Preface	v
-------------------	---

Introductory Overview	<i>A.T. Diplock</i>	vii
---------------------------------	---------------------	-----

CHEMISTRY

Chemistry of Vitamin E	<i>S. Kijima</i>	3
----------------------------------	------------------	---

Quantitative Determination of Tocopherols	<i>K. Abe and A. Matsumoto</i>	13
--	--------------------------------	----

BIOCHEMISTRY

Function of Vitamin E as Antioxidant in the Membranes	<i>E. Niki</i>	23
--	----------------	----

Location of α -Tocopherol in Phospholipid Vesicles and Its Dynamics in Inhibiting Lipid Peroxidation . .	<i>K. Fukuzawa, W. Ikebata, A. Shibata, T. Sakanaka, and S. Urano</i>	31
--	---	----

Membrane Stabilization by Vitamin E	<i>S. Urano</i>	41
Biodiscrimination of Tocopherols	<i>G.W. Burton, K.U. Ingold, H. Zahalka, P. Dutton, B. Hodgkinson, L. Hughes, D.O. Foster, and W.A. Behrens</i>	51

PHYSIOLOGY

Absorption, Metabolism, and Excretion of Vitamin E	<i>C.A. Drevon</i>	65
Transport of Vitamin E in Human Lipoproteins	<i>H.J. Kayden and M.G. Traber</i>	85
Transfer of Vitamin E from Plasma Lipoproteins to Tissues and Cells	<i>W. Cohn, P. Gross, H. Grun, F. Loechleiter, D.P.R. Muller, and M.A. Goss-Sampson</i>	95

DEFICIENCY AND NUTRITION

Vitamin E Status in Human Neonates . . .	<i>M. Mino, M. Miki, T. Ogihara, M. Miyake, and D. Kaempf</i>	105
Inherited Defects in Vitamin E Transport in Humans and Animals	<i>M.G. Traber and H.J. Kayden</i>	119
Nutritional Requirement and Oral Safety	<i>O. Igarashi</i>	131
Breath Pentane Output and Vitamin E	<i>J.P. Allard and K.N. Jeejeebhoy</i>	143
Nutritional Supplements and Athletic Performance: With Special Reference to Vitamin E . . .	<i>M. Miyashita and I. Nishibata</i>	153

ENVIRONMENT

Vitamin E, Cigarette Smoking and Oxidative Damage	<i>C.K. Chow</i>	165
--	------------------	-----

Alcohol Abuse, Free Radicals, and Vitamin E	<i>T. Kawase and T. Harada</i>	177
Vitamin E and Radiation Injury: A Possible Protective Role for Antioxidants in Individual Differences in Atomic-bomb Radia- tion Injury	<i>K. Neriishi</i>	187

PHARMACOLOGY

Vitamin E and the Arachidonic Acid Cascade . .	<i>A.C. Chan</i>	197
Vitamin E and Macrophage	<i>W. Sakamoto, K. Fujie, M. Mino, and S. Murota</i>	209
The Role of Vitamin E in Immunity during Aging	<i>J.B. Blumberg</i>	219

CLINICAL ASPECTS

A) Cardiovascular Diseases and Atherosclerosis		
Vitamin E and Atherosclerosis—An Overview. .	<i>H. Esterbauer, H. Puhl, G. Waeg, A. Krebs, F. Tatzber, and H. Rabol</i>	233
Role of Vitamin E and Lipid Peroxidation in Atherosclerosis	<i>S. Parthasarathy</i>	243
Functional Changes in Vitamin E-replete Platelets	<i>X. Li, P.D. Richardson, and M. Steiner</i>	249
Vitamin E and Atherosclerosis: From the Viewpoint of Arterial Wall Cell Function. . .	<i>N. Morisaki, K. Yokote, and Y. Saito</i>	263
Lipid Peroxidation, Vitamin E, and Cardiovascular Disease	<i>J. Musial, T.B. Domagala, and A. Szczeklik</i>	275
Secondary Prevention of Cerebrovascular Disease with <i>dl</i> - α - Tocopheryl Nicotinate.	<i>Y. Hata, T. Matsuzaki, A. Terashi, E. Ohtomo, R. Yoshida, M. Ohni, M. Yamamoto, S. Kitamura, A. Nagazumi, and Y. Goto</i>	283

B) Ischemia-reperfusion Injury	
Vitamin E and Ischemia-reperfusion Injury in the Heart	
..... <i>K.D. Massey and K.P. Burton</i>	291
Gastric Ulcer and Vitamin E	
..... <i>T. Yoshikawa, S. Takahashi, and M. Kondo</i>	313
C) Diabetes Mellitus	
Vitamin E and Diabetic Vascular Complications	
..... <i>F. Umeda, M. Kunisaki, and H. Nawata</i>	321
The Use of Vitamin E in the Treatment of Movement Disorders	
Theoretical and Clinical Implications	<i>J.L. Cadet</i>
	333
Vitamin E and Cancer Prevention: Human Evidence	<i>P. Knekt</i>
	345
Perspective and Overview	<i>H.J. Aegerter</i>
	357
Subject Index	363
Author Index	367
