Endometrial Carcinomas

G. DALLENBACH-HELLWEG

1	Introduction	1
2	Etiology	2
3	Precursors	3
3.1	Morphology	3
3.2	Differential Diagnosis	6
4	Histogenetic Classification, Staging, and Grading	9
4.1	Classification	9
4.2	Staging	9
4.3	Grading	10
5	Carcinomas with Endometrial Differentiation	10
5.1	Glandular or Glandular-Papillary Adenocarcinoma	12
5.2	Adenocarcinoma with Squamous Metaplasia	13
5.3	Adenocarcinoma in Young Women	14
6	Carcinomas with Müllerian Differentiation	15
6.1	Mucinous Adenocarcinoma	15
6.2	Mucoepidermoid Adenocarcinoma	17
6.3	Clear Cell Carcinoma	17
6.4	Serous Papillary Carcinoma	18
6.5	Squamous Cell Carcinoma	20
7	Undifferentiated Carcinomas	20
8	Metastatic Carcinomas	20
9	Immunohistochemistry	21
9.1	Adenocarcinomas with Endometrial Differentiation	23
9.2	Carcinomas with Müllerian Differentiation	24
9.3	Undifferentiated Carcinomas	27
9.4	Differential Diagnosis	27
9.5	Steroid Receptors	29
10	Gestagen Therapy	30
11	Radiation Therapy	31
	References	31

Mixed Müllerian Tumors

S.G. SILVERBERG

1	Introduction	35
2	International Society of Gynecological Pathologists Classification	36
3	Carcinosarcoma (Malignant Mixed Mesodermal Tumor)	37
3.1	Epidemiologic and Clinical Features	37
3.2	Gross and Microscopic Pathologic Features	37
3.3	Differential Diagnosis	42
3.4	Pathogenesis	44
3.5	Prognosis and Treatment	45
4	Adenofibroma and Adenomyoma	46
4.1	Adenofibroma	46
4.2	Adenomyoma	48
5	Adenosarcoma	49
5.1	Clinical and Pathologic Features	50
5.2	Differential Diagnosis	53
5.3	Prognosis and Treatment	53
	References	54

Cervical Intraepithelial Neoplasia and Microinvasive Carcinoma of the Cervix

K. NODA

1	Cervical Intraepithelial Neoplasia	57
1.1	Terminology and Definition	57
1.2	Etiology	61
1.3	Histogenesis and Natural History	64
1.3.1	Follow-up Studies	66
1.4	Histology	69
1.5	Cytology	70
2	Microinvasive Carcinoma of the Cervix	72
2.1	Terminology and Definition	72
2.2	Histology	74
2.2.1	Growth Pattern	74
2.2.2	Vessel Permeation	75
2.2.3	Tumor Dimensions	75
	References	77

Cervical Adenocarcinoma

R. KUDO

1	Introduction	81
2	Epidemiology	82
3	Histogenesis	84
4	Natural History	85
5	Glandular Dysplasia	86
6	Early Cervical Adenocarcinoma	87
6.1	Adenocarcinoma In Situ	87
6.2	Microinvasive Adenocarcinoma	90
7	Invasive Adenocarcinoma	91
7.1	Adenocarcinoma, Endocervical Type	92
7.1.1	Minimal Deviation Adenocarcinoma (Adenoma Malignum)	94
7.2	Adenocarcinoma, Endometrioid Type	96
7.3	Clear Cell Adenocarcinoma	98
7.4	Adenosquamous Carcinoma	101
7.5	Adenoid Cystic Carcinoma	103
7.6	Adenoid Basal Carcinoma	104
8	Prognosis	104
	References	108

Endocrine Tumors of the Ovary

R.H. YOUNG and R.E. SCULLY

1	Introduction	114
2	Sex Cord-Stromal Tumors	114
2.1	Granulosa Cell Tumors	114
2.1.1	Adult Granulosa Cell Tumor	114
2.1.2	Juvenile Granulosa Cell Tumor	119
2.2	Thecomas and Related Tumors	123
2.2.1	Typical Thecoma	123
2.2.2	Luteinized Thecoma	124
2.2.3	Sclerosing Stromal Tumor	125
2.3	Sertoli-Stromal Cell Tumors	128
2.3.1	Sertoli Cell Tumors	128
2.3.2	Sertoli-Leydig Cell Tumors	128
2.4	Sex Cord Tumor with Annular Tubules	136
2.5	Sex Cord-Stromal Tumors, Unclassified	138
2.6	Sex Cord-Stromal Tumors During Pregnancy	138
2.7	Immunohistochemistry of Sex Cord-Stromal Tumors	139
3	Steroid Cell Tumors	142
3.1	Stromal Luteoma	143
3.2	Leydig Cell Tumors	144
3.3	Steroid Cell Tumor, Not Otherwise Specified	146
4	Ovarian Tumors with Functioning Stroma	149
4.1	Germ Cell Tumors Containing Syncytiotrophoblast Cells	150
4.2	Tumors with Functioning Stroma Occurring During Pregnancy	150
4.3	Idiopathic Group of Tumors with Functioning Stroma	150
5	Thyroid Hyperfunction Associated with Ovarian Tumors	152
6	Carcinoid Syndrome Associated with Ovarian Tumors	152
7	Zollinger-Ellison Syndrome Associated with Ovarian Tumors	153
8	Ovarian Tumors Associated with Production of Hormones of Anterior Pituitary Type	153
8.1	Cushing's Syndrome	154
8.2	Hyperprolactinemia	154
9	Paraendocrine Disorders with Ovarian Tumors	154
9.1	ACTH Production and Cushing's Syndrome	154
9.2	Hypercalcemia	155
9.3	hCG Production	158
9.4	Hypoglycemia	159
9.5	Renin Production	159
	References	160

Germ Cell Tumors

A. TALERMAN

1	Introduction	165
2	General Aspects	166
3	Classification	167
4	Histogenesis	168
5	Dysgerminoma	169
6	Yolk Sac Tumor (Endodermal Sinus Tumor)	172
7	Embryonal Carcinoma	179
8	Polyembryoma	179
9	Choriocarcinoma	181
10	Teratoma	182
10.1	Mature Cystic Teratoma (Dermoid Cyst)	182
10.2	Mature Solid Teratoma	183
10.3	Immature Teratoma	183
10.4	Mature Cystic Teratoma (Dermoid Cyst) with Malignant Transformation	184
10.5	Monodermal or Highly Specialized Teratomas	185
10.5.1	Struma Ovarii	185
10.5.2	Carcinoid	185
10.6	Strumal Carcinoid (Struma Ovarii and Carcinoid)	191
10.7	Other Types of Monodermal Teratoma	192
10.7.1	Monodermal Teratomas with Neuroectodermal Differentiation	192
10.7.2	Monodermal Teratoma Composed of Vascular Tissue	194
11	Mixed Germ Cell Tumors	195
12	Tumors Composed of Germ Cells and Sex Cord-Stromal Derivatives	195
