

Table of Contents

Editors' Summary	1
Perspectives on Verification and Validation	7
Verification and Validation: Concepts, Issues, and Applications	9
<i>V. David Hopkin</i>	
Resilience Theory and System Evaluation	35
<i>Harold D. Foster</i>	
On The Future Of Hybrid Human-Machine Systems.....	61
<i>P. A. Hancock</i>	
Basic Considerations in Verification and Validation	87
<i>John A. Wise and Mark A. Wise</i>	
Developing Definitions and Approaches	97
Validation in Complex Systems: Behavioral Issues.....	99
<i>Paul Stager</i>	
Defining Human-Centered System Issues for Verifying and Validating Air Traffic Control Systems.....	115
<i>Kelly Harwood</i>	
Complexity in a Systems Context	131
Evaluating the Impact of New Technology on Human-Machine Cooperation.....	133
<i>David D. Woods and Nadine B. Sarter</i>	
Integrating Verification and Validation with the Design of Complex Man-Machine Systems	159
<i>William F. Stubler, Emilie M. Roth, and Randall J. Mumaw</i>	
Assessment of Complexity	173
<i>Peter A. Wieringa and Henk G. Stassen</i>	

Limits to Analysis and Verification.....	181
<i>Ragnar Rosness</i>	
The Validation and Verification of Complex Knowledge-Based Systems.....	193
<i>Robert T. Plant</i>	
Reliability, Errors, and Safety	203
The Reliability Of Interactive Systems: Simulation Based Assessment.....	205
<i>Erik Hollnagel</i>	
The Identification of Latent Organizational Failures in Complex Systems.....	223
<i>James Reason</i>	
The Role of Incident Investigation in System Validation	239
<i>Sue Baker</i>	
Problems of Systematic Safety Assessments: Lessons Learned from Aircraft Accidents	251
<i>Florian G. Jentsch</i>	
Major Incidents, Safe and Reliable Verdicts and the Process of Verification and Validation	261
<i>Clive John A. Andrews</i>	
Operator Capabilities and Variability	279
The Human Component of System Validation	281
<i>P.G.A.M. Jorna</i>	
When Task Demand is Variable: Verifying and Validating Mental Workload in Complex, "Real World" Systems	305
<i>Mark W. Smolensky and Lloyd Hitchcock</i>	
Performance Evaluation of Human-Machine Systems.....	315
<i>A.F. Sanders & P.H.M.P. Roelofsma</i>	
Requirements Analysis for Human System Information Exchange.....	333
<i>Jeremy Clare</i>	
Working Memory and Human-Machine Systems.....	341
<i>Robert H. Logie</i>	

Mental Models in Operational Systems	355
The Role of Verification and Validation in the Design Process of Knowledge Based Components of Air Traffic Control Systems	357
<i>Marcel Leroux</i>	
Automation and Representation in Complex Man-Machine Systems.....	375
<i>Harald Kolrep</i>	
How to Fit the Man-Machine Interface and Mental Models of the Operators	381
<i>Michaël Dubois and José Gaussin</i>	
The Cultural Context	399
Cultures with Requisite Imagination	401
<i>Ron Westrum</i>	
System Validation – A Step in a Continuous Improvement Process.....	417
<i>Gerd Svensson</i>	
Cultural Behavior in the Airline Cockpit System: A Theoretical Framework Proposal	423
<i>Alejandro Pérez Chávez</i>	
Involving the Users in Verification and Validation Processes.....	433
The Inclusion of Future Users in the Design and Evaluation Process.....	435
<i>Patrick Dujardin</i>	
User Involvement in the Development of Highly Interactive Software Systems	443
<i>Richard Jack</i>	
Psychological Aspects of Human Factors Testing and Evaluation of Military Human-Machine Systems	453
<i>Gerhard L. Schaad</i>	
Involving the User in the Design of Computer-Based Displays in Power Plant Control Rooms	457
<i>E.C. Marshall</i>	

The Need for User Involvement.....	463
Systems Theory Versus Verification and Validation	465
<i>Hugh David</i>	
Controlling Factors: An Operator's Perspective	475
<i>Guy C. St. Sauveur</i>	
What They Want Is What They Get?.....	481
<i>John Lane</i>	
Contemporary Issues in ATC System Development	489
<i>J. Michael Tonner and Karen Kalmbach</i>	
Validation Problems in Air Traffic Control Systems	497
<i>Hans-Jürgen Bangen</i>	
Simulating and Evaluating the Future – Pitfalls or Success?.....	521
<i>Anthony Smoker</i>	
The National Plan for Aviation Human Factors.....	529
<i>Joseph Pitts, Phyllis Kayten, and John Zalenchak III</i>	
 Other Applications Contexts.....	 541
Test and Evaluation Program for a Prototype of an Advanced Computerized Control Room for Nuclear Power Plants	543
<i>Knut Follesø and Frode S. Volden</i>	
Validation Issues in Decision Support Systems for Maintenance Planning.....	553
<i>Ilhan Or</i>	
Artificial Habitat for Man in Extreme Environments as an Integrated Human-Machine System.....	575
<i>Olga N. Zakharova</i>	
Concept of a FMS/ATC Air-Ground Data Link Testbed Employing an Airbus A340 Full Flight Simulator	585
<i>G. Hüttig, U. Rottmann, and A. Wattler</i>	
The Qualification of Military Aircraft Cockpits.....	593
<i>Peter R. Wilkinson</i>	
The Use of Video to Verify and Validate Human System Interactions: A Methodology.....	609
<i>Margaret T. Shaffer</i>	

Potential Application of Neural Networks to Verification and Validation of Complex Systems.....	617
<i>Ozer Ciftcioglu and Erdinc Turkcan</i>	
Training and Implementation.....	625
Verification and Validation of the Training Components of Highly Complex Systems	627
<i>Richard S. Gibson</i>	
An Expert Air Traffic Control Teaching Machine: Critical Learning Issues	635
<i>Vincent P. Galotti</i>	
Interaction of Stages in Validating and Verifying ATC Training	651
<i>Rod Baldwin</i>	
The Verification of Pilot Abilities as a Basis for Validating Flight Crew Competency	659
<i>Graham J. F. Hunt</i>	
Retrospect.....	671
Closing Remarks.....	673
<i>V. David Hopkin</i>	
Complex and Integrated Human-Machine Systems: Retroreflections.....	679
<i>Anthony Debons and Esther E. Horne</i>	
Lecturers, Participants, and Staff	687
Index	697
