

Contents

The Exotic World of Nonlinear Optics By O. Keller	1
<hr/>	
Part I Basic Macroscopic Concepts	
<hr/>	
Second Order Nonlinear Optical Effects By T. Skettrup (With 3 Figures)	8
<hr/>	
Part II Cavity Phenomena	
<hr/>	
Cavity QED By P. Meystre (With 3 Figures)	26
Superradiance in the Dicke Model By E.P. Kadantseva, W. Chmielowski, and A.S. Shumovsky (With 2 Figures)	37
<hr/>	
Part III Metals, Superconductors, and Ponderomotive Effects	
<hr/>	
Surface Enhanced Second Harmonic Generation from Metals By J.-L. Coutaz (With 7 Figures)	44
Optical Second-Harmonic Generation from Jellium. The Nonlinear Energy Reflection Coefficient as a Function of the Angle of Incidence By H.R. Jensen and O. Keller (With 2 Figures)	73
On the Nonlocal Response Theory of Optical Rectification and Second- Harmonic Generation in Centrosymmetric Superconductors By O. Keller (With 3 Figures)	78
Coherence Factors in the Optical Second-Harmonic Response Tensor of a Cooper-Paired Superconductor By J.F. Nielsen and O. Keller (With 1 Figure)	108
Physical Picture of Parametric Phenomena and Ponderomotive Effects in Solids By P. Mulser (With 9 Figures)	112

Part IV Guiding Structures: Surfaces and Fibres

Light Scattering from Solid Surfaces	
By F. Nizzoli (With 11 Figures)	138
Second Harmonic Generation in Optical Fibres	
By D.A. Weinberger (With 9 Figures)	162
Two-Wavelength Nonlinear Prism Coupling to Planar Waveguides in Semiconductor Doped Glasses	
By M. Kull and J.-L. Coutaz (With 3 Figures)	185

Part V Semiconductors

The Nonlinear Optics of Semiconductor Quantum Wells: Physics and Devices	
By I.I. Abram (With 7 Figures)	190
Transient Nonlinear Optics in Semiconductors	
By J.M. Hvam (With 13 Figures)	213
Phase Conjugation	
By T.J. Hall and A.K. Powell (With 26 Figures)	235
Theory of Four-Wave Mixing in Photorefractive Oscillators	
By P.M. Petersen (With 3 Figures)	265
Optical Bistability	
By B.S. Wherrett and D.C. Hutchings (With 25 Figures)	269
Nonlinear Optical Properties of ZnO at Room Temperature Investigated by Laser-Induced Self-Diffraction	
By J.N. Ravn (With 5 Figures)	298

Part VI Organic Materials

Nonlinear Optical Effects in Organic Materials	
By P.N. Prasad (With 3 Figures)	304
Nonlinear Optical Effects in Substituted Anilines	
By S. Rosenkilde, A. Holm, T. Geisler, and P.S. Ramanujam (With 1 Figure)	328

Part VII Disordered Media

Weak Localization in Nonlinear Optics of Disordered Media	
By V.E. Kravtsov, V.M. Agranovich, and V.I. Yudson	336

Part VIII Photon Echoes, Raman Line Shapes

Optical Data Storage and Image Processing in Rare Earth Ion Doped Crystals Using Stimulated Photon Echo By S. Kröll, E.Y. Xu, R. Kachru, and D.L. Huestis (With 3 Figures) .	342
A Practical Analysis for Coherent Raman Scattering Spectra by the Fourier Series Method By E.M. Vartiainen and K.-E. Peiponen	346
Index of Contributors	351
