

CONTENTS

Preface	
P. Grassberger	1
Complexity and Forecasting in Dynamical Systems	
G. Parisi	22
On Complexity	
S. Patarnello and P. Carnevali	28
Boolean Networks Which Learn to Compute	
U. Krey and G. Pöppel	35
A Dynamical Learning Process for the Recognition of Correlated Patterns in Symmetric Spin Glass Models	
J.-P. Nadal	54
Neural Networks That Learn Temporal Sequences	
C.P. Baches	62
Hierarchical Diffusion	
Ph. de Forcrand, K. Koukdou and D. Petritis	69
Random Walks, Random Surfaces and Complexity	
G.B. Scuticchi	83
Complexity in Large Technological Systems	
D.P. Bovet and P.L. Crescenzi	102
An Introduction to the Theory of Computational Complexity	
H. Atlan	112
Measures of Biologically Meaningful Complexity	
G. Weisbuch	128
Complex Systems, Organization and Networks of Automata	
J.-A. Meyer	139
Complexity in Ecological Systems	
List of Participants	146
