

Table of Contents

Invited Papers

R.N. Horspool

Recursive Ascent-Descent Parsers	1
--	---

M. Jourdan; D. Parigot

Application Development with the FNC-2 Attribute Grammar System	11
---	----

U. Kastens

Compilation for Instruction Parallel Processors	26
---	----

H. Mössenböck

A Generator for Production Quality Compilers	42
--	----

M. Sassa

Rie and Jun: Towards the Generation of all Compiler Phases	56
--	----

Regular Papers

J. Beney; J.-F. Boulicaut

STARLET: An Affix-Based Compiler Compiler Designed as a Logic Programming System	71
---	----

A. Despland; M. Mazaud; R. Rakotozafy

PAGODE: A Back End Generator Using Attribute Abstract Syntaxes and Term Rewritings	86
---	----

J. Grosch; H. Emmelmann

A Tool Box for Compiler Construction	106
--	-----

V.N. Kasyanov

Tools and Techniques of Annotated Programming	117
---	-----

P. Kroha; P. Fritzson

A Compiler with Scheduling for a Specialized Synchronous Multiprocessor System .	132
--	-----

J.M. Larchevêque

Using an LALR Compiler Compiler to Generate Incremental Parsers	147
---	-----

<i>M. Pettersson</i>	
Generating Efficient Code from Continuation Semantics	165
<i>P. Pfahler</i>	
Optimizing Directly Executable LR Parsers	179
<i>J. Toczki; F. Kocsis; T. Gyimóthy; G. Dányi; G. Kókai</i>	
SYS/3 — A Software Development Tool	193

Abstracts

<i>H. Alblas; J. Schaap-Kruseman</i>	
An Attributed ELL(1)-Parser Generator	208
<i>H. Dobler</i>	
A Hybrid Top-Down Parsing Technique	210
<i>C. Fédèle; O. Lecarme</i>	
Computer-aided Building of a Compiler: An Example	212
<i>M. Hartwig; E. Stein; R. Strobel</i>	
Specification and Implementation of a Tree-Abiding Interface for Ada	215
<i>T. Horváth; Z. Alexin; T. Gyimóthy; K. Fábri</i>	
Towards a Multilingual Natural Language Understanding Interface	217
<i>U. Lämmel; P. Forbrig</i>	
Mixed Dialogue Control Defined by an Attribute Grammar	219
<i>J. Lampe</i>	
MATE — A Metasystem with Concurrent Attribute Evaluation	222
<i>J. Paakki</i>	
A Practical Implementation of DCGs	224
<i>N. Shahmehri; P. Fritzson</i>	
Algorithmic Debugging for Imperative Languages with Side-effects	226
