

Preface	v
1 Introduction	1
1.1 Deep Georeferencing	3
1.2 Methodology	5
1.3 Outline of this Book	6
2 Preliminaries	11
2.1 Historical Spatial Documents	11
2.2 Related Software Systems	18
2.3 Algorithmic Foundations	21
3 Locating Map Elements	29
3.1 Introduction	29
3.2 Related Work	31
3.3 System Design	33
3.4 Experiments	36
3.5 User Interface	42
3.6 User Study	46
3.7 Concluding Remarks	52
4 Matching Markers and Labels	55
4.1 Introduction	55
4.2 Related Work	56
4.3 Algorithmic Modeling	58
4.4 Experiments	61
4.5 Smart User Interaction	69
4.6 Label Fragments	72
4.7 Concluding Remarks	79
5 Extracting Building Footprints	81
5.1 Introduction	81
5.2 Related Work	83
5.3 Polygon Consensus	85
5.4 Experiments	92
5.5 Concluding Remarks	100

6	Georeferencing Historical Itineraries	103
6.1	Introduction	103
6.2	Related Work	105
6.3	Problem Statement and Modeling	107
6.4	Algorithm Engineering	111
6.5	Experiments	114
6.6	Case Study: Data Preparation	120
6.7	Smart User Interaction	124
6.8	Concluding Remarks	127
7	Conclusion	131
	Bibliography	137
	Figure Credits	153
	Acknowledgments	157
	List of Publications	159
