

Contents

Object Store Addressing	
<i>R. Morrison</i>	1
Allocating Objects to Pages	
<i>A. Malhotra and K.J. Perry</i>	3
Texas: An Efficient, Portable Persistent Store	
<i>V. Singhal, S.V. Kakkad and P.R. Wilson</i>	11
Supporting Large Persistent Stores Using Conventional Hardware	
<i>F. Vaughan and A. Dearle</i>	34
Keynote Discussion Session on Operating System Support for Persistence	
<i>J. Rosenberg and A. Dearle</i>	54
 Selection Box	
<i>C.J. Barter</i>	61
Measuring Persistent Object Systems	
<i>M.P. Atkinson, A. Birnie, N. Jackson and P.C. Philbrow</i>	63
Persistent Hyper-Programs	
<i>G.N.C. Kirby, R.C.H. Connor, Q.I. Cutts, R. Morrison, A. Dearle and A.M. Farkas</i>	86
Run-Time Support for Hierarchic Records in Persistent Languages	
<i>G. Ghelli</i>	107
 Transactions	
<i>M.S. Powell</i>	124
Specification of Concurrency Control in Persistent Programming Languages	
<i>N. De Francesco, G. Vaglini, L.V. Mancini and A. Pereira Paz</i>	126
Nested Actions in Eos	
<i>L. Daynès and O. Gruber</i>	144

Object Store Implementation	
<i>F. Rabitti</i>	164
μDatabase: A Toolkit for Constructing Memory Mapped Databases	
<i>P.A. Buhr, A.K. Goel and A. Wai</i>	166
Coherence in Distributed Persistent Object Systems	
<i>M. Livesey and C. Allison</i>	186
The Papyrus Object Library	
<i>T. Connors and M.-A. Neimat</i>	198
Keynote Discussion Session on Persistent Type Systems	
<i>R. Connor, M. Atkinson, G. Ghelli and A. Ohori</i>	216
 Schema Manipulation and Optimisation	
<i>V. Benzaken</i>	222
A Model-Independent Object Schema Manager	
<i>E. Amiel, M.-J. Bellostta and P. Valduriez</i>	224
An Analytical Model of Object-Oriented Query Costs	
<i>E. Bertino and P. Foscoli</i>	241
PIL: An Optimizable Functional Language for Data Intensive Applications	
<i>W. Hasan and R. Krishnamurthy</i>	262
 Integrity Constraints and Methodology	
<i>A. Dearle</i>	280
Enforcing Integrity Constraints in Database Programming Languages	
<i>V. Benzaken, C. Lécluse and P. Richard</i>	282
Semantic Constructs for a Persistent Programming Language	
<i>S.B. Sparg and S. Berman</i>	300
 Applications	
<i>F. Brown</i>	317
Implementing Databases in the MONADS Virtual Memory	
<i>J.L. Keedy and P. Brössler</i>	318
ACOM: An Access Control Monitor Providing Protection in Persistent Object-Oriented Systems	
<i>J. Kaiser and K. Czaja</i>	339
 Persistent Programming Practices	
<i>M. Atkinson</i>	352

Stabilis: A Case Study in Writing Fault-Tolerant Distributed Applications Using Persistent Objects <i>L.E. Buzato and A. Calsavara</i>	354
Persistent Program Construction Through Browsing and User Gesture with some Typing <i>A. Farkas, A. Dearle, G. Kirby, Q. Cutts, R. Morrison and R. Connor</i>	376
Garbage Collection and Reachability <i>L.V. Mancini</i>	394
Multi-Level Garbage Collection in a High-Performance Persistent Object System <i>M. Wolczko and I. Williams</i>	396
Concurrent Tracking of Stable Objects <i>E.K. Kolodner</i>	419
Keynote Discussion Session on Persistent Software Environments <i>R. Welland</i>	435
Concluding Remarks <i>G. Mitchell and J. Rosenberg</i>	440
Author Index	445
