

Table of Contents

Parallel Simulation <i>R. Ayani</i>	1
Properties and Analysis of Queuing Network Models with Finite Capacities <i>S. Balsamo</i>	21
Performance Analysis and Optimization with the Power-Series Algorithm <i>H. Blanc</i>	53
Metropolitan Area Networks (MANs): Protocols, Modeling and Performance Evaluation <i>M. Conti, E. Gregori, L. Lenzini</i>	81
Multiprocessor and Distributed System Design: The Integration of Functional Specification and Performance Analysis Using Stochastic Process Algebras <i>N. Götz, U. Herzog, M. Rettelbach</i>	121
Response Time Distributions in Queuing Network Models <i>P. G. Harrison</i>	147
Fast Simulation of Rare Events in Queuing and Reliability Models <i>P. Heidelberger</i>	165
An Introduction to Modeling Dynamic Behavior with Time Series Analysis <i>J. L. Hellerstein</i>	203
Issues in Trace-Driven Simulation <i>D. R. Kaeli</i>	224
Maximum Entropy Analysis of Queuing Network Models <i>D. Kouvasos</i>	245
Performance Modeling Using DSPNexpress <i>C. Lindemann</i>	291
Relaxation for Massively Parallel Discrete Event Simulation <i>B. D. Lubachevsky</i>	307
The BMAP/G/1 QUEUE: A Tutorial <i>D. M. Lucantoni</i>	330

An Overview of Tes Processes and Modeling Methodology <i>B. Melamed</i>	359
Performance Engineering of Client-Server Systems <i>C. Murray Woodside</i>	394
Queueing Networks with Finite Capacities <i>R. O. Onvural</i>	411
Real Time Systems: A Tutorial <i>F. Panzieri, R. Davoli</i>	435
Performance Instrumentation Techniques for Parallel Systems <i>D. A. Reed</i>	463
A Survey of Bottleneck Analysis in Closed Networks of Queues <i>P. J. Schweitzer, G. Serazzi, M. Broglia</i>	491
Software Performance Engineering <i>C. U. Smith</i>	509
Performance Measurement Using System Monitors <i>E. M. Thurner</i>	537
Providing Quality of Service Packet Switched Networks <i>D. Towsley</i>	560
Dependability and Performability Analysis <i>K. S. Trivedi, G. Ciardo, M. Malhotra, R. A. Sahner</i>	587
Architectures and Algorithms for Digital Multimedia On-Demand Servers <i>P. Venkat Rangan</i>	613
Analysis and Control of Polling Systems <i>U. Yechiali</i>	630
Modeling and Analysis of Transaction Processing Systems <i>P. S. Yu</i>	651
