

## Contents

Patterns of Human Exocrine Pancreatic Secretion and Fate of Human Pancreatic Enzymes During Aboral Transit <i>E.P. DiMagno</i> .....	1
Gastrointestinal and Gallbladder Motility in Chronic Pancreatitis <i>P. Malfertheiner</i> .....	11
The Lipolytic Enzymes of the Gastrointestinal Tract and Fat Digestion <i>B. Borgström</i> .....	19
Alcohol, Nutrients, and Pancreatic Function <i>H. Worning</i> .....	27
Effects of Maldigestion on Upper Gut, Gallbladder, and Pancreatic Function <i>P. Layer</i> .....	37
Exocrine and Endocrine Relations in Chronic Pancreatitis <i>C. Owyang, D. Louie, and K. Herzig</i> .....	45
Active Components and Galenic Aspects of Enzyme Preparations <i>G.J. Peschke</i> .....	55
In Vitro Testing of Pancreatic Enzyme Preparations <i>M. Otte, H.D. Gutowski, and T. Mackenroth</i> .....	65
Delivery of Pancreatin in Microsphere Preparations: Transit, Timing, Physiological Needs <i>J.H. Meyer</i> .....	71

Treatment of Pain in Chronic Pancreatitis with Pancreatic Enzymes <i>I. Ihse</i> .....	89
Treatment of Pain in Chronic Pancreatitis with Pancreatic Enzymes: The Counterposition <i>U.R. Fölsch</i> .....	95
Treatment of Pain in Chronic Pancreatitis with Pancreatic Enzymes: Another Point of View <i>J. Mössner</i> .....	103
Metabolic Aspects of Chronic Pancreatitis <i>J. Mössner</i> .....	113
Monitoring of Enzyme Substitution Using the Cholesteryl Octanoate Breath Test <i>S. Mundlos, P. Kühnelt, and G. Adler</i> .....	123
The Influence of Granular Pancreatin upon Endocrine and Exocrine Pancreatic Function During Convalescence from Acute Pancreatitis <i>M.C. Airey and M.J. McMahon</i> .....	131
Enzyme Substitution After Subtotal Cranial Pancreatic Resection Without Pancreaticoenterostomy <i>Å. Andrén-Sandberg and Z. Zdanowsky</i> .....	139
Exocrine Pancreatic Insufficiency After Gastric Surgery: Assessment and Treatment <i>W. Domschke, G. Heptner, and S. Domschke</i> .....	147
Vitamin Deficiency in Chronic Pancreatitis: Assessment and Treatment <i>B. Lembcke and J. Stein</i> .....	155
The Aging Pancreas and the Role of Pancreatic Enzymes in Older Patients <i>J. Hotz</i> .....	167
Pancreatic Enzymes in Cystic Fibrosis <i>J.M. Littlewood</i> .....	177
Differential Treatment of Exocrine Pancreatic Insufficiency in Chronic Pancreatitis <i>P.G. Lankisch</i> .....	191

<b>Future Aspects of Enzyme Replacement Therapy</b>	
<i>E.P. DiMagno</i> .....	209
<b>Subject Index</b> .....	215
