1 Fundamentals of Plasticity

LEHMANN, Th.: Some remarks on the phenomenological description of anisotropic behaviour of elastic-plastic solids	3
BEDNARCZYK, H.; SANSOUR, C.: On the choice of integrity base of strain invariants for constitutive equations of isotropic materials.....	26
BETTEN, J.: Modification of the normality rule.....	34
DE BOER, R.: Plastic behaviour of saturated porous media.....	46
GÜNTHER, H.: Compressible plastic deformation of porous metals.....	58
PAWELSKI, O.; HOP, R.; HAGEDORN, K.E.: Application of the mathematical theory of plasticity for developing new methods of material testing.....	65
STECK, E.: Stochastic models for the plasticity of metals.....	77
STEIN, E.; MÜLLER-HOEPPE, N.: A concept for modelling and computation of finite inelastic deformations.....	88

2 Applied Plasticity

SZCZEPINSKI, W.: A theoretical and experimental modelling of the mechanics of ductile fracture in metals.....	103
BESDO, D.: A numerical Cosserat-approach predicting the statical stability of a plane frictionless block-structure, and its boundary conditions.....	122
BOEHLER, J.-P.; KOSS, S.: Evolution of anisotropy in sheet-steels submitted to off-axes large deformations.....	143
COLLINS, I.F.: On the theory of plane strain deformations of critical state models for sands.....	159
GAMER, V.: On the quasi-analytical solutions of elastic-plastic problems with nonlinear hardening.....	168

GUDEHUS, G.; TEJCHMAN, J.: Some mechanisms of a granular mass in a silo - model tests and a numerical Cosserat approach.....	178
IKEGAMI, K.; NIITSU, Y.: Experimental investigation on plastic deformation of stainless steel at low temperature.....	194
SHIMA, S.; OKA, M.: Upper bound approach for prediction of occurrence of ductile fracture in metal forming.....	202

3 Critical States, Failure and Fracture

LECKIE, F.A.; LEMAITRE, J.: Plasticity-related critical states and failure criteria.....	215
BAŽANT, Z.P.: Physical argument for nonlocality of microcracking damage in a continuum.....	238
BONTCHEVA, N.; BALTOV, A.: Plastic localization in damaged materials.....	242
FISCHER, F.D.; STÜWE, H.: Some remarks to the application of damage mechanics to low cycle fatigue.....	252
GROSS, D.; CHEN, Y.Z.: A new integral equation approach for the curved crack problem in a circular plate.....	267
HERRMANN, K.P.; WANG, Y.Q.: Crack analysis in fibrous composites with partially plastified matrix materials.....	274
KNOPS, R.J.: On isolated point singularities in classical elasticity.....	286
STEINMANN, P.; WILLAM, K.: Localization within the framework of micropolar elasto-plasticity.....	296
THERMANN, K.: Bifurcation phenomena of compressible materials in the plane tension or compression test.....	314

4 Dynamic Elasto-Plasticity

HULT, J.: Impact load on elastic rod embedded in a rigid plastic medium.....	327
FOTIU, P.; IRSCHIK, H.; ZIEGLER, F.: Micromechanical foundations of dynamic plasticity with applications to damaging structures.....	338
GRUNDMANN, H.; KONRAD, A.; ZIRWAS, G.: The elastic continuum with a cylindrical hole subjected to a moving time depending load.....	350

MÜLLER, M.; HAUGER, W.: Elastic-plastic wave propagation of combined generalized forces in a Timoshenko beam.....	361
---	-----

TIROSH, J.; IDDAN, D.: On the limit analysis of high speed forming processes in cold or hot conditions.....	371
---	-----

5 Thermomechanics

INOUE, T.; JU, D.: Thermomechanical simulation of some types of steady continuous casting processes.....	389
--	-----

ALTENBACH, J.; ALTENBACH, H.; MUENCH, C.: Some aspects of nonlinear thermomechanical structure analysis.....	407
--	-----

HAUPT, P.: On the thermodynamics of rate-independent elastoplastic materials.....	416
---	-----

MÜLLER, I.: Some remarks on thermo-mechanical hysteresis.....	428
---	-----

TANAKA, K.: Analysis of recovery stress and cyclic deformation in shape memory alloys.....	441
--	-----

6 Rheology of Solids

LAERMANN, K.H.: On a hybrid method to analyse viscoelastic problems.....	455
--	-----

BRÜLLER, O.S.: Energetical aspects of polymer failure.....	466
--	-----

ISHIKAWA, H.: Creep behavior of SUS304 after cyclic plasticity.....	480
---	-----

KALISZKY, S.; VÁSÁRHELYI, A.; LÓGÓ, J.: The time history analysis of viscoelastic structures by mathematical programming.....	488
---	-----
