Foreword	V
Preface	VII
Acknowledgements	IX
Contributors	XVII
Chapter 1 Introduction	1
Geological Exploration	1
Drilling Rigs	4
Exploratory Drilling	4
Development	10
Production	13
Communications and Transport	17
Hazards	17
Costs of Offshore Operations	19
Implications for the Doctor	19
Chapter 2 Legal Aspects of Safety, Health and Welfare	
on the United Kingdom Continental Shelf/A.J. Higginson .	20
The Continental Shelf Doctrine	20
Territorial Waters, Contiguous Zones and	
Continental Shelves	20
The United Kingdom Continental Shelf	21
Safety, Health and Welfare Legislation on the	
United Kingdom Continental Shelf	22
Offshore Installations and Pipelines	22
Employer's Liability Insurance Offshore	27
Summary	28
References	29
Schedule of Principal Legislation Governing Safety,	
Health and Welfare Offshore in France,	
The Netherlands and Norway	32
Chapter 3 Pre-placement and Periodic Medical	
Examinations	34
Pre-placement Examinations	34
Periodic Examinations	41

Chapter 4 Provision of Back-up Services	43
Mobile Intensive Care Teams	46
Offshore Disasters	48
Chapter 5 Offshore Medical Care	53
Functions of the Offshore Medic	53
Medics in the North Sea	56
Medics and Diving	57
Medical Facilities and Supplies	58
Stretchers	64
Mechanical Aids to Respiration	65
Instruments, Drugs and Dressings	66
Survival Suits	67
Communications and Transport	69
Transporting a Sick or Injured Person	72
Standby Vessels	73
Medical Services to Ships	77
First-Aid Supplies for Rig Lifeboats	78
Chapter 6 Some Special Problems	79
Hydrogen Sulphide	79
Methane	80
Methanol	80
Ethylene Glycol	80
Obesity	81
Dust	81
Drilling Mud	81
Welding	82
Noise and Vibration	82
Trauma	84
Scabies and Other Infestations	85
Tropical and Other Endemic Diseases in Immigrants	85
Psychological Disturbances	86
Drugs and Alcohol	87
Partial Drowning and its Treatment	88
Immediate First Aid	89
Hypothermia	90
Chapter 7 Diving	95
Diving Techniques	95
SCUBA Diving	95
Surface-Oriented/Surface-Supplied Diving	96
Diving Systems	96
Gases Used in Diving	101
Air	101
Mixed Helium and Oxygen (Heliox)	102
Decompression Techniques	102
Medical Problems	103
Ear Problems in Diving	103

Other Injuries in the Water or in Chambers.....	103
Near Drowning	104
Pulmonary Barotrauma	104
Decompression Sickness.....	104
Treatment of Gas Embolism and Decompression Sickness	106
Air Diving	107
Mixed Gas Diving	108
Notes	109
Immediate Treatment of Decompression Sickness when a Chamber is not on Site.....	109
Professional Bodies Associated with Diving.....	110
Sources of Medical Advice in a Diving Emergency	110
Medical Examination of Divers	110
Return to Diving Following Decompression Sickness and Other Illnesses	112
After Type 1 Decompression Sickness	112
After Type 2 Decompression Sickness	113
Flying After Diving	113
Transport of a Patient with Decompression Sickness	113
Transfer Under Pressure and Hyperbaric Rescue	114
Sources of Assistance in a Diving Emergency.....	115
Long-term Effects of Diving.....	116
Drugs Under Pressure	116
Chapter 8 Catering and Hygiene/N. Chalk.....	118
Critical Areas	119
Food Sources.....	120
Containers and Transport	120
Storage Offshore.....	120
Thawing Frozen Foods.....	121
Galley Design.....	121
Floors and Scuppers	122
Galley Bulkheads	122
Ventilation.....	122
Food Handlers' Toilet Facilities	123
Preparation Surfaces	123
Catering Machinery (Galley)	123
Cleaning of Specific Items	124
Dining Room	125
Cooks' Tools	126
Food Handlers.....	127
Nutrition Offshore	127
Routine Health and Hygiene Inspections	128
Chapter 9 Dental Problems Offshore/D. Pyper.....	131
Dental Standards	132
Dental First Aid	132
Dental Problems in Diving	134
Pain In and Around the Mouth in Divers.....	135

Prosthetics	136
Summary	136

Chapter 10 Investigation of Fatal and Non-Fatal Accidents/

I.M. Calder	137
The Fatal Accident	137
Legal Investigative Aspects	137
Personnel	138
Permission	138
The Non-Fatal Accident	139
Organisation of Accident Investigation	139
Accident History	139
Diving Accidents	140
Causes	141
Accident Check List	142
Recovery, Storage and Preservation of Bodies	143
Equipment	144
Role of the Pathologist	144
Unascertainable Cause of Death	146
Laboratory Support in Diving Accidents	146
Transport of Bodies	147
Return of a Body to the United Kingdom	147
Export of Bodies from the United Kingdom	148
Conclusion	148

Appendices

1 Drugs and Dressings for Offshore Installation Sick Bays	149
2 List of Drugs, Dressings and Equipment Required Under Scale III of the Merchant Shipping (Medical Scales) Regulations 1974	153
3 Medical Supplies to be Kept at Diving Sites	156
4 Medical Equipment for Offshore Emergencies	158
5 Contents of Medical Chest for Use in Offshore Disasters	161
6 List of Extra Medical Equipment to be Kept on Rigs for Use in Major Disasters	162
7 Major Items of Furniture and Medical Equipment for Offshore Installations	163
8 Addresses of Societies and Committees Connected With Diving	165
9 Training Programme for Rig Medics	166
10 Routine Offshore Hygiene Inspection	172
11 Extract from the Offshore Installations (Operational Safety, Health and Welfare) Regulations 1976: S.I. 1976. no. 1019	175

12	Extract from the Norwegian Regulations Regarding Medical Facilities on Offshore Installations: Royal Decree, 25 November 1977, Relating to Hygiene, Medical Equipment, Medicines, etc., on Installations for Production, etc., of Submarine Petroleum Resources, etc.	177
13	Control of Noise and Vibration on Offshore Installations (from Offshore Installations: Guidance on Design and Construction, HMSO).....	180
14	First Aid and Paramedical Training of Divers. Guidelines Compiled by European Undersea Biomedical Society	184
15	DMAC Aide Mémoire for Recording and Transmission of Medical Data to Shore.....	187
16	Sources of Assistance in Diving Emergencies	195
17	The Use of Drugs Under Pressure.....	196
18	Recommended Contents of First-Aid Boxes in Lifeboats and Survival Capsules.....	200
	Subject Index	201
