<i>G. Hennemann, E.P. Krenning, B. Bernard, F. Huvers, J. Mol, R. Docter, T.J. Visser</i> Regulation of Influx and Efflux of Thyroid Hormones in Rat Hepatocytes: Possible Physiologic Significance of the Plasma Membrane in the Regulation of Thyroid Hormone Activity	1
<i>J.H. Oppenheimer, H.L. Schwartz, D.B. Jump, C.N. Mariash</i> Recent Studies of Thyroid Hormone Action at the Hepatocellular Level	6
<i>G.S. Rao, C.M. Cronrath, M.L. Rao</i> Induction of Malic Enzyme in Explants of Human Adipose Tissue by L-3,5,3'-Triiodothyronine	16
<i>B.-A. Lamberg, K. Liewendahl, J. Bernal</i> Partial Peripheral Resistance to Thyroid Hormones, a Post-Receptor Defect?	20
<i>S.H. Ingbar, A. Balsam</i> The Significance of Ether Link Cleavage of Iodothyronines and Its Apparent Reciprocity with the Conversion of Thyroxine to Triiodothyronine	23
<i>K. Sato, J. Robbins</i> Does Glutathione Regulate Thyroxine Deiodinase Activity in Cells?	30
<i>T.J. Visser, H. Otten, J.A. Mol, R. Docter, G. Hennemann</i> Sulfation Facilitates Hepatic Deiodination of Iodothyronines	35
<i>J. Köhrle, R.-D. Hesch</i> Biochemical Characteristics of Iodothyronine Monodeiodination by Rat Liver Microsomes: The Interaction between Iodothyronine Substrate Analogs and the Ligand Binding Site of the Iodothyronine Deiodinase Resembles that of the TBPA-Iodothyronine Ligand Binding	42
<i>Ch.H. Emerson, L.E. Braverman</i> Peripheral Deiodination of Thyroid Hormones in Placenta and Fetal Membranes	56
<i>R. Grau, F.S. Keck, U. Loos, E.F. Pfeiffer</i> The Influence of Glucose and Insulin Infusion on in In-Vitro T ₄ Monodeiodination in Rat Liver Microsomes	62
<i>L. Wartofsky</i> Physiological or Adaptive Alterations in the Deiodination of Thyroxine	66
<i>J.T. Nicoloff, S.M.C. Lum, C.A. Spencer, R. Morris</i> Peripheral Autoregulation of Thyroxine to Triiodothyronine Conversion in Man	74
<i>M.M. Kaplan, R. Breitbart</i> Conversion of Thyroxine to Triiodothyronine in the Anterior Pituitary Gland and the Influence of this Process on Thyroid Status	79
<i>U. Loos, F.S. Keck, R. Grau</i> T ₃ -Hyperthyroidism Caused by Enhanced and Shifted T ₄ -Conversion	85
<i>M.J. Müller, R.-D. Hesch</i> Syndromes Related to Defective Iodothyronine Metabolism	93
<i>L. Wartofsky, K.D. Burman</i> Effects of Drugs on Peripheral Thyroxine Metabolism	105
Roundtable Discussion: Clinical Aspects of Thyroxine Metabolism Chairman: <i>L. Wartofsky</i>	108
<i>B.-A. Lamberg</i> Concluding Remarks	111
