1	Introduction	1
1.1	Historical Perspective	1
1.2	Hormone Action on the Endometrium	2
1.3	Ultrastructural Features of the Endometrium	2
1.3.1	Proliferative Phase	2
1.3.1.1	General Aspects	2
1.3.1.2	Glandular Epithelium	3
1.3.1.3	Stroma	4
1.3.2	Secretory Phase	4
1.3.2.1	Glandular Epithelium	4
1.3.2.1.1	General Aspects	4
1.3.2.1.2	Nucleolar Channel System	5
1.3.2.1.3	Giant Mitochondria	6
1.3.2.1.4	Glycogen	6
1.3.2.2	Stroma	7
1.3.2.2.1	Predecidual Cells	7
1.3.2.2.2	Endometrial Granulocytes (K Cells)	7
1.4	The Action of IUDs on the Endometrium	8
1.4.1	General Considerations	8
1.4.2	Mode of Action	9
1.5	Decidua	10
1.5.1	Historical Perspective	10
1.5.2	Ultrastructural Features of the Decidua	10
1.6	Ectopic Endometrium and Ectopic Decidua	11
1.6.1	Ectopic Decidualized Tissue	11
1.6.2	Ectopic Endometrium	11
1.7	Basis for This Study	11
2	Material and Methods	14
2.1	Material	14
2.2	Light Microscopy	14
2.3	Transmission Electron Microscopy	15
2.4	Scanning Electron Microscopy	15
2.5	Three-Dimensional Reconstruction	16

2.6	Histochemistry	17
2.7	Morphometry	17
3	Results	19
3.1	Physiological Postovulatory Endometrium:	
	Glandular Epithelium.....	19
3.1.1	The Nucleolar Channel System.....	19
3.1.1.1	Problems with Three-Dimensional Reconstruction	19
3.1.1.2	The Reconstructed NCS	19
3.1.1.3	The NCS on Sections	23
3.1.1.3.1	Formation of the NCS	23
3.1.1.3.2	The Mature NCS.....	23
3.1.1.3.3	Ultimate Fate of the NCS	24
3.1.2	Giant Mitochondria	27
3.1.2.1	Problems of Reconstruction	27
3.1.2.2	Three-Dimensional Structure	28
3.1.2.3	General Morphology	29
3.1.2.4	Ultimate Fate	31
3.1.3	Glycogen in Glandular Epithelial Cells	33
3.1.3.1	Initial Stage of Glycogen Formation: Polysomes	33
3.1.3.2	Glycogen Discharge	35
3.2	Physiological Postovulatory Endometrium:	
	Stromal Elements	36
3.2.1	Endometrial Granulocytes (K Cells)	36
3.2.1.1	General Characteristics	36
3.2.1.2	Subcellular Organization	37
3.2.1.2.1	The Nucleus.....	37
3.2.1.2.2	Glycogen	37
3.2.1.2.3	ER, Golgi, Mitochondria.....	40
3.2.1.2.4	Secretory Granules	40
3.2.2	Origin of K Cells.....	41
3.2.3	K Cells Under a Progesterone IUD	41
3.2.4	K Cells During Pregnancy	43
3.2.5	Ultimate Fate of K Cells	43
3.3	The Endometrium Under a Progesterone- Releasing IUD	45
3.3.1	General Aspects	45
3.3.2	Usage up to 3 Months:	
	Stroma in Direct Contact with the IUD	45
3.3.3	Usage up to 3 Months:	
	Stroma not in Contact with the IUD	47
3.3.4	Usage up to 12 Months:	
	Stroma in Direct Contact with the IUD	47

3.3.5	Usage up to 12 Months: Stroma not in Contact with the IUD	54
3.3.6	Usage for over 1 Year	54
3.3.7	Glandular and Surface Epithelium	56
3.4	The Endometrium Under a Copper IUD	57
3.4.1	The Surface Epithelium (SEM)	57
3.4.2	The Stroma and the Glandular Epithelium (TEM)	61
3.4.3	The Decidua Under a Copper IUD	63
3.5	The Decidua of Pregnancy	63
3.5.1	General Aspects	63
3.5.2	Decidua Basalis	65
3.5.3	Decidua Parietalis	65
3.5.4	Decidua Capsularis	67
3.6	Morphometry of Decidual Cells	67
3.6.1	Decidua of Pregnancy	67
3.6.2	Progesterone IUD-Induced Decidua	68
3.7	Decidua of Ectopic Pregnancy	68
3.8	Secretory Granules of Decidual Cells	71
3.9	BL of Decidual Cells	74
4	Discussion	75
4.1	The Nucleolar Channel System	75
4.2	Giant Mitochondria	77
4.3	Glycogen in Glandular Epithelial Cells	78
4.4	Decidualization	78
4.5	Endometrial Granulocytes (K Cells)	80
4.6	Prolactin from Decidua	82
4.7	Desquamation	83
4.8	The Endometrium Under IUDs	84
4.9	Conclusions	85
5	Summary	86
	References	88
	Subject Index	98
