

TABLE OF CONTENTS

Foreword

SECTION 1 : **Conceptual Bases for System Modelling and Design**

Chapter 1 :	Model-Based Activities: A Paradigm Shift Tuncer I. Ören	3
Chapter 2 :	System Paradigms as Reality Mappings Maurice S. Elzas	41
Chapter 3 :	General Systems Framework for Inductive Modelling George J. Klir	69
Chapter 4 :	System Theoretic Foundations of Modelling and Simulation Bernard P. Zeigler	91
Chapter 5 :	The Tricotyledon Theory of System Design A. Wayne Wymore	119
Chapter 6 :	Concepts for Model-Based Policy Construction Maurice S. Elzas	133

SECTION 2 : **Model-Based Simulation Architecture**

Chapter 7 :	Structures for Model-Based Simulation Systems Bernard P. Zeigler	185
Chapter 8 :	Symbolic Manipulation of System Models Franz Pichler	217
Chapter 9 :	Concepts for an Advanced Parallel Simulation Architecture Len Dekker	235

SECTION 3 : **Impact of Formalisms on Model Specification**

Chapter 10 :	GEST - A Modelling and Simulation Language Based on System Theoretic Concepts Tuncer I. Ören	281
Chapter 11 :	Continuous and Discontinuous-Change Models: Concepts for Simulation Languages Roy E. Crosbie	337
Chapter 12 :	Discrete Event Formalism and Simulation Model Development Sudhir Aggarwal	357

SECTION 4 : **Model Identification, Reconstruction, and Optimization**

Chapter 13 :	Structure Characterization for Ill-Defined Systems Jan A. Spriet and Ghislain C. Vansteenkiste	383
--------------	---	-----

Chapter 14 :	Reconstructability Analysis: An Overview George J. Klir	409
Chapter 15 :	SAPS - A Software System for Inductive Modelling Hugo J.J. Uyttenhove	427
Chapter 16 :	Optimization in Simulation Studies Louis G. Birta	451
SECTION 5 :	Quality Assurance in Model-Based Activities	
Chapter 17 :	Quality Assurance in Modelling and Simulation: A Taxonomy Tuncer I. Ören	477
Chapter 18 :	How to Enhance the Robustness of Simulation Software Francois E. Cellier	519
Chapter 19 :	Simulation Model Validation Robert G. Sargent	537
Chapter 20 :	Critical Issues in Evaluating Socio-Economic Models John Henize	557
SECTION 6 :	Contributed Workshop Presentations	
Group 1 :	Model-Based Simulation Architecture	593
Group 2 :	Impact of Formalisms on Model Specification	611
Group 3 :	Model Identification, Reconstruction, and Optimization	631
Group 4 :	Quality Assurance in Model-Based Activities	645
