1 Anatomy and Radiology of the Temporal Bone	1	5 Decision Making in Middle Ear Surgery	55
The External Auditory Canal	1	How Should We Choose Our Patients?	55
The Tympanic Membrane	1	Canalplasty	55
The Ossicular Chain	1	Myringoplasty	55
The Tympanic Cavity	2	Ossiculoplasty	55
The Medial Wall	2	Tympanoplasty	55
The Posterior Wall	2	Stapes Surgery	55
The Attic	2	Strategy in the Only Hearing Ear	55
The Antrum	3	Tympanostomy Tube	55
The Labyrinth	3	Noncholesteatomatous Chronic Otitis Media	55
The Jugular Bulb	3	Cholesteatoma	55
The Carotid Artery	3	Ossiculoplasty	56
The Facial Nerve	3	Neoplasm	56
Surgical Anatomy of the Canal Wall Down (Open)		Stapes Surgery	56
Tympanoplasty	13	Staging Strategy	56
Surgical Anatomy of the Canal Wall Up (Closed)		Noncholesteatomatous Chronic Otitis Media	56
Tympanoplasty	15	Cholesteatoma	56
Computed Tomography of the		Stapes Surgery	56
Temporal Bone and Related Anatomy	19	Strategy for Revision Surgery	57
Axial Sections	20	Canal Stenosis	57
Coronal Sections	30	Myringoplasty	57
		Ossiculoplasty	57
		Tympanoplasty in Cholesteatoma	57
		Stapes Surgery	57
2 Operating Room Setup	34	6 Ventilation Tube Insertion	58
Arrangement of the Room	34	Indications	58
Position of the Patient	35	Contraindications	58
Special Considerations in Stapes Surgery	35		
Preparation of the Operative Site	36	7 General Otosurgical Procedures	61
Position of the Surgeon	36	Retroauricular Skin Incision	61
Position of the Surgeon's Hands	36	Surgical Steps	61
Suction and Irrigation	38	Harvesting Grafting Material	63
Monopolar and Bipolar Coagulation	38	Temporalis Fascia (Retroauricular Scar Tissue)	63
Microscope	38	Surgical Steps	63
Facial Nerve Monitoring	38	Tragal Cartilage and Perichondrium	65
Instruments	38	Split-thickness Skin Graft	69
Hints and Pitfalls for Operating Room Setup	47	Incision of the External Auditory Canal	70
		Surgical Steps	70
3 Anesthesia	48	Case 7.1–7.3	73
Local Anesthesia	48	Canalplasty (Calibration of the Bony Canal Walls)	78
General Anesthesia	48	Surgical Steps	78
Hints and Pitfalls for Anesthesia	51	Case 7.4–7.5	81
		Skin Closure	90
4 General Technical Considerations	52		
Rules and Hints	52	8 Preoperative and Postoperative Care	91
Drilling	52	Preoperative Care	91
Suction and Irrigation	53	Postoperative Care	91
Hemostasis	54	Dressing	91
Dissection	54	Postoperative Management	91

9 External Auditory Canal	92	12 Simple Mastoidectomy	245
Exostosis and Osteoma	92	Indications	245
Surgical Steps	92	Landmarks	245
Case 9.1–9.2	96	Surgical Steps	245
Hints and Pitfalls for Exostosis	107		
Hints for Beginners	107	13 Canal Wall Up (Closed) Tympanoplasty	248
Stenosis of the External Auditory Canal	107	Indications	248
Postinflammatory and Postoperative Stenoses	107	Canal Wall Up (Closed) Tympanoplasty	249
Surgical Steps	109	Surgical Steps	249
Case 9.3–9.4	110	Case 13.1–13.6	256
Hints and Pitfalls for Canal Stenosis	118	Second-Stage and Revision Surgery after Canal Wall Up	
Cholesteatoma of the External Auditory Canal	118	Technique	301
Case 9.5	119	Surgical Steps	302
		Case 13.7–13.10	304
		Hints and Pitfalls	324
10 Myringoplasty	122		
Indications	123	14 Canal Wall Down (Open) Tympanoplasty	326
Contraindications	123	Indications	326
Retroauricular Myringoplasty	124	Canal Wall Down (Open) Tympanoplasty	326
Surgical Steps	124	Surgical Steps	326
Case 10.1–10.6	135	Meatoplasty	331
Transcanal Myringoplasty	171	Surgical Steps	331
Surgical Steps	171	Packing and Closure	333
Case 10.7	172	Case 14.1–14.3	333
Problems and Solutions in Myringoplasty	175	Hints and Pitfalls	353
Pathological Status of the Anterior Part of the		Modified Bondy Technique	354
Tympanomeatal Flap	175	Indications	354
Thickened Tympanomeatal Flap	175	Surgical Steps	354
Everted Mucosa	175	Case 14.4–14.8	356
Atelectasis	176	Hints and Pitfalls of the Modified Bondy Technique	378
Epithelialization in the Medial Aspect of the Tympanic		Radical Mastoidectomy	378
Membrane	176	Indications	378
Limited Epithelialization in the Middle Ear	176	Surgical Steps	378
Extensive Epithelialization in the Middle Ear	176	Second Stage Surgery in Open Technique	379
Tympanosclerosis	177	Revision Surgery after Open Technique	379
Extensive Defects of the Middle Ear Mucosa	177	Surgical Steps	379
Revision Myringoplasty	178	Case 14.9	381
Case 10.8	181	Hints and Pitfalls of Revision Surgery	385
Hints and Pitfalls for Myringoplasty	185		
		15 Special Considerations Regarding Paraganglioma	
11 Ossiculoplasty	187	(Classes A and B)	386
Indications	187	Surgical Strategy	389
Contraindications	187	Surgical Steps	389
Approaches	187	Case 15.1–15.8	397
Considerations Regarding Atelectasis and Adhesive		Hints and Pitfalls of Paraganglioma Surgery	448
Otitis Media	188		
Case 11.1	189	16 Problems and Solutions in Mastoid Surgery	449
Considerations Regarding Tympanosclerosis	190	Labyrinthine Fistula	449
Tympanosclerosis with Intact Tympanic Membrane	191	Bone Erosion in the Tegmen	452
Tympanosclerosis with Tympanic Membrane Perforation	191	Facial Nerve Paralysis	452
Management of the Stapes in Tympanosclerosis	191	New Bone Formation	454
Surgical Steps	191	Meningoencephalic and Dural Herniation	454
Ossiculoplasty in Various Situations	197	Case 16.1–16.2	455
Closure	204		
Case 11.2–11.11	204	17 Stapes Surgery	460
Hints and Pitfalls for Ossiculoplasty	238	Indications	460
Revision Ossiculoplasty	239	Contraindications	460
Case 11.12	242	Approach	460
		Anesthesia	460
		Surgical Steps	461

Case 17.1–17.4.....	473	Indications for Cochlear Implantation with Subtotal	
Problems and Solutions	497	Petrosectomy and Obliteration of the Middle Ear.....	549
Disease States.....	497	Case 19.1–19.10	550
Anatomical Variations	500	Hints and Pitfalls for Cochlear Implantation	584
Surgical Trauma.....	504		
Case 17.5–17.7.....	506	20 Management of Iatrogenic Injuries	585
Hints and Pitfalls for Stapes Surgery	510	Bleeding from the Dura	585
Revision Stapes Surgery	511	Bleeding from the Sigmoid and Other Sinuses	585
Ossicular Chain Problems	512	Bleeding from the Jugular Bulb	585
Prosthetic Failure	513	CSF Leakage	585
Medial Problems after Stapedectomy	514	Labyrinthine Fistula	586
Case 17.8–17.15.....	517	Disarticulation of the Incus	586
Hints and Pitfalls for Revision Stapes Surgery	533	Fracture of the Stapes	586
		Tear in the Tympanic Membrane	586
18 Obliteration of the Middle Ear		Tear in the Meatal Skin	586
(Subtotal Petrosectomy)	534	Facial Nerve Injury	586
Indications	534	Case 20.1	588
Case 18.1–18.4	535		
		Further Reading	591
19 Cochlear Implantation	549		
Indications for cochlear implantation	549	Subject Index	593
