Chapter 1: Paranasal Sinuses and Orbit

Paranasal Sinuses: Anatomical Considerations. J. Lang (With 14 Figures)	3
The Growth of the Paranasal Sinuses in Craniostenosis. J. Mühling, J. Reuther, N. Sörensen, and H. Collmann (With 5 Figures)	19
Clinical Anatomy of the Sphenoidal Sinus. J. Lang and J. Pahnke (With 5 Figures)	23
Space-Occupying Processes of Paranasal Sinuses. I. Gádor, P. Piffkó, M. Hajda, F. Lányi, and E. Pásztor	29
Clinical Manifestation of Sinus Disorders – ENT. J. Helms . .	31
Ophthalmological Manifestations of Paranasal Sinus Diseases. R. Rochels (With 8 Figures).	33
Imaging of the Paranasal Sinuses. B. Deschepper and J. Vignaud (With 8 Figures)	43
Influence of Sphenoidal Sinus Size on the Sella Angle in Lateral Cephalograms. R. Anthofer, C. Krenkel, and H. Matras (With 5 Figures)	51
The Sphenoid Sinus: Typical and Variable Morphologic Pattern Demonstrated by High-Resolution and Multiplanar CT. J. P. Haas, G. Kahle, and W. Draf (With 6 Figures)	55
Interventional Angiography. D. Kühne and D. de Silva (With 5 Figures)	59
Surgical Management of Maxillary Sinus Pathology. N. Schwenzer (With 7 Figures).	65
Neurosurgical/ENT Management of Paranasal Sinus Lesions Extending Through the Skull Base. E. J. Dolan, P. Gullane, F. Gentili, and J. Rutka	71

Therapy of Tumors Affecting the Paranasal Sinuses and Sellar Region. D. Riediger, W. Haßler, and N. Schwenzer (With 6 Figures).	76
Microscopic Endonasal Surgery of the Paranasal Sinuses and the Parasellar Region. R. G. Amedee, W. Mann, and J. Gilsbach (With 5 Figures).	81
Exeresis and Reconstruction Techniques in the Surgical Treatment of Malignant Tumors of the Ethmoid. F. Lesoin, P. Pellerin, and C. E. Thomas (With 4 Figures).	88
Total Ethmoidectomy for Malignant Tumors of the Anterior Skull Base: 14 Years' Experience on 62 Cases. J. P. Bebear, D. Stoll, and V. Darrouzet (With 3 Figures)	93
The Status of the Frontal Sinus After Craniotomy. W. Mann, H. Riechelmann, and J. Gilsbach (With 2 Figures).	98
Juvenile Nasopharyngeal Angiofibroma: The Update Concept of Diagnosis and Therapy. W. Draf, J.-P. Haas, and H.-P. Richter (With 6 Figures)	104
Computed Tomography-Stereotactic Curie Therapy of Recurrent Nasopharyngeal Carcinoma Invading the Skull Base. A. Etou, M. Mohadjer, and F. Mundinger (With 4 Figures).	109
Isolated Sphenoid Sinus Aspergillosis with Intracranial Extension: Report on Three Cases. L.-S. Lin, S.-L. Howng, W.-T. Chiu, J.-K. Loh, and C.-J. Shih (With 5 Figures).	114
Cranial Complications Following Dental Infection. W. Wagner, U. W. Wahlmann, and H. Scheunemann (With 2 Figures).	120
Lesions of the Skull Base and Paranasal Sinuses Presenting with Unilateral Exophthalmos. K. Abbassioun, A. Amirjamshidi, and J. Amini (With 4 Figures)	123
Periorbital Approaches for Resection of Tumors of the Orbita. N. Schwenzer (With 7 Figures)	126
Management of Benign Orbital Tumors Via Medial and Osteoplastic Lateral Orbitotomy. W. Stoll, H. Busse, and P. Kroll (With 3 Figures)	130
Surgical Technique and Results of Orbital Decompression in Graves' Disease. G. Geyer, F. X. Brunner, W. Buschmann, and J. Müller (With 2 Figures).	134

Experiences with an Evacuatable Anatomic Maxillary Sinus Implant for the Management of Orbital and Maxillary Injuries. C. Krenkel, J. Hachleitner, H. Thaller-Antlanger, and G. Lixl (With 6 Figures)	138
---	-----

Chapter 2: Sellar Region

A. General Aspects

Clinical Anatomy of the Ophthalmic Artery and Cavernous Sinus. J. Lang and I. Kageyama (With 4 Figures)	145
Microsurgical Anatomy of the Intracavernous Carotid Artery and Its Branches. M. Dujovny, J. I. Ausman, S. C. Ohaegbulam, F. G. Diaz, F. Holzer, L. J. Zamorano, and B. Sadasivan (With 1 Figure)	149
Microsurgical Anatomy of the Upper Cranial Nerves in the Sellar Region. S. C. Ohaegbulam, J. I. Ausman, M. Dujovny, F. G. Diaz, and H. G. Mirchandani (With 6 Figures)	154
Ophthalmological Symptoms in Tumors of the Sellar Region. A. Nover (With 5 Figures)	160
Anatomy and Imaging of the Normal Sella Turcica and Pituitary Gland. F. Heran and J. Vignaud (With 7 Figures)	166
New Possibilities for Computed Tomography in the Diagnosis of Pituitary Microadenomas. J. F. Bonneville and F. Cattin (With 7 Figures).	180
Computed Tomographic Cisternography of the Sellar and Parasellar Region: A Radiological Approach to Cisternal Anatomy. M. Dickob, M. Galanski, and W. Wittkowski (With 6 Figures)	188
Magnetic Resonance Imaging Diagnosis of Microadenoma. K. Takakura, A. Teramoto, A. Kuroiwa and N. Shitara (With 6 Figures).	193
Magnetic Resonance Imaging of Parasellar Developed Pituitary Adenomas: New Consequences for Pituitary Surgery. R. Nistor, R. Fahlbusch, M. Buchfelder, and W. Huk (With 6 Figures)	199

Magnetic Resonance in Modern Neuroimaging of Skull Base Neoplasms with Particular Reference to the Evaluation of Complications of Medically and Surgically Treated Pituitary Adenomas. N. Roosen, T. Kahn, J. C. W. Kiwit, G. Fürst, and E. Lins (With 6 Figures).	205
Diagnostic and Therapeutic Angiography of the Sellar and Parasellar Region. G. Rodesch, K. Terbrugge, P. Lasjaunias, and P. Pruvost (With 1 Figure)	211
Value of Visual Evoked Potentials in Indicating an Operation in Sellar Space-Occupying Processes. H.-E. Nau (†), M. Foerster, F. Rauhut, W. Engel, and F. Rimbach	218
Preoperative Grading of Visual Function by Pattern Evoked Electroretinogram and Visual Evoked Cortical Potentials in Patients with Sellar and Parasellar Tumors. R.G. Lorenz, W. Steudel, W. Heider, and R. Lorenz (With 2 Figures).	221
 <i>B. Pituitary Adenomas</i>	
Surgery of Sellar Lesions: Experience from 38 Years. B. Ramamurthi (With 4 Figures).	231
Pituitary Tumors in the Aged. K. D. Post, C. Loftus, and J. Lustgarten (With 1 Figure)	239
Pituitary Adenomas in Childhood and Adolescence. G. Maira and C. Anile (With 6 Figures).	243
Recurrent Pituitary Adenomas. R. Fahlbusch and M. Buchfelder (With 6 Figures)	251
A Clinical, Endocrinological, and Morphological Study of Pituitary Tumor Recurrence. F. Rauhut, H.-E. Clar, H.-E. Nau(†), L. Gerhard, and M. Bamberg (With 4 Figures)	267
The Growth Rate in Pituitary Adenomas: Measurement by Proliferation Marker Ki 67. E. Knosp, K. Kitz, A. Perneczky, and A. Korn (With 2 Figures)	272
Therapeutic Considerations in Pituitary Tumor Recurrence. H.-E. Clar and F. Rauhut (With 6 Figures).	277
Aggressive Behavior and Changing Histology in a Pituitary Adenoma. J. J. A. Mooij (With 5 Figures)	282
Pituitary Adenoma with Cavernous Sinus Involvement. A. Basso, S. Berner, E. Caputi, and C. Yampolsky (With 1 Figure)	286

Cushing's Disease. K. D. Post and J. Habas	294
Skull Base Involvement in Pituitary Adenomas. J. Šteňo (With 8 Figures)	302
Sub- and Retrochiasmatic Approach for Microsurgical Removal of Large Suprasellar Tumors. K. E. Turel, M. Samii, and R. Ramina (With 3 Figures)	309
The Use of CO ₂ Laser in Transsphenoidal Surgery of Sellar Region Tumors. Ž. Gnjiđić, L. Negovetić, D. Vidović, and D. Lovrić (With 2 Figures)	323
Practical Experiences with the Nd-YAG Laser in Pituitary Surgery. R. Oeckler (With 2 Figures)	326
Pituitary Interstitial Irradiation for Cushing's Disease and Acromegaly. L. M. Sandler, A. Jadresic, D. H. Carr, J. M. Burrin, R. Arnot, and G. F. Joplin. (With 2 Figures)	331
Complications of Transsphenoidal Surgery. E. R. Laws	336
The Effects of Pituitary Adenoma on the Facial Skeleton in Cases of Acromegaly. M. Farmand, A. Künzler, and B. de Giacomi (With 6 Figures)	341
Some Rare Tumors of the Sella Turcica and Paranasal Sinuses. A. El Khamlichi, A. M. Khamlichi, D. Moussaif, A. El Ouahabi, and A. Aghzadi	346
The Empty Sella and the Sellar Arachnoidal Cyst. G. Hildebrandt, H. Stracke, H. Schatz, A. L. Agnoli, N. Klug, and P. Christophis (With 7 Figures)	349
<i>C. Craniopharyngiomas</i>	
Craniopharyngioma: A Puzzling Neurosurgical Problem. B. Klun (With 2 Figures)	361
The Radical Operation for Removal of Craniopharyngioma. W. H. Sweet	365
Experiences with Radical Excision of Craniopharyngioma. L. Symon (With 4 Figures)	373
Some Technical Considerations Regarding Cranio- pharyngioma Surgery: The Bifrontal Approach. W. Bini, A. Sepehrnia, and M. Samii (With 5 Figures)	381
Two Rare Craniopharyngiomas. J. P. Tsirimbaz (With 8 Figures)	387

Chapter 3: Other Space-Occupying Lesions

Thermoregulation in Patients with Skull Base Tumors. R. Behr, C. Dietrich, G. Hildebrandt, N. Klug, and K. Brück (With 6 Figures)	395
Operations of Skull Base Processes: Value of Intraoperative Monitoring. M. Lorenz and M. R. Gaab (With 5 Figures)	407
Surgery of Extracerebral Tumors of the Frontal and Medial Skull Base. D. Riediger, M. Ehrenfeld, and W. Haßler (With 6 Figures)	414
Craniofacial Resection for Anterior Skull Base Tumors. K. D. Post and A. Blitzler (With 3 Figures)	420
Trigeminal Schwannoma. K. D. Post and P. McCormick (With 1 Figure)	426
Parasellar Chondrosarcoma: Case Report and Literature Review. A. Daher and M. Sindou (With 5 Figures)	433
Cholesterol Granuloma of the Skull Base: A Review. F. W. Gamache Jr. and T. McLure	439
The Transpalatal-Transpharyngeal Approach to Chordomas of the Ventral Sphenoclivar Regions. C. Zini, A. Gandolfi, and F. Piazza	444
Transnasal-Sphenoidal Approach to Skull Base Lesions Other than Pituitary Adenomas. F. Calbucci, F. Tognetti, and G. Frank (With 4 Figures)	449
Transmaxillary-Transnasal Approach: A Microsurgical Anatomical Model. A. Rabadán, D. Benedetti, H. Conesa, J. Derkrikorian, and M. Peirano (With 10 Figures)	453
Transsylvian Pretemporal Approach to the Infundibular Region. J. C. Chiaradio, R. Schreck, V. Chavez, and M. C. Lozano (With 1 Figure)	462
Meningioma and Parasellar Pituitary Adenoma Affecting the Cavernous Sinus: Radical Tumor Extirpation? K. von Wild and N. Eskinja (With 6 Figures).	465
The Microanatomical Basis for Cavernous Sinus Surgery. B. Sadasivan, M. Dujovny, S. Ma, L. J. Zamorano, H. G. Mirchandani, S. C. Ohaegbulam, and J. I. Ausman (With 2 Figures).	479
The Cavernous Sinus Syndrome: An Anatomical and Clinical Study. J. J. van Overbeeke (With 2 Figures)	484

Vascular Lesions in the Sellar Region. J. I. Ausman, F. G. Diaz, M. Dujovny, B. Sadasivan, S. C. Ohaegbulam, and L. J. Zamorano	490
Surgery of Vascular Lesions in the Cavernous Sinus. A. Perneczky, E. Knosp, and A. Zohdi (With 1 Figure). . .	494
Parasellar Aneurysms: Treatment Options and Results. H. M. Mehdorn, D. Kühne, W.-H. Heienbrok, and W. Grote (With 2 Figures)	502
Direct Operative Approach and Clipping of Intracavernous Nontraumatic Aneurysms. V. Lupret, D. Vidović, and S. Vuletić (With 6 Figures)	510
Parasellar Cavernous Angiomas: Report of Two Cases. G. Panzarasa, A. Voci, E. Regalia, E. Geuna, and C. Bellotti (With 6 Figures).	516
Parasellar Cavernomas Mimicking Meningiomas. J. Zentner, G. Schroth, E. Heiss, and P. J. Egan (With 4 Figures).	524
Ophthalmological Manifestations in Cases of Giant Parasellar Aneurysm. U. Giers and E. Schütte (With 5 Figures) . . .	529
Extra-Intracranial Anastomosis with Venous Interpositions in Patients with Giant Aneurysms of the Skull Base. H. J. Klein, S. A. Rath, and K. Schmidt (With 6 Figures) . .	535
Embolization of Four Cases of Carotid-Cavernous Sinus Fistulas by Retrograde Catheterism of the Superior Orbital Vein. J. P. Caron, Y. Raulo, A. Gaston, P. Lasjaunias, and J. Courtheoux (With 6 Figures)	542
Subject Index	551
