

Contents

The Process of Refinement: Introductory Talk to the 4th Refinement Workshop <i>R. Worden</i>	1
Engineering Real Software Using Formal Methods <i>M.K.O. Lee, P.N. Scharbach and I.H. Sørensen</i>	6
Specialising Abstract Programs <i>A. Gravell</i>	34
A Refinement Case Study (Using the Abstract Machine Notation) <i>J.R. Abrial</i>	51
Assertional Data Reification Proofs: Survey and Perspective <i>J. Coenen, W.-P. de Roever and J. Zwiers</i>	97
Formal Methods and the Sociology of Proof <i>D. MacKenzie</i>	115
Refinement Diagrams <i>R.J.R. Back</i>	125
A Case Study in Timed Refinement: A Central Heater <i>B. Mahoney and I. Hayes</i>	138
Object Oriented Specification and Refinement <i>P.J. Whysall and J.A. McDermid</i>	150
The Ecology of Class Refinement <i>C. Bailes and R. Duke</i>	185
Transforming Axioms for Data Types into Sequential Programs <i>R. Milne</i>	197

Refinement of Two Graph Problems <i>D.A. Carrington and K.A. Robinson</i>	241
CSP and Timewise Refinement <i>G.M. Reed, A.W. Roscoe and S.A. Schneider</i>	258
The Elusive Software Refinery: A Case Study in Program Development <i>K.R. Wood</i>	281
A Theory of State-based Parallel Programming: Part 1 <i>Q. Xu and J. He</i>	326
Design, Verification and Documentation of Concurrent Systems <i>E.P. Gribomont</i>	360
A Formal Method for Hard Real-Time Programming <i>M. Gordon</i>	378
Constructing and Refining Modules in a Type Theory <i>S.N. Ahmed and J.M. Morris</i>	411
The Varieties of Refinement <i>J. Jacob</i>	441
Timed Process Algebra, Petri Nets and Event Refinement <i>D. Murphy</i>	456
