

Table of Contents

Opening Address	VII
<u>Endothelial Functions and Haemostasis</u>	1
Structure, Shape and Function of Glycosaminoglycans B. Casu	2
Structure and Metabolism of Glycosaminoglycans R.J. Linhardt, D. Loganathan, A. Al-Hakim, S.A. Ampofo	12
Fibrin Polymerization and Its Role in Regulating Haemostasis M.W. Mosesson	27
Function of von Willebrand Factor in Plasma F.A. Oforu	44
Biosynthesis and Assembly of the Factor VIII - von Willebrand Factor Complex J.A. van Mourik, A. Leyte, H.B. van Schijndel, J. Voorberg, R.D. Fontelijn, H. Pannekoek, M.Ph. Verbeet, K. Mertens	56
Modulation of Endothelial Cell Function by Hypoxia: Perturbation of Barrier and Anticoagulant Function and Induction of a Novel Procoagulant Activity S. Ogawa, C. Esposito, M. Matsumoto, J. Brett, D. Stern	66
<u>Tissue Factors and Endothelium</u>	79
Platelet Adhesion; A Concerted Action of Hemodynamic and Biochemical Processes P.G. de Groot, J.J. Sixma	80
Modulation of Endothelial Functions by Advanced Glycosylation End Products C. Esposito, S. Ogawa, H. Vlassara, J. Brett, D. Stern	89
Procoagulant Activities of Leukocytes E. Gray, C. Patel, D.E. Marshall, R. Thorpe, T.W. Barrowcliffe	97
Cytokine Induced Stimulation of Endothelial Cells in Vitro P. Nawroth, D. Stern, A. Bierhaus, P. Schumacher, M. Clauss, H. Gerlach, S. Stilgenbauer, R. Ziegler	103

Anti-Platelet Treatment of Metastasis A. Poggi, L. Beviglia, M.H. Charon, C. Rossi, G. Marguerie, M.B. Donati	107
The Molecular Anatomy of Vitronectin as Extracellular Regulator Protein: Multifunctional Properties of the Heparin-Binding Domain K.T. Preissner	123
Mode of Action of Annexin V (Vascular Anticoagulant Alpha), A Protein Synthesized by the Vessel Wall R. van Gool, H.A.M. Andree, H.C. Hemker, C.P.M. Reutelingsperger	136
<u>Coagulation Inhibitors and Haemostasis</u>	153
Clinical Pharmacological Profile of Low Molecular Weight Heparins J. Harenberg	154
2 Anticoagulant Actions of Sulphated Polysaccharides T.W. Barrowcliffe, R.E. Merton, J. Watton, E. Gray, D.P. Thomas	165
Development of Synthetic Proteinase Inhibitors as Anticoagulant Agents F. Markwardt	177
Antithrombin and Its Deficiency States D.A. Lane, R. Caso, R.J. Olds, S.L. Thein	188
"New" Coagulation Inhibitors G.J. Broze Jr, T.J. Girard, W.F. Novotny, R.P. Smith	202
Biological Function of Vitamin K Antagonists J.W. Suttie	208
Plasminogen Activator Inhibitors: Biological Effects B. Binder, M. Geiger	221
Fibrin-Specific Clot Lysis with Single Chain Urokinase-Type Plasminogen Activator (scu-PA) P.J. Declerck, H.R. Lijnen, D. Collen	232
Antibody - Mediated Thrombolysis: Promise and Problems C. Bode, MS. Runge, T. Nordt, T. Eberle, W. Kübler, E. Haber	241
<u>Thromboembolism: Detection and Prophylaxis</u>	249
Causation and Prevention of Coronary Thrombosis: Present Situation G.V.R. Born	250
Non-Invasive Diagnostic Techniques in Deep Vein Thrombosis D.P.M. Brandjes, H.R. Bueller, J.W. ten Cate, A.W.A. Lensing, G.C.F.M. Rutten, H. Heyboer	257

Evaluation of the Bleeding Effects of Antithrombotic Drugs	
J.S. Ginsberg	263
List of Participants	270
List of Sponsors	270
