Abstract	15
Abstract (German Translation)	17
Abbreviations	21
Table of Figures	25
A. Introduction	27
I. Robustness of the EU VAT System to the Growth of E-commerce	27
II. Fighting VAT Fraud in B2C (E-commerce) Transactions: Approach by the EU Commission and Research Objective	31
III. Literature Review	35
IV. Innovative Proposal for a “Cryptographic System”	40
V. Overview of Structure	42
B. VAT and Customs Treatment of B2C Transactions Involving 3rd Countries and Opportunities for Fraud before the VAT E-commerce Package	45
I. VAT and Customs Treatment of Imports	45
1. VAT Treatment of Imports	46
a. General VAT Treatment of Imports	46
b. Previous VAT Rules on Imports	50
aa. Import VAT Exemption for Low-value Consignments	50
bb. Rules on the Place of Supply	53
cc. Special Characteristics of Imports via Intermediaries	54
2. Customs Treatment of Imports	57
a. General Customs Treatment of Imports	57

b. Previous Customs Rules on Imports	59
aa. Customs Rules of Consignments with a Value below EUR 10/22	59
bb. Goods in Postal Consignments	60
3. Link between VAT and Customs Law	62
II. Fraud Schemes in B2C Transactions Involving 3rd Countries	67
1. Exploitation of the VAT and Customs Rules	67
a. Overview	67
b. VAT Evasion Through Customs Procedure 42	69
c. VAT Evasion through Undervaluation	71
d. VAT Evasion through Misdeclaration of Imports	76
e. VAT Evasion through Non-declaration of Sales	77
2. Electronic Interfaces as Accelerators for VAT Fraud	79
3. Consequences of the Fraud Schemes	86
a. Loss of Tax Revenue	86
b. Distortion of Competition	88
III. Summary	92
C. EU Commission Action to Combat VAT Fraud in Trade with 3rd Countries and Evaluation of the Measures	93
I. Measures Adopted within the VAT E-commerce Package	93
1. Evolution of the VAT E-commerce Package	93
2. Removal of the Import VAT Exemption for Consignments of Negligible Value	95
3. Distance Sales of Goods Imported from Third Territories/Countries	97
a. Amendments to the VAT Directive	97
b. Amendments to the UCC-DA	104
c. Amendments to the Regulation on Administrative Cooperation	105
4. Special Arrangements for the Declaration and Payment of Import VAT	107
5. Deemed Supply of Electronic Interfaces	108
II. Evaluation of the VAT E-commerce Package	115
1. Relevant Criteria for the Evaluation of the Measures	115

2. Effectiveness Regarding the Achievement of Objectives	117
a. Reduction of Complexity and Costs for Cross-border Transactions	117
aa. Removal of the Import VAT Exemption for Consignments of Negligible Value	117
bb. Distance Sales of Goods Imported from Third Territories/Countries	119
cc. Special Arrangements for the Declaration and Payment of Import VAT	124
dd. Deemed Supply of Electronic Interfaces	125
b. Effective Taxation of the Digital Economy	129
aa. Removal of the Import VAT Exemption for Consignments of Negligible Value	129
bb. Distance Sales of Goods Imported from Third Territories/Countries	133
cc. Special Arrangements for the Declaration and Payment of Import VAT	139
dd. Deemed Supply of Electronic Interfaces	140
3. Proportionality of the Measures	143
4. Efficiency of the Measures	149
5. Sustainability of the Measures	150
6. Coherence of the Measures	152
III. Future VAT Rules Concerning Imported Goods: Using the Information Position of Payment Service Providers from 2024	154
1. Description of the Measure	154
2. Effectiveness Regarding Prevention of Fraud	158
3. Proportionality of the Measure	167
4. Efficiency of the Measure	168
5. Sustainability of the Measure	171
6. Coherence of the Measure	171
IV. Persisting Problems	172
1. Fraud Schemes to Lower the Import VAT Burden	172
2. Enforcement Jurisdiction as Limitation of Anti-Fraud Measures	174
V. Summary	182

D. Alternative Proposal for Ensuring a Fair Collection of VAT on Low-Value Imports: Using Tax Technology to Combat VAT Fraud	183
I. Description of the Cryptographic System	183
1. Overview of the Proposal	183
2. Utilization of Cryptography	186
3. Role of Payment Service Providers	193
II. Application to Different VAT Procedures	196
1. Application to the Standard VAT Procedure and the Special Arrangements Scheme: Fraud Prevention	196
2. Application to the IOSS Scheme: Fraud Detection	197
a. General Remarks	197
b. Improved Fraud Detection	201
III. Relevant Aspects for the Design of the System	204
1. A Mismatch between the Customer and the Payer	205
2. Payment Received by a Person Other than the Supplier	205
3. Determination of the Taxable Amount	206
a. Determination of the VAT base	206
b. Accounting for Transport Costs	209
c. Value Mismatches due to Currency Conversion	209
aa. Payment in Euro	210
bb. Payment in the National Currency of the Customers' Resident State	211
cc. Payment in the National Currency of the Country Where the Seller is Established	215
4. Price Adaptions After Payment	216
5. Missing Cypher Texts	217
a. Payment via "Cash on Delivery"	218
b. Purchase on Account	218
c. "Cash" Payments	219
d. Payment via Voucher	220
e. Payment via Cryptocurrencies	221
f. Payment via PSP Established in a Third Country	222
6. Splitting-Up and Grouping of Consignments	223
7. Splitting-Up of Payments	224
8. Returned Consignments	227
9. Reuse of Cypher Texts	227
10. Data Protection	228

IV. Legislative Measures	229
1. Communication with the PSPs	229
2. Necessary Amendments to the VAT Legislation	231
a. Amendments to the VAT Directive	231
b. Amendments to the CIR	233
c. Amendments to the Regulation on Administrative Cooperation	234
3. Necessary Amendments to the Customs Legislation	234
a. Amendments to the UCC-DA	235
b. Amendments to the UCC-IA	239
c. Information for Customs Authorities	239
4. Information Provided to the Commission	240
5. Implementation of the System	240
V. Limitations of the System	241
1. Remaining Possibilities for Fraud	241
a. Splitting-up of Payments	241
b. Misdeclaration of Consignments	241
c. Non- or Lower Payment of VAT via the IOSS	242
2. Determination of Applicable VAT Rates	243
3. Increased Responsibility of Customs Authorities	244
4. Consignments not Covered by the System – Goods with a Value Exceeding EUR 150	246
VI. Evaluation of the Cryptographic System	247
1. Effectiveness	247
2. Efficiency	250
VII. Summary	255
E. Conclusion	257
Bibliography	267
