

Contents

Preface	v
Scientific Publications of Edward U. Condon	ix
 “A Theory of Intensity Distribution in Band Systems”	1
(Ph.D. Thesis), <i>Phys. Rev.</i> 28 , 1182–1201 (1926)	
 “Mean Free Paths in a Gas Whose Molecules are Attracting Rigid Elastic Spheres”	20
With E.V. Van Amringe, <i>Phil. Mag</i> 3 (7) 604–14 (1927)	
 “Coupling of Electronic and Nuclear Motions in Diatomic Molecules” .	30
<i>Proc. Nat. Acad. Sci.</i> 13 , 462–6 (1927)	
 “Wave Mechanics and the Normal State of the Hydrogen Molecule” ..	35
<i>Proc. Nat. Acad. Sci.</i> 13 , 466–70 (1927)	
 “The Zeeman Effect of the Symmetrical Top According to Wave Mechanics”	40
<i>Phys. Rev.</i> 30 , 781–4 (1927)	
 “The Physical Pendulum in Quantum Mechanics”	44
<i>Phys. Rev.</i> 31 , 891–4 (1928)	
 “Wave Mechanics and Radioactive Disintegration”	48
With R.W. Gurney, <i>Nature</i> 122 , 439 (1928)	
 “Nuclear Motions Associated With Electron Transitions in Diatomic Molecules”	51
<i>Phys. Rev.</i> 32 , 858–72 (1928)	
 “Quantum Mechanics of Momentum Space”	67
<i>J. Franklin Inst.</i> 207 , 467–74 (1929)	

“The Critical Potentials of Molecular Hydrogen”	73
With H.D. Smyth, <i>Proc. Nat. Acad. Sci.</i> 14 , 871–75 (1928)	
“Quantum Mechanics and Radioactive Disintegration”	77
With R.W. Gurney, <i>Phys. Rev.</i> 33 , 127–40 (1929)	
“Remarks on Uncertainty Principles”	93
<i>Science</i> 69 , 573–4 (1929)	
“An Interpretation of Pauli’s Exclusion Principle”	97
With J.E. Mack, <i>Phys. Rev.</i> 35 , 579–82 (1930)	
“Predissociation of Diatomic Molecules from High Rotational States”	102
With D.S. Villars, <i>Phys. Rev.</i> 35 , 1028–32 (1930)	
“Singlet-Triplet Interval Ratios in <i>sp</i> , <i>sd</i> , <i>sf</i> , <i>p</i> ⁵ <i>s</i> and <i>d</i> ⁹ <i>s</i> Configurations”	107
With G.H. Shortley, <i>Phys. Rev.</i> 35 , 1342–46 (1930)	
“The Theory of Complex Spectra”	115
<i>Phys. Rev.</i> 36 , 1121–33 (1930)	
“The Theory of Complex Spectra II”	128
With G.H. Shortley, <i>Phys. Rev.</i> 37 , 1025–43 (1931)	
“Quantum Mechanics of Collision Processes”	149
Appendix by P.M. Morse, <i>Rev. Mod. Phys.</i> 3 , 43–88 (1931)	
“The Spin of the Neutron”	197
With R.F. Bacher, <i>Phys. Rev.</i> 41 , 683–5 (1932)	
“Notes on the Stark Effect”	201
<i>Phys. Rev.</i> 43 , 648–54 (1933)	
“Relative Multiplet Transition Probabilities from Spectroscopic Stability”	213
With C.W. Ufford, <i>Phys. Rev.</i> 44 , 740–3 (1933)	
“The Energy Distribution of Neutrons Slowed by Elastic Impacts” ...	219
With G. Breit, <i>Phys. Rev.</i> 49 , 229–31 (1936)	
“Note on Electron-Neutron Interaction”	223
<i>Phys. Rev.</i> 49 , 459–61 (1936)	

“The Photoelectric Effect of the Deuteron”	228
With G. Breit, <i>Phys. Rev.</i> 49 , 904–11 (1936); Correction with G. Breit and J.R. Stehn, 51 , 56 (1937)	
“On Nuclear Forces”	242
With B. Cassen, <i>Phys. Rev.</i> 50 , 846–9 (1936)	
“Theory of Scattering of Protons by Protons”	249
With G. Breit and R.D. Present, <i>Phys. Rev.</i> 50 , 825–45 (1936)	
“Vibration Spectra and Molecular Structure”	283
With R.B. Barnes and L.G. Bonner, <i>J. Chem. Phys.</i> 4 , 772–8 (1936)	
“Ionization and Dissociation of Molecules by Electron Impact”	294
With W. Bleakney and L.G. Smith, <i>J. Phys. Chem.</i> 41 , 197–208 (1937)	
“Theories of Optical Rotatory Power”	306
<i>Rev. Mod. Phys.</i> 9 , 432–57 (1937)	
“One-Electron Rotatory Power”	349
With W. Altar and H. Eyring, <i>J. Chem. Phys.</i> 5 , 753–75 (1937)	
“The Theory of Nuclear Structure”	385
<i>J. Franklin Inst.</i> 227 , 801–16 (1939)	
“Note on the External Photoelectric Effect of Semi-Conductors”	397
<i>Phys. Rev.</i> 54 , 1089–91 (1938)	
“Electronic Generation of Electromagnetic Oscillations”	402
<i>J. Appl. Phys.</i> 12 , 129–132 (1940)	
“Forced Oscillations in Cavity Resonators”	410
<i>J. Appl. Phys.</i> 11 , 502–6 (1940)	
“Principles of Micro-Wave Radio”	416
<i>Rev. Mod. Phys.</i> 14 , 341–89 (1942)	
“Detection of Metastable Ions With the Mass Spectrometer”	496
With J.A. Hipple, <i>Phys. Rev.</i> 68 , 54–5 (1945)	
“Metastable Ions Formed by Electron Impact in Hydrocarbon Gases”	499
With J.A. Hipple and R.E. Fox, <i>Phys. Rev.</i> 69 , 347–56 (1946)	

“The Franck-Condon Principle and Related Topics”	515
<i>Am. J. Phys.</i> 15 , 65–74 (1947)	
“Investigation of the Attractive Forces Between the Persistent Currents in a Superconductor and the Lattice”	530
With E. Maxwell, <i>Phys. Rev.</i> 76 , 578 (1949)	
“Superconductivity and the Bohr Magneton”	532
<i>Proc. Nat. Acad. Sci.</i> 35 , 488–90 (1949)	
“Physics of the Glassy State I: Constitution and Structure”	535
<i>Am. J. Phys.</i> 22 , 43–53 (1954)	
“Physics of the Glassy State II: The Transformation Range”	554
<i>Am. J. Phys.</i> 22 , 132–42 (1954)	
“Physics of the Glassy State III: Strength of Glass”	572
<i>Am. J. Phys.</i> 22 , 224–32 (1954)	
“Physics of the Glassy State IV: Radiation-Sensitive Glasses”	588
<i>Am. J. Phys.</i> 22 , 310–17 (1954)	
“Intensity-Dependent Absorption of Light”	601
<i>Proc. Nat. Acad. Sci.</i> 52 , 635–7 (1964)	
“Spin-Orbit Interaction In Self-Consistent Fields”	604
With H. Odabasi, in <i>Quantum Theory of Atoms, Molecules, Solid State</i> (Academic Press, New York, 1966), pp. 185–201	
“Self-Consistent Field Calculations of the $1s^2 2s^2 2p 3p$ Configuration in the Carbon Isoelectronic Sequence”	621
With H. Odabasi, in <i>In Honor of Philip Morse</i> , H. Feshbach and K.U. Ingard, eds. (MIT Press, Cambridge, MA 1969), pp. 5–20
