

Contents

Cardiopulmonary Resuscitation

Abdominal Interposed Between Thoracic Compressions During Cardiopulmonary Resuscitation (<i>O.S. Hoekstra, A.A. van Lambalgen, and L.G. Thijs</i>)	3
The Resuscitation of Submersion Victims: WET-CPR? (<i>J.J. Bierens, J.J. van Zanten, and M. van Berkel</i>)	11
Vasopressor Therapy in Cardiopulmonary Resuscitation (<i>K.H. Lindner</i>)	18

Myocardial Infarction

Bolus Administration of Thrombolytic Agents (<i>A.A.J. Adgey and J.A. Purvis</i>)	27
Cardioversion and Defibrillation: The Esophageal Approach (<i>A.A.J. Adgey, P.P. McKeown, and J. McC Anderson</i>)	34
Origins, Evolution, and Prognosis of Acute Myocardial Ischemic Syndromes: Focus on Non-Q-Wave Myocardial Infarction (<i>J. Ferlinz</i>)	44

Cardiovascular Support

Effects of Therapy on Regional Blood Flow in Heart Failure (<i>C.V. Leier</i>)	65
Effects of Dopamine Receptor Agonists on Cardiovascular and Renal Function (<i>M.F. Lokhandwala</i>)	74
Inappropriateness of "Inotropic" Support with Epinephrine (<i>M.I.M. Noble</i>)	81
Dobutamine Withdrawal (<i>C.V. Leier and P.F. Binkley</i>) . . .	90
Oxygen Derived Parameters in Acute Heart Failure (<i>C. Richard and J.L. Teboul</i>)	97
Should Lactic Acidosis Be Corrected? (<i>J.A. Russell</i>)	105

Circulatory Shock

Oxygen Transport Pattern in Hemorrhagic and Septic Patients (<i>W.J. Kox and F. Christ</i>)	113
Classification of Shock in the Intensive Care Unit Using Transesophageal Two-Dimensional Echocardiography (<i>J.J. Koolen, C.A. Visser, and H.B. van Wezel</i>)	120
Cardiac Alterations in Septic Shock: Pathophysiology, Diagnosis, Prognostic, and Therapeutic Implications (<i>A.B.J. Groeneveld, A.J. Schneider, and L.G. Thijs</i>)	126
Improvement of Tissue Oxygenation with Enoximone in Septic Shock (<i>W.J. Kox and C. Brydon</i>)	137
Blood Flow and Adrenergic Drugs in Septic Shock (<i>J. Takala and E. Ruokonen</i>)	144
Gastro-intestinal Mucosal Injury in Shock (<i>U. Haglund</i>)	153
Optical Spectroscopy for the Measurement of Tissue Hypoxia (<i>C. Ince and H.A. Bruining</i>)	161

Sepsis and ARDS

Oxygen Delivery and Consumption in Adult Respiratory Distress Syndrome and Sepsis (<i>J.A. Russell</i>)	175
The Respiratory Distress Syndrome in Adults with Gram-negative Sepsis (<i>M.A. Martin</i>)	182
Bronchoalveolar Lavage (BAL) in Adult Respiratory Distress Syndrome (ARDS) (<i>A. Artigas and X. Castella</i>)	192
Mediators of ARDS: A "Magic" Funnel (<i>M. Antonelli, G. Vivino, and A. Gasparetto</i>)	198
Is There an Analogy Between Sepsis and Strenuous Physical Exercise in the Process of Neutrophil Activation in Man: A Working Hypothesis? (<i>G. Camus, J. Pincemail, and M. Lamy</i>)	206
Interactions Between Cytokines and Vascular Wall: Effect on the Contractile Function (<i>A. Tedgui and C. Bernard</i>)	213
Modulation of the Cytokine Response in Sepsis (<i>Y. Fong and S.F. Lowry</i>)	223
The Orchestra of Mediators in the Pathogenesis of Septic Shock: A Review (<i>C.E. Hack and L.G. Thijs</i>)	232

Ways to Interfere with Lethal Cytokinemias (<i>J. W. M. van der Meer, W. L. Blok, and P. Barrera</i>)	247
Cytokines: Role in Human Metabolism (<i>H. P. Sauerwein, T. van der Poll, and J. A. Romijn</i>)	254
Clinical Role of Tumor Necrosis Factor in Septic Shock (<i>J. Cohen</i>)	262
Tumor Necrosis Factor and the Disbalance Between Coagulant and Anticoagulant Mechanisms in Septicemia (<i>T. van der Poll, M. Levi, and J. H. van Deventer</i>)	269

Heart-Lung Interactions

Hemodynamic Variable Analysis During Mechanical Ventilation: Defining the Steady State (<i>M. R. Pinsky</i>)	277
Pulsatile Flow Pulmonary Hemodynamics (<i>R. Naeije</i>)	291
Acute Left Ventricular Dysfunction During Weaning from Mechanical Ventilation (<i>J. L. Teboul and C. Richard</i>)	297
Vasodilating Therapy in ARDS (<i>P. Radermacher and B. Santak</i>)	306

Respiratory Failure

Intensive Care Management of Life-Threatening Status Asthmaticus (<i>M. Sydow and H. Burchardi</i>)	313
Assessment of Respiratory Mechanics in ICU Patients (<i>J. Milic-Emili and N. T. Eissa</i>)	324
Diagnosis of Respiratory Muscle Dysfunction (<i>J. W. Fitting</i>)	329
Respiratory Workload During Mechanical Ventilation (<i>A. Rossi, R. Poggi, and R. Brandolese</i>)	339
Alternative Modalities for Ventilatory Support (<i>J. Villar and A. S. Slutsky</i>)	345

Severe Infections

Diagnosis of Lung Infection in Intensive Care Unit Patients Using the Protected Specimen Brush Technique (<i>J. Chastre, J. Y. Fagon, and C. Lamer</i>)	357
---	-----

The Protected Minialveolar Lavage Technique for the Diagnosis of Nosocomial Pneumonia (<i>J.-J. Rouby, P. Poete, and L. Bodin</i>)	365
Selective Decontamination in ICU Patients: Benefits and Doubts (<i>R. van Dalen</i>)	379
Mechanisms of Resistance to β -Lactam Antibiotics (<i>J. P. Quinn</i>)	387
Ho Do We Select Bacterial Resistance in the ICU? (<i>J. C. Pechère</i>)	396

Intravenous Fluids

Clinical Use of Hydroxyethyl Starches (<i>J. F. Baron</i>)	403
Small Volume Hypertonic Resuscitation in Uncontrolled Hemorrhage (<i>M. Rocha e Silva, I. T. Velasco, and R. Prist</i>)	415
Small Volume Hypertonic Resuscitation: The Conceptual Basis for Volume Therapy in Septic Shock (<i>U. Kreimeier and L. Frey</i>)	423

Renal Failure

Susceptibility of the Kidney to Hypoxia (<i>S. N. Heyman, Z. Greenfeld, and M. Brezis</i>)	435
Continuous Renal Replacement Therapy (<i>S. K. Wedel</i>)	444

Emergency

Initial Management of Trauma Patients (<i>A. K. T. Conn, C. J. McCabe, and R. L. Warren</i>)	457
Emergency Treatment of Multiple Trauma in Children (<i>G. Foltin and A. Cooper</i>)	469
Use and Misuse of Flumazenil in Clinical Toxicology (<i>P. Lheureux, M. Vranckx, and R. Askenasi</i>)	482

Neurologic Crisis

Lung Dysfunction After Head Injury (<i>R. Demling and R. Riessen</i>)	493
--	-----

Cerebral Circulatory Monitoring (<i>D.S. Prough</i>)	504
Venous Oxygen Saturation in the Jugular Bulb (<i>P. Hans</i>) . . .	516
Cerebral Blood Flow Velocity Using Doppler Techniques (<i>J. Berré, O. De Witte, and J. J. Moraine</i>)	522
Treatment of Tetanus (<i>P. D. Potgieter</i>)	530
Plasma Exchange in the Guillain-Barré Syndrome (<i>J. C. Raphael, S. Chevret, and D. Elkharrat</i>)	540

Sedation and Paralysis

Sedation in Intensive Care (<i>M. McD Fisher and R. F. Raper</i>) . .	549
Using Neuromuscular Blocking Agents in ICU: A Need for More Control? (<i>A. d'Hollander</i>)	559

Current Issues

Evaluation of Iatrogenic Complications in Intensive Care Units (<i>T. Giraud, J.-F. Dhainaut, and J. J. Lanore</i>)	567
Use of a Probability Model for Predicting ICU Outcome (<i>S. Lemeshow, D. Teres, and J. Klar</i>)	574
Enteral Nutrition and Infection: Benefits and Risks (<i>S. K. Pingleton</i>)	581
Approach to the Patient with Severe Liver Failure (<i>G. A. Levy, S. W. Chung, and P. A. Sheiner</i>)	590
