Invited Lecture

Self-Organizing Cortical Networks for Distributed Hypothesis Testing and Recognition Learning <i>G.A. Carpenter and S. Grossberg</i>	3
--	---

Tutorials

Dynamical Systems and Artificial Neural Networks <i>J.G. Taylor</i>	31
Neural Modelling <i>C.L.T. Mannion</i>	77
Self-Organising Neural Maps and their Applications <i>N.M. Allinson</i>	101

Contributed Papers

The Application of Topological Mapping in the Study of Human Cerebral Tumours <i>G. Sieben, L. Vercauteren, M. Praet, G. Otte, L. Boullart, L. Calliauw, L. Roels</i>	121
Reliable Memory from Unreliable Components <i>P. Whittle</i>	125
Possible Strategies for Using Sleep to Improve Episodic Memory in the Face of Overlap <i>A.R. Gardner-Medwin</i>	129
Curvature-Driven Smoothing in Backpropagation Neural Networks <i>C.M. Bishop</i>	139
A Spontaneously Growing Network for Unsupervised Learning <i>P. Fletcher</i>	149
Virtual Connectivity Through Structural Dissipation; Parallel Distributed Computation with Local Connectivity <i>R.W. Taylor</i>	164
Temporally Processing Neural Networks for Morse Code Recognition <i>D. Hill</i>	180

Dynamics of Binary Networks with Extended Time-Summation <i>P.C. Bressloff</i>	198
Training Strategies for Probabilistic RAMs <i>D. Gorse, J.G. Taylor</i>	211
Computer Simulations of Recurrent Neural Nets for Temporal Recognition Problems <i>G.S. Cooper, T.M. Child</i>	218

Invited Papers

Learning Vector Quantisation and the Self Organising Map <i>T. Kohonen</i>	235
Nature of the Functional Loss in Amnesia: Possible Role for a Highly Structured Neural Network <i>A. Mayes</i>	243
Activity Patterns in Cortical Minicolumns <i>S.S. Christensen, R.M.J. Cotterill, C. Nielsen</i>	261
Dynamics and Memory in Random and Structured Neural Networks <i>K.E. Kürten</i>	274

Additional Paper (not given at conference)

Coupled Excitable Cells <i>C.L.T. Mannion, J.G. Taylor</i>	285
