Foreword

Introduction

Ectoparasites of veterinary importance:

Ticks:			
Hard ticks	-	Ixodidae	18
Mites:			
Sucking mites	-	Psoroptes spp.	41
Chewing mites	-	Chorioptes spp.	45
Burrowing mites	-	Sarcoptes spp.	47
Itch mites	-	Psorergates ovis	50
Red fowl mite	-	Dermanyssus gallinae	51
Lice:			
Sucking lice	-	Haematopinus spp.	53
	-	Linognathus spp.	55
Biting lice	-	Bovicola spp.	57
Flies:			
Tsetse flies	-	Glossinidae	59
Warble flies	-	Hypoderma spp.	65
Tropical warble fly	-	Dermatobia hominis	69
Blowflies	-	Calliphoridae	72
Horse flies	-	Tabanidae	77
Stable fly	-	Stomoxys calcitrans	80
Horn fly	-	Haematobia irritans irritans	82
Buffalo flies	-	Lyperosia spp.	84

Insecticidal, repellent, and woundhealing plants:

Alexandrian laurel	-	Calophyllum inophyllum L.	88
Baneberry	-	Actaea spicata L.	91
Baobab	-	Adansonia digitata L.	93

Black walnut	-	<i>Juglans nigra</i> L.	97
Cape aloe	-	<i>Aloe ferox</i> Mill.	100
Castor bean	-	<i>Ricinus communis</i> L.	102
Derris	-	<i>Derris elliptica</i> (Sweet) Benth.	106
False indigo	-	<i>Amorpha fruticosa</i> L.	111
Fish poison bean	-	<i>Tephrosia vogelii</i> Hook. f.	114
Huon pine	-	<i>Dacrydium franklinii</i> Hook. f.	118
Jimson weed	-	<i>Datura stramonium</i> L.	121
Mammea apple	-	<i>Mammea americana</i> L.	124
Neem	-	<i>Azadirachta indica</i> A. Juss.	128
Sabadilla	-	<i>Schoenocaulon officinale</i> A. Gray ...	132
Sesban	-	<i>Sesbania aculeata</i> Poir.	136
Sweet flag	-	<i>Acorus calamus</i> L.	139
Sweet sop	-	<i>Annona squamosa</i> L.	143
Teak	-	<i>Tectona grandis</i> L.	146
Water pepper	-	<i>Polygonum hydropiper</i> L.	149
White hellebore	-	<i>Veratrum album</i> L.	152
Wild indigo	-	<i>Baptisia tinctoria</i> R. Br.	155
Further useful insecticidal, repellent, and woundhealing plants			159
