Itzhak D. Goldberg
Preface

<i>Joan G. Jones, Jeffrey Segall and John Condeelis</i> Molecular analysis of amoeboid chemotaxis: Parallel observations in amoeboid phagocytes and metastatic tumor cells.....	1
<i>Ana M. Vallés, Brigitte Boyer and Jean Paul Thiery</i> Adhesion systems in embryonic epithelial-to-mesenchyme transfor- mations and in cancer invasion and metastasis.....	17
<i>Liana Harvath</i> Neutrophil chemotactic factors	35
<i>Ermanno Gherardi and Arnold Coffey</i> Purification and characterization of scatter factor	53
<i>Madhu M. Bhargava, Yuan Li, Ansamma Joseph, Maryanne Pen- dergast, Regina Hofmann, Eliot M. Rosen and Itzhak D. Gold- berg</i> Purification, characterization and mechanism of action of scatter factor from human placenta	63
<i>Eliot M. Rosen, Derek Grant, Hynta Kleinman, Susan Jaken, Maribeth A. Donovan, Eva Setter, Peter M. Luckett, William Carley, Madhu Bhargava and Itzhak D. Goldberg</i> Scatter factor stimulates migration of vascular endothelium and capillary-like tube formation.....	76
<i>P. G. Dowrick and R. M. Warn</i> The cellular response to factors which induce motility in mam- malian cells	89
<i>Jürgen Behrens, K. Michael Weidner, Uwe H. Frixen, Jörg H. Schipper, Martin Sachs, Naokatu Arakaki, Yasushi Daikuhara and Walter Birchmeier</i> The role of E-cadherin and scatter factor in tumor invasion and cell motility	109

<i>Seth L. Schor, Ann Marie Grey, Martino Picardo, Ana M. Schor, Anthony Howell, Ian Ellis and Graham Rushton</i>	
Heterogeneity amongst fibroblasts in the production of migration stimulating factor (MSF): Implications for cancer pathogenesis	127
<i>Mary L. Stracke, Sadie A. Aznavoorian, Marie E. Beckner, Lance A. Liotta and Elliott Schiffmann</i>	
Cell motility, a principal requirement for metastasis	147
<i>Ivan R. Nabi, Hideomi Watanabe, Steve Silletti and Avraham Raz</i>	
Tumor cell autocrine motility factor receptor	163
<i>Pravinkumar B. Sehgal and Igor Tamm</i>	
Interleukin-6 enhances motility of breast carcinoma cells	178
<i>Eliot M. Rosen, David Liu, Eva Setter, Madhu Bhargava and Itzhak D. Goldberg</i>	
Interleukin-6 stimulates motility of vascular endothelium	194
<i>G. Thurston, I. Spadinger, B. Palcic</i>	
Computer automation in measurement and analysis of cell motility <i>in vitro</i>	206
