

Contents

1	Introduction	1
2	Materials and Methods	3
3	An Overview of the Organization of the Hypothalamus	5
4	Delineation of the Hypothalamic Primordium of the Third Ventricle Neuroepithelium	10
5	Development of the Reticular Hypothalamus:	
	The First Wave	27
	5.1 The Lateral Hypothalamus	27
	5.2 The Entopeduncular Nucleus	35
	5.3 The Zona Incerta	39
6	Development of the Core Hypothalamus:	
	The Second Wave	46
	6.1 Development of the Preoptic Area	46
	6.2 Development of the Anterior Hypothalamus:	
	Rostral Region	57
	6.2.1 The Anterior Hypothalamic Nuclei	58
	6.2.2 The Paraventricular Nucleus	65
	6.2.3 The Supraoptic Nucleus	70
	6.2.4 The Problem of the Bed Nucleus of the Stria Terminalis	83
	6.3 Development of the Anterior Hypothalamus:	
	Caudal Region	87
	6.3.1 The Ventromedial Nucleus	87
	6.3.2 The Dorsomedial Nucleus	91
	6.4 Development of the Posterior Hypothalamus:	
	Ventral Region	94
	6.4.1 The Subthalamic Nucleus	95
	6.4.2 The Tuberal Magnocellular Nucleus	102
	6.4.3 The Premammillary Nuclei	107
	6.5 Development of the Posterior Hypothalamus:	
	Dorsal Region	112
	6.5.1 The Supramammillary Nucleus	112
	6.5.2 The Posterior Area Nuclei	114
	6.6 Development of the Mammillary Body	115

7	Development of the Midline Hypothalamus:	
	The Third Wave	126
7.1	The Suprachiasmatic Nucleus	126
7.2	The Arcuate Nucleus	133
7.3	The Periventricular Field	143
8	Development of the Specialized Linings of the Third Ventricle	146
9	Development of Some Glial Components of the Hypothalamus	150
10	General Discussion	154
11	Summary	159
	References	164
	Subject Index	174
