

Contents

	Preface	vii
1	Preliminaries	1
1.1	Introduction	1
1.2	What is in This Book	3
1.3	Basics	4
1.3.1	Getting Into and Out of <i>Mathematica</i>	4
1.3.2	Getting Help	6
1.3.3	The Syntax of Inputs	7
1.3.4	Internal Forms of Expressions	9
1.3.5	Postfix Form	11
1.3.6	Errors	11
1.4	Predicates and Boolean Operations	13
1.4.1	Predicates	13
1.4.2	Relational and Logical Operators	13
1.5	Evaluation of Expressions	15
1.5.1	Trace and TracePrint	15
1.5.2	Timing	16
1.5.3	Attributes	18
1.6	The <i>Mathematica</i> Interface	20
1.6.1	The Notebook Front End	20
1.6.2	The Command Line Interface	25
2	A Brief Overview of <i>Mathematica</i>	27
2.1	Numerical and Symbolic Computations	27
2.2	Functions	31

2.2.1 Functions of Number Theory	31
2.2.2 Random Numbers	34
2.2.3 Packages	35
2.3 Graphics	38
2.3.1 Two-Dimensional Plots	38
2.3.2 Parametric Plots	39
2.3.3 Three-Dimensional Plots	40
2.4 Representation of Data	44
2.5 Programming	46
2.5.1 Example — Harmonic Numbers	46
2.5.2 Example — Perfect Numbers	49
3 List Manipulation	51
3.1 Introduction	51
3.2 Creating and Measuring Lists	52
3.2.1 List Construction	52
3.2.2 Dimensions of Lists	54
3.3 Working With the Elements of a List	56
3.3.1 Positions in a List	56
3.3.2 Extracting Elements and Rearranging Lists	56
3.4 Working with Several Lists	60
3.5 Higher-Order Functions	61
3.6 Applying Functions to Lists Repeatedly	64
3.7 Strings and Characters	66
4 Functions	69
4.1 Introduction	69
4.2 Programs as Functions	69
4.2.1 Nesting Function Calls	70
4.2.2 Value Names	74
4.3 User-Defined Functions	76
4.4 Auxiliary Functions	80
4.4.1 Compound Functions	80
4.4.2 Localizing Names	81
4.5 Anonymous Functions	83
4.6 One-Liners	87
4.6.1 The Josephus Problem	87
4.6.2 Pocket Change	89

5 Evaluation of Expressions	93
5.1 Introduction	93
5.2 Creating Rewrite Rules	93
5.2.1 The Global Rule Base	94
5.3 Expressions	96
5.3.1 Atoms	98
5.4 Patterns	100
5.4.1 Blanks	100
5.4.2 Expression Pattern-Matching	101
5.4.3 Sequence Pattern-Matching	103
5.4.4 Conditional Pattern-Matching	104
5.4.5 Alternatives	105
5.5 Term Rewriting	106
5.6 Transformation Rules	110
6 Conditional Function Definitions	115
6.1 Introduction	115
6.2 Conditional Functions	118
6.3 Summary of Conditionals	122
6.4 Example — Classifying Points	122
7 Recursion	129
7.1 Fibonacci Numbers	129
7.2 List Functions	132
7.3 Thinking Recursively	134
7.4 Recursion and Symbolic Computations	140
7.5 Gaussian Elimination	144
7.6 Binary Trees	150
7.6.1 Huffman Encoding	154
7.7 Dynamic Programming	162
7.8 Higher-Order Functions and Recursion	164
7.9 Debugging	167
7.9.1 Tracing Evaluation	167
7.9.2 Printing Variables	168
7.9.3 Common Errors	169
8 Iteration	171
8.1 Newton's Method	171
8.1.1 While Loops	176
8.2 Vectors and Matrices	180
8.2.1 List Component Assignment	181

8.2.2 Finding Prime Numbers	182
8.3 Passing Arrays to Functions	185
8.4 Gaussian Elimination Revisited	187
9 Numerics	191
9.1 Types of Numbers	191
9.1.1 Integers and Rationals	191
9.1.2 Real Numbers	193
9.1.3 Complex Numbers	196
9.1.4 Computing with Different Number Types	197
9.1.5 Digits and Number Bases	199
9.2 Random Numbers	202
9.3 Precision and Accuracy	206
9.3.1 Roundoff Errors	208
9.4 Numerical Computations	209
9.4.1 Newton's Method Revisited	209
9.4.2 Gaussian Elimination Revisited Again	211
10 Graphics Programming	219
10.1 Graphics Primitives	219
10.1.1 Two-Dimensional Graphics Primitives	219
10.1.2 Three-Dimensional Graphics Primitives	227
10.2 Graphics Directives and Options	228
10.3 Built-In Graphics Functions	232
10.3.1 The Structure of Built-In Graphics	233
10.3.2 Graphics Anomalies	235
10.3.3 Options for Built-In Graphics Functions	238
10.4 Graphics Programming	242
10.4.1 Simple Closed Paths	242
10.4.2 Drawing Trees	249
10.5 Sound	253
10.5.1 The Sound of Mathematics	253
10.5.2 White Music, Brownian Music, and Fractal Noise	258
11 Contexts and Packages	265
11.1 Introduction	265
11.2 Using Packages	265
11.3 Contexts	267
11.3.1 Summary	270
11.4 Packages	271
11.4.1 Summary	272

11.5 The BaseConvert Package	272
11.5.1 Summary	275
11.6 Miscellaneous Topics	276
11.6.1 Avoiding Name Collisions	276
11.6.2 Finding Out What's in a Package	276
Bibliography	279
Index	285
