

Contents

1	Robert Feulgen Lecture 1990	
	M. N. MOORE	
	Environmental distress signals: Cellular reactions to marine pollution	1
2	General Aspects	
2.1	H. GREIM	
	General introduction into toxicology of environmental chemicals	20
2.2	E. D. WACHSMUTH	
	Does histochemistry already contribute decisively to toxicology?	27
2.3	J. BARON	
	In situ sites for xenobiotic activation and detoxication: Implications for the differential susceptibility of cells to the toxic actions of environmental chemicals . . .	32
3	Chemical Carcinogenesis	
3.1	P. BANNASCH, H. J. HACKER, F. KLIMEK, D. MAYER, H. STUMPF, H. ZERBAN	
	Cytochemical, microbiological and molecular genetic analysis of chemical carcinogenesis	45
3.2	H. J. HACKER, R. GROBHOFF, F. KLIMEK	
	Enzyme histochemistry and biochemical microanalysis of preneoplastic lesions . .	61
3.3	A. GÖLLNER, S. GERLACH, W. MÜLLER-KLIESER, H. F. TEUTSCH	
	Glucose levels in microregions of multicellular EMTG/RO tumor spheroids	73
3.4	E. SCHERER, H. BAX, J. VAN BENTHEM	
	Immunocytochemical analysis of carcinogen-DNA adducts in normal and preneoplastic tissues	77
3.5	H. P. GLAUERT	
	Histochemical and stereological analysis of putative preneoplastic hepatic lesions . .	84
3.6	R. GEBHARDT	
	Histochemical approaches to the screening of carcinogens in vitro	91
3.7	PH. A. BURNS, K. BROWN, R. BREMNER, M. CLARKE, A. BALMAIN	
	Molecular alterations in oncogenes or tumor suppressor genes during chemical carcinogenesis	100
3.8	M. SCHWARZ, A. BUCHMANN, R. BAUER-HOFMANN, J. MAHR	
	Molecular genetic analysis of preneoplastic and neoplastic liver lesions in the mouse	107
4	Embryotoxicity	
4.1	H.-J. MERKER	
	Evaluation of embryotoxic/teratogenic effects and modes of action	115
4.2	F. BECK	
	Towards a molecular approach in teratology	124
4.3	J. MILAIRE	
	Lectin histochemistry in normal and abnormal limb morphogenesis in the mouse . .	132

4.4	M. CORNELISSEN, L. DE RIDDER Stimulation of lysosomal enzymes in embryonic cartilage cells after ionizing irradiation	141
5	Hepatotoxicity	
5.1	D. SASSE, I. P. MALY Studies on the periportal hepatotoxicity of allyl alcohol	146
5.2	K. BEIER, H. D. FAHIMI Environmental pollution by common chemicals and peroxisome proliferation: Efficient detection by cytochemistry and automatic image analysis	150
5.3	A. OCHS, D. HECK, H. E. SCHÄFER, W. GEROK Toxic elements in tissue sections detected by proton induced X-ray emission (Micro-PIXE)	164
6	Nephrotoxicity	
6.1	P. H. BACH Nephrotoxicity: A better mechanistic understanding using histochemistry and cytochemistry	178
6.2	J. O. R. NØRGAARD, B. MØLLER-MADSEN, G. DANSCHER Autometallographic localization of mercury in rat kidney – Interaction between mercury and selenium	187
7	Pulmototoxicity	
7.1	D. J. TAATJES, K. O. LESLIE, M. VON TURKOVICH, J. WOODCOCK-MITCHELL, J. MITCHELL, R. B. LOW Alveolocapillary remodeling in bleomycin-induced rat lung injury: Interpretation from lectin-binding studies	194
7.2	K.-U. THIEDEMANN, TH. NOLTE, S. RITTINGHAUSEN, H. ERNST Immunohistochemistry and morphology of particle-induced pulmonary lesions	200
7.3	A. NÉMETH, L. HARSÁNYI, Á. LÁNG, J. FISCHER Evaluation of organ injuries in Paraquat intoxication	213
7.4	H. H. POPPER, A. WOLDRICH Oxygen radical formation in probable mechanism for chromate toxicity	220
8	Neurotoxicity	
8.1	G. STOLTENBURG-DIDINGER The effect of pre- and postnatal exposure to organic solvents on the development of the cerebellar cortex in the rat	227
8.2	G. B. VAN DER VOET, E. MARANI, S. TIO, F. A. DE WOLFF Aluminium neurotoxicity	235
8.3	C. NITSCH, F. SCHAEFER, A. L. SCOTT Ibotenic acid induced calcium deposits in rat brain: A histochemical light and electron microscopic analysis	243
8.4	J. D. SCHIØNNING, E. H. POULSON, B. MØLLER-MADSEN, G. DANSCHER Ultrastructural localization of mercury in rat dorsal root ganglia after exposure to mercury vapor	249

9 Dermatotoxicity

- 9.1 TH. MAURER, M. GERMER, A. KRINKE
Does the immunohistochemical detection of Langerhans cells help in the differential diagnosis of irritative and allergic skin reactions? 256

10 Reproductive Toxicity

- 10.1 E. ERNST, M. CHRISTENSEN, J. G. LAURITSEN
In vitro exposure of human spermatozoa to mercuric chloride – a histochemical study 263
- 10.2 C. MICHEL, R. GRAF
Effect of synthetic glucocorticoid on the decidua of the mouse: Prematuring or toxic effect? 269

11 Detection of Metals in Tissues

- 11.1 G. DANSCHER
Histochemical tracing of zinc, mercury, silver and gold 273
- 11.2 G. W. HACKER, G. DANSCHER, A.-H. GRAF, G. BERNATZKY, A. SCHIECHL, L. GRIMELIUS
The use of silver acetate autometallography in the detection of catalytic tissue metals and colloidal gold particles bound to macromolecules 286
- 11.3 H. J. HÖHLING, R. H. BARCKHAUS, E. R. KREFTING, P. F. SCHMIDT
Microprobe analyses and their possible application to toxicology 291

12 Metal Toxicity

- 12.1 M. CHRISTENSEN, S. ELLERMANN-ERIKSEN, J. RUNGBY, S. C. MOGENSEN, G. DANSCHER
Histochemical and functional evaluation of mercuric chloride toxicity in cultured macrophages 306
- 12.2 H. RAES, W. DE COSTER
Storage and detoxication of anorganic and organic mercury in honeybees: Histochemical and ultrastructural evidence 316
- 12.3 P. HÖRSTED-BINDSLEV, J. E. BOLEWSKA, D. ARENHOLT-BINDSLEV, G. DANSCHER
Dentinal transport of mercury from dental silver amalgam restorations 321
- 12.4 E. H. POULSEN, J. D. SCHJØNNING, B. MØLLER-MADSEN, G. DANSCHER
Gold in the thyroid gland of rats 327
- 12.5 R. H. BARCKHAUS, P. F. SCHMIDT
How can toxic elements (Pb, Ti) be localized in histological sections by electron-probe X-ray microanalysis (EPMA)? 332
- 12.6 P. F. SCHMIDT, R. H. BARCKHAUS
How can toxic elements be localized in histological sections by laser microprobe mass analysis (LAMMA)? 342
- 12.7 R. SCHMIDT, K. BÖHM, W. VATER, E. UNGER
Aluminium induced osteomalacia and encephalopathy – an aberration of the tubulin assembly into microtubules (MTs) by Al^{3+} ? 355
- 12.8 H.-J. PESCH, TH. KRAUS, TH. PALESCH, H. SEIBOLD
Cadmium determination in human organs by Zeeman AAS. A postmortem investigation 365

13 Miscellaneous

- 13.1 M. A. SPYCHER, P. VOGT, R. WESSICKEN
In situ identification of toxic particles in human tissues 372
- 13.2 F. VOGEL, E. KÄRGEL, W.-H. SCHUNCK
In situ localization of cytochrome P-450, the first enzyme involved in aliphatic hydrocarbon degradation in the yeast *Candida maltosa* 383
- 13.3 U. SCHUMACHER, H.-P. HORNY, G. HEIDEMANN, K. SKIRNISSON, U. WELSCH
Histological and histochemical investigations into the cause of the recent seal death epidemic 390

14 Addendum: Free Communications (abstracts)

- 14.1 A. NEWHAM, P. MALY
The activity and intra-acinar distribution of hepatic G6PDH in pregnant rats 395
- 14.2 H. F. TEUTSCH, S. GERLACH, T. L. KYANDER-TEUTSCH
Changes of hepatic 3-hydroxybutyrate dehydrogenase activity during the diurnal and 4-day estrous cycles of the rat 396
- 14.3 D. SCHÜRFELD, S. GERLACH, H. F. TEUTSCH
Can microchemistry be used to standardize cytophotometric measurement of enzyme histochemical reaction product? 396
- 14.4 C. ZUBER, P. M. LACKIE, PH. U. HEITZ, J. ROTH
Identification of a cell adhesion molecule as an onco-developmental antigen: Highly sialylated N-CAM in embryonic kidney and Wilms tumor 398
- 14.5 G. SMETS, P. VERHAVER, G. KLÖPPEL
Immunocytochemistry of peptide hormones in cryostat sections of the human pituitary: Effect of various short term fixation procedures 398
- 14.6 G. SMETS, B. COLLUMBIEN, G. KLÖPPEL
Localization of corticotropin-releasing factor (CRF) receptors on opiomelanocortin-secreting cells of the normal human pituitary 398
- 14.7 R. W. VEI, K. H. MEYER, H. W. HABBES, E. W. PETRASCH
A new polyclonal anti 2-amino-5-phosphonovalerate antibody for the immunocytochemical visualization of this NMDA receptor antagonist after injection into the rat brain 399
- 14.8 W. GÖTZ, H.-W. KORF, F. THEURING, R. HERKEN
Immunohistochemistry as a tool for the study of transgenic mice pathology 400
- 14.9 J. R. PTASHEKAS, M. R. PTASHEKAS
Duodenal and mast cell reaction following a single chemical irritation (immunohistochemical and ultrastructural study) 401
- 14.10 J. G. WOOD, D. TAYLOR
Dopamine sulfur and iron in the primate ventral mesencephalon 402
- 14.11 B. BORISCH, K. ELLINGER, F. NEIPEL, B. FLECKENSTEIN,
H. K. MÜLLER-HERMELINK
Detection of human herpes virus-6 DNA in patients with lymphoproliferative disease 403

Subject Index 405
