Introduction

<i>Hartmann D.</i> (Kamakura): Opening remarks	3
<i>Meyer R.</i> (Tokyo): Welcome address.....	5
<i>Dreus J.</i> (Nutley): Opening address	7

Genetic disease and gene therapy

<i>Weissmann C., Büeler H., Fischer M., Aguet M.</i> (Zurich): The PrP-less mouse: a tool for prion research	11
<i>Dranoff G., Jaffee E., Lazenby A., Golumbek P., Levitsky H., Brose K., Jackson V., Hamada H., Pardoll D., Mulligan R.C.</i> (Cambridge, Boston, Baltimore): Prospects for the immunotherapy of cancer using genetically modified tumor cells.....	22
<i>Jaenisch R., Rudnicki M.A., Braun T., Arnold H.-H.</i> (Cambridge, Hamilton, Braunschweig): The role of myogenic HLH transcription factors in muscle and skeletal development	30
<i>Rajewsky K.</i> (Cologne): Gene targeting in the immune system	37
<i>Steinmetz M., Hammer J., Scheirle A., Sinigaglia F.</i> (Nutley, Basel, Milano): Antigen presentation as a target for drug development in autoimmune diseases ..	40

Impact of gene therapy in man: Recent advances in gene therapy

<i>White T.J.</i> (Alameda): The polymerase chain reaction: a history and current and future applications	47
<i>Friedmann Th.</i> (La Jolla): Progress toward gene therapy.....	52
<i>Capecchi M.R.</i> (Salt Lake City): Creating mice with targeted disruptions in proto-oncogenes	60
<i>Blaese R.M., Mullen C.A., Culver K.W.</i> (Bethesda): Progress in gene therapy for immunodeficiency and cancer	65
<i>Darnell J.E.</i> (New York): Summary of the first day	81

Oncogenes and tumor suppressor genes

<i>Weinberg R.A.</i> (Cambridge): The retinoblastoma protein and gene product.....	87
<i>Nakamura Y.</i> (Tokyo): The role of the APC gene in the development of colorectal tumors.....	92
<i>Curran T., Xanthoudakis S., Kerppola T., Baker S.J., Abate C.</i> (Nutley): Regulation of the expression and function of the <i>fos</i> proto-oncogene.....	102

Recent discoveries in receptor-mediated pathways

<i>Darnell J.E. Jr.</i> (New York): Reflections on gene control after polypeptide binding to cell surface receptors.....	111
<i>Mikoshiba K., Furuichi T., Miyawaki A., Yoshikawa S., Nakagawa T., Kume S., Muto A., Okano H., Yamada N., Michikawa T., Hamanaka H., Ryo Y.</i> (Tokyo): Structure and function of inositol trisphosphate receptor.....	115
<i>Hunter T.</i> (La Jolla): Receptor protein-tyrosine kinases and phosphatases and their substrates.....	122
<i>Tartaglia L.A., Goeddel D.V.</i> (San Francisco): Individual roles and signaling mechanisms of the two TNF receptors.....	137

Retinoid receptors and differentiation therapy

<i>Evans R.M.</i> (La Jolla): New wrinkles in retinoid receptors.....	149
<i>Lohnes D., Chambon P.</i> (Strasbourg-Cedex): Retinoid receptors and binding proteins.....	157
<i>Chomienne C., Castaigne S., Cornic M., Lefebvre P., Balitrand N., Barbey S., De The H., Fenaux P., Degos L.</i> (Lille): Role of retinoic acid binding proteins in the differentiation therapy of acute promyelocytic leukemia.....	171
<i>Hartmann D.</i> (Kamakura): Retinoids in clinical dermatology and oncology.....	177

Conclusion

<i>Furuichi Y.</i> (Kamakura): Closing remarks.....	189
Acknowledgements.....	190
