

TABLE OF CONTENTS

1. Introduction	1
2. Formulation of Econometric Models in State-Space	5
2.1. Structural Form, Reduced Form and State-Space Form	5
2.2. Additional Remarks	12
3. Formulation of Econometric Models with Measurement Errors	17
3.1. Model of the Exogenous Variables	17
3.2. State-Space Formulation	20
4. Estimation of Econometric Models with Measurement Errors	24
4.1. Evaluation of the Likelihood Function	26
4.2. Maximization of the Likelihood Function	29
4.3. Initial Conditions	35
4.4. Gradient Methods and Identification	37
4.5. Asymptotic Properties	41
4.6. Numerical Considerations	43
4.7. Model Verification	45
5. Extensions of the Analysis	49
5.1. Missing Observations and Contemporaneous Aggregation	49
5.2. Temporal Aggregation	51
5.3. Correlated Measurement Errors	53
6. Numerical Results	56
7. Conclusions	68

Appendices

A. Kalman Filter and Chandrasekhar Equations	70
A.1. Kalman Filter	70
A.2. Chandrasekhar Equations	73
B. Calculation of the Gradient	80
C. Calculation of the Hessian	83
D. Calculation of the Information Matrix	85
E. Estimation of the Initial Conditions	90
F. Solution of the Lyapunov and Riccati Equations	94
F.1. Lyapunov Equation	94
F.2. Riccati Equation	97
G. Fixed-Interval Smoothing Algorithm	101
