

Contents

Preface — V

Acknowledgments — VII

Foreword — IX

List of contributor — XV

Vishnu D. Rajput, Abhishek Singh, Shivani Lalotra, Karen Ghazaryan,
Hasmik S. Movsesyan, Tatiana M. Minkina, Abdel Rahman Mohammad Al-Tawaha,
Athanasios T. Alexiou, Priyadarshani Rajput

Chapter 1

Nanobiotechnology combined approaches for sustainable agriculture — 1

Bhavana Tomar, Shiv Singh Tomar, Sneha Singh Parihar, Tirunima Patle,
Harshita Patel, Prashant Singh

Chapter 2

**Advanced and intelligent nanofertilizer base soil management for
sustainable agriculture — 17**

Uday Pratap Shahi, Omkar Singh, Vinod Kumar Singh, Shivangi Singh,
Prabhat Kumar Singh, Raghavendra Singh, Vijay Kant Singh, Anand Singh

Chapter 3

**Nanotechnology in rice farming: Optimizing nutrient management with
nanofertilizers — 33**

Sapna Rawat, Abhishek Singh, Vishnu D. Rajput, Karen Ghazaryan,
Tatiana M. Minkina, Abdel Rahman Mohammad Al-Tawaha,
Athanasios T. Alexiou, Priyadarshani Rajput

Chapter 4

Nanotechnology applications for enhanced crop growth and yield — 53

Richa Das, Pradeep Kumar, Shreni Agrawal, Kajal Singh, Nancy Singh, Sakshi Singh,
Jyoti Vishwakarma, Vishnu D. Rajput, Amit Kumar Singh, Tatiana M. Minkina,
Indrani Bhattacharya, Sunil Kumar Mishra, Kavindra Nath Tiwari

Chapter 5

Nanoparticles for crop improvement and management — 69

Omkar Singh, Uday Pratap Shahi, Shivangi Singh, Vijay Kant Singh,
Prabhat Kumar Singh, Raghavendra Singh, Anand Singh

Chapter 6

**Enhancing crop nutrition with zinc nanoparticles: a novel approach to cereal
crop micronutrient management — 85**

Prashant Singh, Bhavana Tomar, Shiv Singh Tomar, Prashant Kumar Singh,
Tirunima Patle, Sachi Gupta

Chapter 7

**Unveiling the effects of metal and metal oxide nanoparticles on crop:
an in-depth critical analysis — 107**

Shanza Nasar, Arshad Rasool, Wasiq Ikram, Shahpal Shujat, Muhammad Majeed,
Murad Muhammad, Sania Saleem

Chapter 8

Nano-osmics: a new approach to plant breeding — 129

K. E. Enerijiofi, S. I. Musa, F. A. Igiebor, M. Lawani, N. E. Chuka, E. B. Odozi,
B. Ikhajiagbe

Chapter 9

**Nanotechnological approaches for enhanced microbial activities, sustainable
agriculture, and the environment — 153**

Hubza Ruatt Khan, Iram Asim, Hafiza Masuma Faheem, Asif Raheem,
Humaira Yasmeen

Chapter 10

**Role of nanoparticles in climate change management for sustainable crop
productivity — 185**

Shreni Agrawal, Pradeep Kumar, Richa Das, Shivangee Solanki, Vishnu D. Rajput,
Amit Kumar Singh, Tatiana M. Minkina, Indrani Bhattacharya, Sunil Kumar Mishra,
Kavindra Nath Tiwari

Chapter 11

**Nanoparticles-based abiotic stresses management in the climate era for
sustainable crop production — 203**

Kumari Pragati, R. K. Panwar, S. K. Verma, Anju Arora

Chapter 12

**Nanobiotechnological genome editing approaches for abiotic stress
management — 219**

Kahkashan Qayoom

Chapter 13

Nano-omics response for mitigation of abiotic stresses — 239

Saumya Kathuria, Anshu, Rahul Gogoi, Amarjeet Singh Bhogal, Jugabrata Das,
Sudipta Sankar Bora

Chapter 14

Omics-based applications for sustainable agriculture — 255

Anaytullah Siddique, Akshaya Kalangutkar, Poonam Kumari

Chapter 15

Biotechnological approaches for crop improvement and production — 271

Sonali Zankar Patil, Annika Durve Gupta

Chapter 16

Plant genetic engineering: a key role in sustainable agriculture — 289

Shipra Singh Parmar, Ramesh Kumar

Chapter 17

Precision farming for a sustainable future: genome editing as a key tool for vegetable crop improvement — 315

Hemant Kumar, Rusi Lata, Uzma Khan, Surendra K. Gond

Chapter 18

Biotechnological approaches for crop movement and production — 335

Annika Durve Gupta, Sonali Zankar Patil

Chapter 19

Nanobiotechnological base genome editing approaches for plant modification — 355

Neha Chakrawarti, Indra Deo, Rajshree Verma

Chapter 20

Next-generation sequencing-revolutionizing genomic research — 379

Balaji Rathod, Shashikant Sharma, Neha Chakrawarti, Ashishkumar Vala, Rukam
Singh Tomar

Chapter 21

Molecular marker-based approaches for crop improvement — 397

XIV — Contents

Sudershan Mishra, Kumari Pragati, S. K. Guru, Omkar Singh

Chapter 22

Photosensory biology, photochemistry, and photobiology: a new approach toward plant breeding — 417

Rajshree Verma, Apurba Das, Neha Chakrawarti, Pranjal Kumar Kaman

Chapter 23

Understanding the ecological factors of *Colletotrichum siamense* for sustainable management of anthracnose in black pepper — 437

Rajshree Verma, Apurba Das, Ashish Singh Bisht, Pranjal Kumar Kaman, Devanand Das, Nibedita Borgohain

Chapter 24

Pathogenesis of soil-borne nematode: an overview — 449

About the editors — 465

Index — 469
