1	Introduction	3	3.2	Summary of egg surface structures	38
1.1	General	3	3.2.1	Surface expansions	38
1.2	Stick insect eggs	3	3.2.2	Surface decorations	38
1.3	Oviposition techniques	5	3.2.3	Surface pattern	39
1.4	Ecological relevance of egg morphology in stick insects	5	3.3	Occurrence of egg surface features	39
1.5	Aim of the study	8	3.3.1	Taxonomic placement	39
2	Material and methods	8	3.3.2	Oviposition techniques	40
2.1	Species examined	8	4	Discussion	41
2.2	Reproductive ecology and oviposition techniques of the species	8	4.1	Analysis of egg surface structures	41
2.3	Sample preparation	8	4.1.1	Phylogeny	42
2.4	Imaging	9	4.1.2	Oviposition	43
2.5	Statistical analysis	9	4.1.3	Habitat	44
3	Results	9	4.2	Functional aspects of egg structures	45
3.1	Egg surface structures in Phasmatodea..	9	5	Conclusions	48
