Introduction	ix
---------------------------	----

Sarcolemma and phosphodiesterases

Receptor systems in the nonfailing human heart Brodde, O.-E., A. Broede, A. Daul, K. Kunde, M.C. Michel	1
Changes in the receptor-G protein-adenylyl cyclase system in heart failure from various types of heart muscle disease Bristow, M.R., A.M. Feldman.	15
Quantification of G_{ix}-proteins in the failing and nonfailing human myocardium Böhm, M., P. Gierschik, E. Erdmann.	37
Regulation and possible functional implications of G-protein mRNA expression in nonfailing and failing ventricular myocardium Eschenhagen, T., U. Mende, M. Nose, W. Schmitz, H. Scholz, J. Schulte am Esch, R. Sempell, A. Warnholtz, J.-M. Wüstel	51
Phosphodiesterase inhibition and positive inotropy in failing human myocardium Schmitz, W., T. Eschenhagen, U. Mende, F.U. Müller, J. Neumann, H. Scholz	65
Cardiovascular cyclic nucleotide phosphodiesterases and their role in regulating cardiovascular function Pangani, E.D., R.A. Buchholz, P.J. Silver	73
Na, K-ATPase expression in normal and failing human left ventricle Allen, P.D., T.A. Schmidt, J.D. Marsh, K. Kjeldsen	87

Excitation-contraction coupling and contractile proteins

Structural and functional diversity of human ventricular myosin Rupp, H., R. Jacob	95
--	----

Contractile protein function in failing and nonfailing human myocardium Hasenfuss, G., L.A. Mulieri, B.J. Leavitt, P.D. Allen, C. Holubarsch, H. Just, N.R. Alpert	107
Troponin T isoform expression in the normal and failing human left ventricle: A correlation with myofibrillar ATPase activity Anderson, P.A.W., N.N. Malouf, A.E. Oakeley, E.D. Pagani, P.D. Allen	117
Effects of different expression and posttranslational modifications of myosin light chains on contractility of skinned human cardiac fibers Morano, I.	129
Responsiveness of the myofilaments to Ca^{2+} in human heart failure: Implications for Ca^{2+} and force regulation Hajjar, R.J., W. Grossman, J.K. Gwathmey	143
The regulation of the human β myosin heavy-chain gene Vosberg, H.P., U. Horstmann-Herold, A. Wettstein	161
Mutations in cardiac myosin heavy-chain genes cause familial hypertrophic cardiomyopathy Seidman, C.E., J.G. Seidman	175
The membrane proteins of the overloaded and senescent heart Chevalier, B., D. Charlemagne, F. Callens-El Amrani, F. Carre, I.M. Moalic, C. Delcayre, P. Mansier, B. Swynghedauw	187
Contraction frequency dependence of twitch and diastolic tension in human dilated cardiomyopathy Mulieri, L.A., B.J. Leavitt, G. Hasenfuss, P.D. Allen, N.R. Alpert	199
Alterations of the force-frequency relationship in the failing human heart depend on the underlying cardiac disease Pieske, B., G. Hasenfuss, Ch. Holubarsch, R. Schwinger, M. Böhm, H. Just	213
Pathophysiology of cardiac hypertrophy and failure of human working myocardium: Abnormalities in calcium handling Meuse, A.J., C.L. Perreault, J.P. Morgan	223
Ca^{2+}-currents and intracellular $[\text{Ca}^{2+}]_i$-transients in single ventricular myocytes isolated from terminally failing human myocardium Beuckelmann, D.J., E. Erdmann	235
Dynamic calcium requirements for activation of human ventricular muscle calculated from tension-independent heat Blanchard, E.M., B.J. Leavitt, L.A. Mulieri, N.R. Alpert	245

The calcium-release channel from cardiac sarcoplasmic reticulum: Function in the failing and acutely ischaemic heart	
Holmberg, S.R.M., A.J. Williams	255
Immune-mediated modulation of sarcoplasmic reticulum function in human dilated cardiomyopathy	
Limas, C.J., C. Limas	269
Calcium uptake by sarcoplasmic reticulum and its modulation by cAMP-dependent phosphorylation in normal and failing human myocardium	
Movsesian, M.A.	277
Contractile proteins and sarcoplasmic reticulum calcium-ATPase gene expression in the hypertrophied and failing heart	
Schwartz, K., L. Carrier, A.-M. Lompre, J.-J. Mercadier, K.R. Boheler	285
 Extracellular matrix	
Factors associated with reactive and reparative fibrosis of the myocardium	
Weber, K.T., C.G. Brilla	291
The extracellular matrix in the failing human heart	
Schaper, Jutta, B. Speiser	303
 Mitochondrial function	
Dysfunction of the ADP/ATP carrier as a causative factor for the disturbance of the myocardial energy metabolism in dilated cardiomyopathy	
Schultheiss, H.-P.	311
Adenine nucleotide metabolism and contractile dysfunction in heart failure – Biochemical aspects, animal experiments, and human studies	
Regitz, V., E. Fleck	321
 Achievements of the Symposium	
Cellular and molecular alterations in the failing human heart	
Holubarsch, Ch., G. Hasenfuss	331
 Subject index	343
