

Table of Contents

Distributed Application Designed Using MASCOT and Implemented in Ada.	1
<i>M.J.Looney, A. O'Brien</i>	
Real Time Ada in the International Space Station Freedom	9
<i>Gary Raines</i>	
Managing Ada Object-Oriented Development	20
<i>John A. Anderson, John D. Sheffler</i>	
Software Engineering, Ada and Metrics	35
<i>Alison Wearing</i>	
Using Ada Source Code Generators in a Large Project	47
<i>Rob Duell, Hugo J. Sebel, Franklin C.A. de Wit</i>	
Design and Code Metrics Through a DIANA-Based Tool	60
<i>Wayne M. Zage, Dolores M. Zage, Manjari Bhargava, Dale J. Gaumer</i>	
Using Ada in Integrating ATC Systems	72
<i>Miech Groeneveld</i>	
An Evaluation of Ada Source Code Reuse	80
<i>W.M. Thomas, A. Delis, V.R. Basili</i>	
Porting Embedded Real-Time Ada Software	92
<i>Fred A. Maymir-Ducharme</i>	
Reusable Executives for Hard Real-Time Systems in Ada	104
<i>Juan A. de la Puente, Juan Zamorano, Alejandro Alonso, Jose L. Fernandez</i>	
Designing Hard Real-Time Systems	116
<i>A. Burns, A.J. Wellings</i>	
Runtime System Support for Data-Oriented Synchronization in Ada-9X	128
<i>M. Gobin, M. Timmerman, F.J.A. Gielen</i>	
Decimal Arithmetic in Ada	138
<i>Benjamin M. Brosgol, Robert I. Eachus, David E. Emery</i>	

Task Dependence Net as a Representation for Concurrent Ada Programs	150
<i>Jingde Cheng</i>	
Detection and Avoidance of Elaboration-Time Problems for Multi-Unit Real-Time Ada Applications	165
<i>Leslie C. Lander, Sandeep Mitra</i>	
Simulation of Mosca Specifications in Ada	182
<i>Arlet Ottens, Hans Toetenel</i>	
Considerations with Regard to Validation of Ada Debuggers	197
<i>Steen Silberg</i>	
SWG APSE Test Support Toolset (Assessment of the CAIS-A Interface Set)	214
<i>W. Treurniet</i>	
Compilation Integration: A Solution for the Challenge of Developing and Reusing Ada Software on Different Platforms	230
<i>Thanh-Nu Do</i>	
Extending Working Environments for the Development of Reactive/Adaptive Systems with Intelligent Controls	242
<i>Tzilla Elrad, Sungyoung Lee, Ufuk Verun</i>	
Predicting the Speedup of Parallel Ada Programs	257
<i>Lars Lundberg</i>	
A Highly Parallel Ada Task Scheduler	275
<i>Susan Flynn Hummel</i>	
STRAda - An Ada Transformation and Distribution System	287
<i>G.Bazalgette, D. Bekele, C. Bernon, M. Filali, J.M. Rigaud, A. Sayah</i>	
AMPATS - A Multi-processor Ada Tool Set	300
<i>Karlott Mangold</i>	
A Practical Use of the Ada Rendez-Vous Paradigm in Distributed Systems	312
<i>M. Bayassi, H. Bittour, J.-F. Jézéquel, P. Legrain</i>
