

Introduction	1
1. General data	3
1.1. The study area.	3
1.2. Geology.	4
1.3. Soils.	6
1.4. Climate.	7
1.5. Vegetation.	11
2. Materials and methods	12
2.1. Sampling.	12
2.2. Preparation techniques.	22
2.3. Examination of the material.	22
3. General data on the sampling stations	24
4. Systematical part	26
4.1. Species list	31
5. Final remarks	189
6. References	191
