1	Introduction	1
2	Literature Review	7
2.1	Basic Definitions	8
2.1.1	Data and Big Data	8
2.1.2	Analytics	11
2.1.3	Digital Twin	12
2.1.4	Decision Making	14
2.2	Data Quality Management	16
2.2.1	Data Quality	16
2.2.2	Data Quality Management	17
2.2.3	Corporate Data Quality Management	19
2.2.4	Data Quality Dimensions	19
2.3	Digital Twin	23
2.3.1	Digital Twin for Decision Making	23
2.3.2	Process Digital Twin	24
2.3.3	Five-Dimensional Digital Twin	25
2.3.4	Requirements	28
2.3.5	Industry Dissemination	30
2.3.6	Benefits	31
2.3.6.1	Certainty of Decisions	32
2.3.6.2	Efficiency of Decisions	34
2.3.6.3	Quality of Decisions	37
2.4	Decision Support System	37
2.4.1	Decision Support System	37
2.4.2	Model-Driven Decision Support System	38

2.4.3	Characteristics	39
2.5	Summary—Digital Twin-Driven Decision-Making Model	40
3	Objectives	43
3.1	Strategic Positioning	44
3.2	Digital Twin-Driven Decision-Making Model	45
3.3	Operational Effectiveness	47
4	Materials and Methods of Dissertation	49
4.1	Research Design	49
4.2	Data Collection and Sample Description	50
4.2.1	Data Collection Procedure	51
4.2.1.1	Preliminary Study Procedure	51
4.2.1.2	Main Study Procedure	51
4.2.2	Sample Description	52
4.2.2.1	Preliminary Study Sample	52
4.2.2.2	Main Study Sample	57
4.3	Methods for Data Analysis	64
5	Results and Evaluation	67
5.1	Data Analysis—Preliminary Study	67
5.1.1	Strategic Positioning	67
5.1.1.1	Results Management Levels	67
5.1.1.2	Evaluation Management Levels	70
5.1.1.3	Results Company Size	73
5.1.1.4	Evaluation Company Size	78
5.1.1.5	Results Industries	81
5.1.1.6	Evaluation Industries	87
5.1.2	The Digital Twin-Driven Decision-Making Model	92
5.1.2.1	Results for the Model	92
5.1.2.2	Evaluation for the Model	93
5.2	Data Analysis—Main Study	95
5.2.1	Strategic Positioning	95
5.2.1.1	Results Management Levels	95
5.2.1.2	Evaluation Management Levels	99
5.2.1.3	Results Company Size	102
5.2.1.4	Evaluation Company Size	111
5.2.1.5	Results Industries	117
5.2.1.6	Evaluation Industries	124
5.2.2	The Digital Twin-Driven Decision-Making Model	130

5.2.2.1	Results for Model	131
5.2.2.2	Evaluation for Model	135
5.2.3	Operational Effectiveness	137
5.2.3.1	Results Certainty	137
5.2.3.2	Evaluation Certainty	137
5.2.3.3	Results Efficiency	137
5.2.3.4	Evaluation Efficiency	138
5.2.3.5	Results Quality	138
5.2.3.6	Evaluation Quality	138
6	Conclusions and Recommendations	141
6.1	Conclusion of Hypotheses	141
6.2	Recommendations	146
6.3	Practical Implications	148
6.4	Limitations	149
7	New Scientific Results	151
8	Summary	155
	References	159
