1	Introduction	1
Part I America		
2	Energy Economic Analysis	9
2.1	Introduction	9
2.2	Population and Gross Domestic Product	9
2.3	Gross Energy, Final Energy, Energy Sector Losses, and Corresponding CO ₂ Emissions	12
2.4	Energy Flows in 2019	16
2.4.1	Energy Flow in the Energy Sector	16
2.4.2	Energy Flow of Final Energy to End Consumers	18
2.4.3	USA	22
2.4.4	Canada	22
2.4.5	Mexico	22
2.4.6	Remaining Central America	22
2.4.7	Brazil	22
2.4.8	Remaining South America	22
2.5	America as a Whole, Indicators	33
2.6	Energy Intensity	34
2.7	CO ₂ Intensity of Energy	36
2.8	Indicator of CO ₂ Sustainability	38
3	CO₂ Emissions and Indicators up to 2020 and Necessary Scenario for Compliance with the 2-Degree or 1.5-Degree Target	41
3.1	USA	41
3.2	Canada	41
3.3	Mexico	45
3.4	Remaining Central America	48
3.5	Brazil	51

3.6	Remaining South America (South America excluding Brazil)	53
3.7	Summary	57
4	Additional Data of the Countries of America	59
4.1	Electricity Production and Consumption in Canada and USA	59
4.2	Argentina, Colombia, Venezuela	68
4.2.1	Energy Flows in Argentina (Figs. 4.3 and 4.4)	68
4.2.2	Energy Flows in Colombia (Figs. 4.5 and 4.6)	68
4.2.3	Energy Flows in Venezuela (Figs. 4.7 and 4.8)	68
4.2.4	Electricity Production and Consumption in Argentina, Colombia and Venezuela (Fig. 4.2)	68
4.3	Tables and Comments on Indicators and CO ₂ Intensities of Significant Countries of the Continent	70
 Part II Middle East and South Asia		
5	Energy Economic Analysis	75
5.1	Introduction	75
5.2	Population and Gross Domestic Product	75
5.3	Gross Energy, Final Energy, Energy Sector Losses and Corresponding CO ₂ Emissions	77
5.4	Energy flows in 2019	82
5.4.1	Energy Flow in the Energy Sector	82
5.4.2	Energy Flow of Final Energy to the Final Consumers	85
5.4.3	Middle East	85
5.4.4	India	85
5.4.5	Rest of South Asia	89
5.4.6	Middle East and South Asia overall	89
5.5	Energy Intensity	89
5.6	CO ₂ Intensity of Energy	96
5.7	Indicator of CO ₂ Sustainability	98
6	CO₂ Emissions and Indicators up to 2019 and Necessary Scenario for Compliance with the 2-Degree or 1.5-Degree Target.	101
6.1	Middle East	101
6.2	India	101
6.3	Rest of South Asia	106
6.4	Summary	106
7	Additional Data of the Countries of the Middle East and South Asia	113
7.1	Middle East: Iran and Saudi Arabia	113
7.1.1	Energy Flows in Iran (Figs. 7.1 and 7.2)	113
7.1.2	Energy Flows in Saudi Arabia (Figs. 7.3 and 7.4)	113
7.1.3	Electricity Production and Consumption in Iran and Saudi Arabia (Fig. 7.5)	113

7.2	South Asia: Pakistan, Bangladesh, Myanmar	113
7.2.1	Energy Flows in Pakistan	113
7.2.2	Energy Flows in Bangladesh	113
7.2.3	Energy Flows in Myanmar	118
7.2.4	Electricity Production and Consumption in Pakistan, Bangladesh, and Myanmar	118
7.3	Tables on Indicators and CO ₂ Intensities of Significant Countries in the Middle East and South Asia	128

Part III East Asia and Oceania

8	Energy Economic Analysis	133
8.1	Introduction	133
8.2	Population and Gross Domestic Product	133
8.3	Gross Energy, Final Energy, Energy Sector Losses and Corresponding CO ₂ Emissions, 2019	136
8.4	Energy Flows in 2019	138
8.4.1	Energy Flow in the Energy Sector	138
8.4.2	Energy Flow from Final Energy to Final Consumers	140
8.4.3	OECD East Asia/Oceania	142
8.4.4	China (with Hong Kong)	142
8.4.5	Rest of East Asia/Oceania	142
8.4.6	East Asia/Oceania overall	142
8.5	Energy Intensity	145
8.6	CO ₂ Intensity of Energy	153
8.7	Indicator of CO ₂ Sustainability	154
9	CO₂ Emissions and Indicators from 1980 to 2019 and Necessary Scenarios for Compliance with the 2-Degree or 1.5-Degree Target	159
9.1	East Asia/Oceania	159
9.2	China (with Hong Kong)	159
9.3	Remaining East Asia/Oceania	164
9.4	East Asia/Oceania Overall	164
9.5	Summary	168
10	Additional Data of the Countries of East Asia/Oceania	171
10.1	Japan, South Korea, Australia	171
10.1.1	Energy Flows in Japan (Figs. 10.1 and 10.2)	171
10.1.2	Energy Flows in South Korea (Figs. 10.3 and 10.4)	171
10.1.3	Energy Flows in Australia (Figs. 10.5 and 10.6)	171
10.1.4	Electricity Production and Consumption in Japan, South Korea, and Australia (Fig. 10.7)	171

10.2	Indonesia, Philippines, Vietnam, Thailand.	171
10.2.1	Energy Flows in Indonesia (Figs. 10.8 and 10.9).	171
10.2.2	Energy Flows in the Philippines (Figs. 10.10 and 10.11)	171
10.2.3	Energy Flows in Vietnam (Figs. 10.12 and 10.13).	171
10.2.4	Energy Flows in Thailand (Figs. 10.14 and 10.15)	171
10.2.5	Electricity Production and Consumption in Indonesia, the Philippines, Vietnam, and Thailand (Figs. 10.16 and 10.17)	171
10.3	Tables on Indicators and CO ₂ Intensities of Significant Countries in East Asia/Oceania	190
