Infectious Diarrhoea	120
4.2.1	Watery Diarrhoea	121
4.2.2	The Dysenteries	121
4.2.2.1	Bacterial Dysenteries	121
4.2.2.2	Parasitic Dysenteries	123
4.2.3	Differentiation of Idiopathic Inflammatory Bowel Disease from Acute Self-limited Colitis	124
4.2.4	Lamina Propria Vascular Lesion	125
4.3	Tuberculosis	127
5	Conclusion	127
