

CONTENTS

Introduction <i>J.L. Talmon, J. Fox</i>	v
---	---

Medical and Health Research Programme of the EC <i>Commission of the European Communities</i>	vii
---	-----

METHODS

The Use of the KADS Methodology in Designing an Intelligent Teaching System for Diagnosis in Physiotherapy <i>J. Breuker, R. Winkels</i>	3
--	---

Machine Learning as a Tool for Knowledge Acquisition <i>R.A.J. Schijven, J.L. Talmon</i>	27
--	----

Tools for Modeling Time-oriented Concepts: Applications for Retrieval of Liver Transplantation Data <i>G. Tusch</i>	36
---	----

Belief Network Representations of Temporal Knowledge for Medical Expert Systems <i>C. Berzuini, S. Quaglini, R. Bellazzi</i>	49
--	----

Decisions Based on Qualitative and Quantitative Reasoning <i>S. Andreassen</i>	68
--	----

Knowledge Representation and Data Model to Support Medical Knowledge Base Transportability. <i>O.B. Wigertz, P.D. Clayton, G. Hripcsak, R. Linnarsson</i>	80
---	----

Reliable and Reusable Tools for Medical Knowledge Based Systems <i>J. Fox, A. Glowinski, M. O'Neil</i>	91
--	----

The MEDES Subshell: Towards an Open Architecture for Decision Support Systems <i>P.F. de Vries Robbé, P.E. Zanstra, W.P.A. Beckers</i>	106
--	-----

APPLICATIONS

Management of the chronically ill	
Evaluating Expert Critiques. Issues for the Development of Computer-Based Critiquing in Primary Care <i>J. van der Lei, R.F. Westerman, W.M. Boon.</i>	117

Knowledge Acquisition for a Decision Support System for Anti-epileptic Drug Surveillance <i>R.P.A.M. Smeets, J.L. Talmon, P.J.M. van der Lugt, R.A.J. Schijven</i>	129
DIACONS - Diabetes Consultant: Goals and Status <i>R. Engelbrecht, J. Schneider, K. Piwernetz</i>	140
CARTES - A Prototype Decision Support System in Oncology <i>P. Kolari, J. Yliaho, K. Näriäinen, S. Hyödynmaa, A. Ojala, J. Rantanen, N. Saranummi</i>	148
APPLICATIONS	
Management of the critically ill	
Information Management and Decision Support for the Critically Ill <i>K. Autio, A. Mäkivirta, T. Sukuvaara, A. Kari, E. Koski, S. Kalli, J. Hunter, N. Saranummi</i>	161
On Knowledge Based Systems in CCU's: Monitoring and Patients Follow-up <i>J. Mira, R.P. Otero, S. Barro, A. Barreiro, R. Ruiz, R. Marín, A.E. Delgado, A. Amaro, M. Jacket</i>	174
ARCA - An Integrated System for Cardiac Pathologies Diagnosis and Treatment <i>J. Rocha, E. Oliveira</i>	193
PC-based Multistep Infusion Regimens and On-line Control of Four Infusion Devices <i>A.A. d'Hollander, F. Cantraine, E. Coussaert, L. Barvais</i>	205
A System for Interactive Knowledge-Based Simulation With Application in Management of the Critically Ill <i>T. Groth, M. Hakman</i>	214
Decision Support In Patient Monitoring By Interactive Information System Including Knowledge-Based Components <i>G. Rau, Th. Shecke, H. Kaesmacher, G. Kalff</i>	226
Computerized Monitoring And Decision Support During Anaesthesia <i>C.E. Thomsen, K. Nørregaard-Christensen, A. Rosenfalck</i>	233
SIMPLEXYS Real Time Expert Systems in Patient Monitoring <i>J.A. Blom</i>	243

EVALUATION

The Evaluation of Medical Decision Support and Expert Systems: Reflections on the Literature

R. O'Moore, R. Engelbrecht

263

Evaluating Medical Expert Systems: What To Test, And How ?

J. Wyatt, D. Spiegelhalter

274

The Role of Knowledge Based Systems in Medicine: Epistemological and Evaluation issues

A. Rossi-Mori, D.M. Pisanelli, F.L. Ricci

291

Validity of Systems Application: User confidence in case application

P. McNair, J. Brender

304

Evaluation of Knowledge Based Systems from the User Perspective

*A. Grant, C. Parker-Jones, R. White, D. Cramp, A. Barreiro, P. Mira,
A. Artal, J. Montero*
