

Contents

Preface.....	vii
List of Participants.....	ix
<i>Emanuele Delucchi</i> Combinatorics of Covers of Complexified Hyperplane Arrangements.....	1
<i>Graham Denham</i> Homological Aspects of Hyperplane Arrangements.....	39
<i>Alexandru Dimca</i> Pencils of Plane Curves and Characteristic Varieties.....	59
<i>Alexandru Dimca and Sergey Yuzvinsky</i> Lectures on Orlik-Solomon Algebras.....	83
<i>Fouad El Zein and Jawad Snoussi</i> Local Systems and Constructible Sheaves.....	111
<i>Michael Falk</i> Geometry and Combinatorics of Resonant Weights.....	155
<i>Hidehiko Kamiya, Akimichi Takemura and Hiroaki Terao</i> The Characteristic Quasi-Polynomials of the Arrangements of Root Systems and Mid-Hyperplane Arrangements.....	177
<i>Ali Ulaş Özgür Kışisel and Özer Öztürk</i> Toric Varieties and the Diagonal Property.....	191
<i>Mutsuo Oka</i> Introduction to Plane Curve Singularities. Toric Resolution Tower and Puisseux Pairs.....	209
<i>Takeshi Sasaki and Masaaki Yoshida</i> Surface Singularities Appeared in the Hyperbolic Schwarz Map for the Hypergeometric Equation.....	247
<i>Masahiko Yoshinaga</i> On the Extendability of Free Multiarrangements.....	273
Problem Session, edited by <i>Ayşe Altıntaş and Celal Cem Sarıoğlu</i>	283
