

introduction	1
1. General data	3
1.1. The study area.	3
1.2. Geology.	4
1.3. Soils.	6
1.4. Climate.	7
1.5. Vegetation.	11
2. Materials and methods	12
2.1. Sampling.	12
2.2. Preparation techniques.	22
2.3. Examination of the material.	22
3. General data on the sampling stations	24
4. Systematical part	27
4.1. Species list	33
5. Final remarks	165
6. References	167
Species index	191
