

Table of contents.

I. History	8
II. Morphology and anatomy	10
a. Introduction	10
b. Habitus	10
c. Branching	10
d. Stem structure	14
e. Ventral merophyte	14
f. Leaves	15
g. Leaf cells	15
h. Oil bodies	16
i. Pigmentation	17
j. Underleaves, underleaf attachment and rhizoids	17
k. Androecia	17
l. Gynoecia	18
m. Sporophyte	19
n. Chemistry	20
III. Phylogenetic analysis	21
a. Introduction and key to related genera	21
b. Selection of the outgroup	23
<u>Acanthocoleus</u> and <u>Lopholejeunea</u>	23
<u>Dicranolejeunea</u> , <u>Acanthocoleus</u> and <u>Odontolejeunea</u> ...	25
<u>Dicranolejeunea</u> , <u>Acanthocoleus</u> and <u>Brachiolejeunea</u> ..	26
c. The construction of the cladogram	32
d. Conclusions	38
e. Geographical analysis	38
IV. Division and Key	42
a. Conspectus	42
b. Key to the species	43

V. <u>Dicranolejeunea</u>	47
<u>Dicranolejeunea axillaris</u>	47
VI. <u>Acanthocoleus</u>	59
<u>Acanthocoleus aberrans</u>	62
<u>Acanthocoleus chrysophyllus</u>	72
<u>Acanthocoleus gilvus</u>	79
<u>Acanthocoleus javanicus</u>	85
<u>Acanthocoleus juddii</u>	93
<u>Acanthocoleus madagascariensis</u>	98
<u>Acanthocoleus yoshinaganus</u>	105
VII. Nomenclature of not accepted species	111
a. Excluded species	111
b. Species assigned to <u>Lejeunea</u> subg. <u>Dicranolejeunea</u> ..	117
c. Dubious names	117
d. Invalid names	118
VIII. References	119
IX. Summary/Samenvatting/Resumé	127
Acknowledgements	131
X. Index on taxa	132
