Preface	iii
About the REX project	v
List of participants	vii
Invited lecture	1
<i>M. Abadi, L. Lamport</i>	
Composing Specifications	1
Technical Contributions	42
<i>R.J.R. Back, J. von Wright</i>	
Refinement Calculus, Part I: Sequential Nondeterministic Programs	42
<i>R.J.R. Back</i>	
Refinement Calculus, Part II: Parallel and Reactive Programs	67
<i>H. Barringer, M. Fisher, D. Gabbay, G. Gough, R. Owens</i>	
METATEM: A Framework for Programming in Temporal Logic	94
<i>E. Brinksma</i>	
Constraint-Oriented Specification in a Constructive Formal Description Technique	130
<i>M. Broy</i>	
Functional Specification of Time Sensitive Communicating Systems	153
<i>W. Damm, G. Döhmen, V. Gerstner, B. Josko</i>	
Modular Verification of Petri Nets: The Temporal Logic Approach	180
<i>E. Diepstraten, R. Kuiper</i>	
Abadi & Lamport and Stark: towards a Proof Theory for Stuttering, Dense Domains and Refinement Mappings	208
<i>H.-D. Ehrich, A. Sernadas</i>	
Algebraic Implementation of Objects over Objects	239
<i>R. van Glabbeek, U. Goltz</i>	
Refinement of Actions in Causality Based Models	267
<i>M. Große-Rhode, H. Ehrig</i>	
Transformation of Combined Data Type and Process Specifications Using Projection Algebras	301
<i>He Jifeng</i>	
Various Simulations and Refinements	340
<i>B. Jonsson</i>	
On Decomposing and Refining Specifications of Distributed Systems	361
<i>B. Josko</i>	
Verifying the Correctness of AADL Modules Using Model Checking	386

<i>J.N. Kok</i>	
Specialization in Logic Programming: from Horn Clause Logic to Prolog and Concurrent Prolog	401
<i>R.P. Kurshan</i>	
Analysis of Discrete Event Coordination	414
<i>S.S. Lam, A.U. Shankar</i>	
Refinement and Projection of Relational Specifications	454
<i>K.G. Larsen</i>	
Compositional Theories Based on an Operational Semantics of Contexts . .	487
<i>N.A. Lynch</i>	
Multivalued Possibilities Mappings	519
<i>M. Merritt</i>	
Completeness Theorems for Automata	544
<i>T. Nipkow</i>	
Formal Verification of Data Type Refinement — Theory and Practice . . .	561
<i>E.-R. Olderog</i>	
From Trace Specifications to Process Terms	592
<i>P.K. Pandya</i>	
Some Comments on the Assumption-Commitment Framework for Compositional Verification of Distributed Programs	622
<i>L. Pomello</i>	
Refinement of Concurrent Systems Based on Local State Transformations .	641
<i>A.U. Shankar, S.S. Lam</i>	
Construction of Network Protocols by Stepwise Refinement	669
<i>F.A. Stomp</i>	
A Derivation of a Broadcasting Protocol Using Sequentially Phased Reasoning	696
<i>J.M. Wing</i>	
Verifying Atomic Data Types	731
<i>J. Zwiers</i>	
Predicates, Predicate Transformers and Refinement	759
<i>R. Gerth</i>	
Foundations of Compositional Program Refinement — Safety Properties .	777
