	Page
INTRODUCTION	10
MATERIALS AND METHODS	15
Specimens Examined	15
Culture Techniques	15
Light Microscopy Techniques	16
Electron Microscopy Techniques	17
Experimental Techniques	18
MORPHOLOGY AND ONTOGENY	21
The Vegetative Gametophyte	21
Gross Morphology	21
<u>Haplomitrium hookeri</u> (Smith) Nees	24
<u>Haplomitrium ovalifolium</u> Schust.	26
<u>Haplomitrium monoicum</u> Engel	27
<u>Haplomitrium intermedium</u> Berrie	28
<u>Haplomitrium gibbsiae</u> (Steph.) Schust.	31
<u>Haplomitrium kashyapii</u> Udar & Kumar	33
<u>Haplomitrium mnioides</u> (Lindb.) Schust.	35
<u>Haplomitrium blumii</u> (Nees) Schust.	36
<u>Haplomitrium andinum</u> (Spruce) Schust.	37
Apical Organization	39
Stem Development and Anatomy	51
Leaf Development and Anatomy	63
Oil Bodies	68
Branching	80

The Reproductive Gametophyte	85
Gross Morphology	85
<u>Haplomitrium hookeri</u> (Smith) Nees	86
<u>Haplomitrium ovalifolium</u> Schust.	93
<u>Haplomitrium monoicum</u> Engel	94
<u>Haplomitrium intermedium</u> Berrie	95
<u>Haplomitrium gibbsiae</u> (Steph.) Schust.	96
<u>Haplomitrium indicum</u> (Udar & Chandra) Schust.	99
<u>Haplomitrium dentatum</u> (Kumar & Udar) Engel	100
<u>Haplomitrium grollei</u> Kumar & Udar	102
<u>Haplomitrium kashyapii</u> Udar & Kumar	103
<u>Haplomitrium mnioides</u> (Lindb.) Schust.	106
<u>Haplomitrium blumii</u> (Nees) Schust.	108
<u>Haplomitrium andinum</u> (Spruce) Schust.	109
<u>Haplomitrium giganteum</u> (Steph.) Grolle	111
<u>Steereomitrium minutum</u> E. O. Campb.	112
Antheridial Ontogeny	118
Structure of the Antheridium	124
Archegonial Ontogeny	135
Structure of the Archegonium	140
Sporophyte Protective Structure	142
The Sporophyte	156
Gross Morphology	156
Anatomy and Ontogeny	157
Elaters	166
<u>Haplomitrium hookeri</u> (Smith) Nees	167
<u>Haplomitrium intermedium</u> Berrie	168
<u>Haplomitrium gibbsiae</u> (Steph.) Schust.	168
<u>Haplomitrium indicum</u> (Udar & Chandra) Schust.	169
<u>Haplomitrium mnioides</u> (Lindb.) Schust.	169

<u>Haplomitrium blumii</u> (Nees) Schust.	169
<u>Haplomitrium andinum</u> (Spruce) Schust.	169
<u>Steereomitrium minutum</u> E. O. Campb.	170
Spores	170
<u>Haplomitrium hookeri</u> (Smith) Nees	173
<u>Steereomitrium minutum</u> E. O. Campb.	173
<u>Haplomitrium mnioides</u> (Lindb.) Schust.	174
<u>Haplomitrium gibbsiae</u> (Steph.) Schust.	174
<u>Haplomitrium indicum</u> (Udar & Chandra) Schust.	176
<u>Haplomitrium dentatum</u> (Kumar & Udar) Engel	176
<u>Haplomitrium intermedium</u> Berrie	176
<u>Haplomitrium blumii</u> (Nees) Schust.	177
<u>Haplomitrium andinum</u> (Spruce) Schust.	177
Capsule Dehiscence	180
Sporeling Development	183
Ontogenetic Pattern	183
Pattern Comparisons and Phylogenetic Implications	189
Experimental and Culture Studies	194
Spore Culture Experiments	194
Culture-Induced Adult Phenovariations	204
TAXONOMIC TREATMENT	210
Metzgeriidae Bartholomew-Began	212
Haplomitriales Buch ex Schljakov	213
Haplomitriaceae Dědeček	214
<u>Haplomitrium</u> Nees	216

Structural Features Useful for Subgeneric and Interspecific Differentiation	220
Subdivision of the Genus and Relationships Among Taxa	222
Keys to the Taxa of <u>Haplomitrium</u>	224
Key to the Subgenera and Sections of <u>Haplomitrium</u>	224
Key to the Species of the Subgenus <u>Haplomitrium</u> section <u>Haplomitrium</u>	224
Key to the Species of the Subgenus <u>Haplomitrium</u> section <u>Archibryum</u>	225
Key to the Species of the Subgenus <u>Calobryum</u>	226
Vegetative Key to the Species of <u>Haplomitrium</u>	226
Subgenus <u>Haplomitrium</u>	227
Subg. <u>Haplomitrium</u> sect. <u>Haplomitrium</u>	227
<u>H. hookeri</u> (Smith) Nees	228
<u>H. hookeri</u> var. <u>hookeri</u>	229
<u>H. hookeri</u> (Smith) Nees var. <u>minutum</u> (E. O. Campb.) Bartholomew-Began	230
<u>H. ovalifolium</u> Schust.	234
<u>H. monoicum</u> Engel	236
Subg. <u>Haplomitrium</u> sect. <u>Archibryum</u> (Schust.) Engel emend. Bartholomew-Began	238
<u>H. intermedium</u> Berrie	238
<u>H. gibbsiae</u> (Steph.) Schust.	240
Subg. <u>Calobryum</u> (Nees) Schust.	247
<u>H. mnioides</u> (Lindb.) Schust.	247
<u>H. blumii</u> (Nees) Schust.	250
SPECIATION AND PHYLOGENETIC AFFINITIES	256
