

CONTENTS

1.	Synopsis	7
1.1.	Introduction	7
1.2.	Previous collections and research	7
1.2.1.	The 18th century	7
1.2.2.	The 19th century	9
1.2.3.	The 20th century	19
2.	Materials and methods	29
3.	Results	30
3.1.	Morphology	30
3.2.	Anatomy	37
3.3.	Photosymbiodemes	41
3.4.	Lichenicolous fungi	42
3.5.	Chemistry	42
3.5.1.	Role of secondary metabolites in <u>Pseudocyphellaria</u>	45
3.6.	Ecophysiology	46
3.7.	Geographical setting	48
3.8.	Ecology	50
3.8.1.	Habitats	50
3.8.2.	Climate	51
3.8.3.	Factors affecting distribution of <u>Pseudocyphellaria</u>	52
3.9.	Biogeography	53
3.9.1.	Endemic element	53
3.9.2.	Austral element	54
3.9.3.	Palaeotropical element	55
3.9.4.	Cosmopolitan element	55
3.10.	The genus <u>Pseudocyphellaria</u>	55
3.11.	Key to cool temperate South American species	56
1.	<u>P. argyracea</u>	61
2.	<u>P. aurata</u>	62
3.	<u>P. bartlettii</u>	64
4.	<u>P. berberina</u>	67
5.	<u>P. berteroana</u>	75
6.	<u>P. coerulescens</u>	78
7.	<u>P. compar</u>	82
8.	<u>P. coppinsii</u>	85
9.	<u>P. coriifolia</u>	88
10.	<u>P. crocata</u>	92
11.	<u>P. dissimilis</u>	95
12.	<u>P. divulsa</u>	97
13.	<u>P. dubia</u>	103
14.	<u>P. encoensis</u>	105
15.	<u>P. endochrysa</u>	108
16.	<u>P. exanthematica</u>	112
17.	<u>P. faveolata</u>	115
18.	<u>P. flavicans</u>	118
19.	<u>P. freycinetii</u>	124
20.	<u>P. gilva</u>	130
21.	<u>P. glabra</u>	136
22.	<u>P. granulata</u>	139
23.	<u>P. quillemini</u>	142
24.	<u>P. guzmanii</u>	145
25.	<u>P. hillii</u>	149

26.	<u>P.hirsuta</u>	152
27.	<u>P.imbricatula</u>	156
28.	<u>P.imshaugii</u>	158
29.	<u>P.intricata</u>	161
30.	<u>P.lechleri</u>	164
31.	<u>P.mallota</u>	169
32.	<u>P.malmeana</u>	172
33.	<u>P.meyenii</u>	176
34.	<u>P.mooreana</u>	180
35.	<u>P.neglecta</u>	183
36.	<u>P.nitida</u>	186
37.	<u>P.norvegica</u>	192
38.	<u>P.nudata</u>	195
39.	<u>P.obvoluta</u>	199
40.	<u>P.physciospora</u>	202
41.	<u>P.pilosella</u>	204
42.	<u>P.piloselloides</u>	207
43.	<u>P.pluvialis</u>	209
44.	<u>P.redonii</u>	212
45.	<u>P.richardi</u>	216
46.	<u>P.santessonii</u>	219
47.	<u>P.scabrosa</u>	222
48.	<u>P.skottsbergii</u>	224
49.	<u>P.subrubella</u>	227
50.	<u>P.vaccina</u>	228
51.	<u>P.valdiviana</u>	231
52.	<u>P.verrucosa</u>	234
53.	<u>P.wandae</u>	238
