Knowledge-Based Systems in Statistics

<i>H. J. Adèr</i> Formalisation Methods for Statistical Domain Knowledge	3
<i>U. Haag, G. Antes, M. Bismarck, R. Haux, R. Holle, A. Neiß and G. Nürnberg</i> Knowledge-Based Planning of Clinical Trials	13
<i>U. Küsters</i> Programming Languages for the Development of Statistical Expert Systems	19
<i>G. Nakhaeizadeh</i> Inductive Expert Systems and their Application in Statistics	31
<i>H. P. Ohly and P. Mutschke</i> AKCESS: Wissensverarbeitung mit bibliographischen Datenbanken	39
<i>K. P. Pfeiffer</i> A Knowledge Base for Discriminant Analysis: Rule System and Implementation	49
<i>K. M. Witkowski</i> A Knowledge-Based Interface to Statistical Analysis Systems - Report on the Current Status of the MS-DOS Implementation	57

Statistical Programs in Data Analysis and Data Management: Comparisons and Evaluations

<i>J. Gladietz</i> SPSS Categories TM - Ein neues Modul zur Analyse kategorialer Daten (P)	67
<i>J. Hefner</i> Data Access and Data Management with the SAS System (P)	83
<i>M. Hill</i> New Developments at SYSTAT (P)	91
<i>S. Schach</i> Statistische Software - Eignung für die Auswertung komplexer Versuche	99

Individual Modelling

S. Gabler, F. Laisney and M. Lechner

- BSNP - A GAUSS Program for Semi-Nonparametric Maximum
Likelihood Estimation of Binary Choice Models 113

R. Langeheine and F. Van de Pol

- Recent Developments in Discrete Space Discrete Time Markov Modelling 119

C. Melbeck

- Network Analysis with the Data- and Method Base System SONIS 127

G. P. Müller

- Modelling Constraints to Decision Making: The Analysis of
Governmental Budgeting Behaviour 135

R. Scheines, P. Spirtes and C. Glymour

- TETRAD II: Finding Causal Models of Statistical Data (P) 143

H. Singer

- Continuous Time Dynamical Systems with Discrete Data, Errors of
Measurement and Individual Specific Effects 153

T. Staufienbiel and I. Borg

- HISYS - A Program for the Measurement and Scaling of Hierarchical Systems 161

Systems for Interactive Graphical Data Analysis

A. Flache

- Empacs: A Softwaretool for the Empirical Analysis
of Chaotic Systems 169

M. Nagel, T. M. Huber and H. Höring

- Hochinteraktive Graphik und ihre Anwendung auf Daten
mit territorialem Bezug 177

Statistical Algorithms

G. Antes and W. Sauerbrei

- Simulations in the Statistical System SAS 187

<i>U. Blien and F. Graef</i>	
ENTROP: A General Purpose Entropy Optimizing Method for the Estimation of Tables, the Weighting of Samples, the Disaggregation of Data, and the Development of Forecasts	195
<i>M. Brosz</i>	
Estimating the Number of Normal Distributed Components and Determining the Initial Values for the Parameters of a Mixture Distribution	203
<i>W. M. Hartmann</i>	
Nonlinear Optimization with the SAS System (P)	211
<i>T. Havránek</i>	
Parallelization and Symbolic Computation Techniques in Model Search	219
<i>L. Herlitzius</i>	
Estimating Non-Normal Probability Density Functions	229
<i>C. R. Mehta, N. Patel and P. Senchaudhuri</i>	
Exact Stratified Linear Rank Tests and Binary Data	237
<i>H.-J. Mucha</i>	
Specific Metrics for Cluster Analysis and Principal Components Analysis	249
<i>W. Sauerbrei and G. Antes</i>	
Investigations on Variable Selection Methods in Regression Models	259
<i>M. G. Schimek</i>	
The DERS Algorithm in Comparison with Related Spline Smoothing Algorithms: Numerical Aspects and Time Complexity	267
<i>L. Wilkinson</i>	
Algorithms for Choosing the Domain and Range when Plotting a Function	275
Experimental Design	
<i>V. Guiard</i>	
Designing Biological Assays by Means of the Module Complex WIBI	285

<i>H.-J. Malig</i> Interactive Construction of Central Composite Designs for Response Surface Modelling	293
<i>D. Rasch</i> Software for Designing Experiments	301
<i>K. Schmidt</i> Interactive Construction of Block Designs with the Dialogue System CADEMO	309
Simulation	
<i>S. Karczewski</i> The Development of a Modular Architecture for the Software Components of Gaming Simulation	319
<i>M. Möhring</i> MIMOSE - A Functional Language for Modelling and Simulation of Individual Behaviour in Interacting Populations	327
<i>R. Schnell</i> Artificial Intelligence, Computer Simulation and Theory Construction in the Social Science	335
<i>A. Uhrmacher</i> Qualitative and Quantitative Simulation - Some Comparative Aspects	343
Training in Statistics and Statistical Software	
<i>F. Böker</i> Über GSTAT2: Ein weiteres Statistikprogrammpaket zur didaktischen Unterstützung der Lehre in Anfängervorlesungen	353
<i>E. Eggenberger and J. Blaser</i> Introduction to Statistics on Macintosh	361
<i>J. Gefßler and W.-D. Heller</i> The Statistical Graphics in Practice - A Survey Concerning the Use of Graphics and Graphic-Software	367

A. Lamers

- Einsatz von Statistik-Systemen in der Ausbildung
von Studenten der Wirtschaftswissenschaften 375

A. Unwin

- How Interactive Graphics will Revolutionise the
Teaching of Statistics 385

Computer-Assisted Data Collection**I. Borg and T. Staufienbiel**

- Using HISYS to Model Individual Value Systems and Satisfaction 395

H.-J. Hippler and A. Beckenbach

- Computer-Assisted Questioning: Developments, Restrictions
and Future Possibilities 403

W. Krieger

- Interactive Computerized Assessment: Description and Evaluation
of an Instrument to Measure Psychosocial Strains and Resources 411

F. Meier

- Computergestützte Befragungen ohne Interviewer - Erfahrungen
mit dem Interaktiven Befragungs- und Instruktionssystem IBIS 419

Disclosure Avoidance and Statistical Data Analysis**E. Schach and S. Schach**

- Anonymisierte Einzeldaten für die Forschung 429

U. Blien and H. Wirth

- Testing the Anonymity of the German Microcensus.
Simulation of Identification by Simple-Matching
with Data from a Social Science Survey 439

Cartography and Geographic Information Systems**N. de Lange**

- CAD-Applications in Cartography: The Presentation of
Statistical Data in a Map 453

<i>G. Peyke</i> PCMap als Werkzeug in der thematischen Kartographie	459
<i>H. J. Platen</i> Die digitalen Nachweise der Landesvermessung als Basis von Landinformationssystemen	465
<i>W.-D. Rase</i> Computer-Assisted Mapping - The Challenges of the Nineties	473
Statistics in Linguistic Data Processing	
<i>H. Klein</i> Validity Problems and their Solutions in Computer-Aided Content Analysis with INTEXT/PC and Other New Features (P)	483
<i>R. Köhler</i> Methoden und Modelle in der quantitativen Linguistik	489
<i>U. Kuckartz</i> Computers and Qualitative Research: A Comparison of the Computer Software for Qualitative Data Analysis	497
<i>P. Ph. Mohler and C. Züll</i> Textvercodung mit TEXTPACK PC (P)	505
Computer-Aided Dictionaires of Statistics	
<i>Y. Dodge and N. Rebetez</i> Computer-Aided Dictionary of Statistical Terms	515
Statistical Workstations	
<i>A. Fortenbacher</i> Scientific Workstations and Cooperative Processing	525
Addresses	533
