

CONTENTS

Foreword xv

Preface xvii

Acknowledgments xviii

With Supplemental Figures Kindly Provided By xix

SECTION I

Normal Thoracic Anatomy 1

Overview..... 3

Airways 3

 Trachea and Main Bronchi 3

 Lobar and Segmental Bronchi 4

 Bronchial Anatomy on CT..... 6

 Lung Parenchyma Subdivisions 7

 Acinus 10

Hilar Anatomy 10

 Normal Hilar Relationships 10

 Hilum Overlay 13

 Hilum Convergence 13

 CT Imaging 13

Pulmonary Vessels 14

 Pulmonary Arteries 14

 Bronchial Arteries..... 16

 Pulmonary Veins 18

Pleura..... 20

 Anatomy..... 20

 Standard Fissures 20

 Accessory Fissures..... 25

 Pulmonary Ligament..... 29

Lymphatic System 29

 Parietal Lymph Notes 29

 Visceral Lymph Notes 30

 Lymph Node Stations 31

Mediastinum 31

 Mediastinal Compartments..... 33

 Cross-Sectional Imaging Divisions..... 33

 The Cervicothoracic Sign 35

Mediastinal Borders and Interfaces	35
Mediastinal Lines, Stripes, and Interfaces	35
The Pericardium.....	40
Chest Wall.....	44
Diaphragm	51

SECTION II

Developmental Anomalies.....53

Overview	55
CASE 1 Tracheal Bronchus.....	57
CASE 2 Bronchial Atresia.....	62
CASE 3 Intralobar Sequestration	66
CASE 4 Right Aortic Arch	71
CASE 5 Coarctation of the Aorta.....	76
CASE 6 Marfan Syndrome	80
CASE 7 Aberrant Right Subclavian Artery.....	84
CASE 8 Persistent Left Superior Vena Cava	88
CASE 9 Pulmonary Arteriovenous Malformation.....	93
CASE 10 Partial Anomalous Pulmonary Venous Return.....	98
CASE 11 Scimitar Syndrome	101
CASE 12 Pulmonary Varix	106
CASE 13 Heterotaxy	109
CASE 14 Atrial Septal Defect.....	114
CASE 15 Pulmonic Stenosis.....	119
CASE 16 Interruption of the Intra-Hepatic Inferior Vena Cava with Azygos Continuation	123

SECTION III

Airways Disease 127

Overview	129
CASE 17 Tracheal Stenosis	131
CASE 18 Saber Sheath Trachea	135
CASE 19 Tracheobronchomegaly: Mounier-Kuhn Syndrome.....	138
CASE 20 Tracheomalacia.....	142
CASE 21 Tracheoesophageal Fistula.....	146
CASE 22 Tracheobronchial Amyloidosis	149
CASE 23 Tracheobronchial Papillomatosis	153
CASE 24 Adenoid Cystic Carcinoma.....	157
CASE 25 Bronchiectasis	162
CASE 26 Cystic Fibrosis.....	167
CASE 27 Allergic Bronchopulmonary Disease	171
CASE 28 Proximal Acinar Emphysema.....	175
CASE 29 Panacinar Emphysema.....	179
CASE 30 Bullous Disease and Distal Acinar Emphysema	183
CASE 31 Bronchiolitis Obliterans	187
CASE 32 Common Variable Immune Deficiency Syndrome	190

SECTION IV**Atelectasis..... 195**

Overview of Mechanisms of Atelectasis 197

CASE 33 Resorption Atelectasis 199

CASE 34 Relaxation Atelectasis 203

CASE 35 Cicatrization Atelectasis..... 207

CASE 36 Adhesive Atelectasis 210

Overview of Radiologic Signs of Atelectasis..... 212

Patterns of Lobar Atelectasis

CASE 37 Right Upper Lobe Atelectasis 213

CASE 38 Complicated Right Upper Lobe Atelectasis: Reverse “S” Sign of Golden 217

CASE 39 Right Lower Lobe Atelectasis 220

CASE 40 Right Middle Lobe Atelectasis 224

CASE 41 Right Middle Lobe Syndrome..... 229

CASE 42 Left Upper Lobe Atelectasis 233

CASE 43 Left Lower Lobe Atelectasis..... 238

Patterns of Multi-Lobar Atelectasis

CASE 44 Combined Right Middle and Lower Lobe Atelectasis..... 242

CASE 45 Combined Right Upper and Middle Lobe Atelectasis 246

CASE 46 Combined Right Middle and Left Upper Lobe Atelectasis 249

CASE 47 Total Lung Atelectasis 253

Miscellaneous Patterns of Atelectasis

CASE 48 Rounded Atelectasis 255

SECTION V**Pulmonary Infections and Aspiration Pneumonia 261**

Overview of Common Bacterial Pneumonias 263

CASE 49 *Pneumococcal* Pneumonia 265CASE 50 *Staphylococcus* Pneumonia 271CASE 51 *Haemophilus* Pneumonia..... 277CASE 52 *Klebsiella* Pneumonia..... 280CASE 53 *Pseudomonas* Pneumonia..... 284CASE 54 *Legionella* Pneumonia 288

CASE 55 Pulmonary Nocardiosis 291

CASE 56 Pulmonary *Actinomyces* 294*Less Common Bacterial Pneumonias*CASE 57 Pulmonary *Acinetobacter*..... 296CASE 58 *Rhodococcus* Pneumonia..... 300CASE 59 *Mycobacterium* 304CASE 60 Nontuberculous *Mycobacteria* Pulmonary Infection 309

Overview of Fungal Pneumonias..... 313

CASE 61 Histoplasmosis 314

CASE 62 Pulmonary Coccidioidomycosis 318

CASE 63	Pulmonary Blastomycosis	321
CASE 64	Pulmonary Aspergillosis	324
CASE 65	Pulmonary <i>Cryptococcus</i>	328
CASE 66	<i>Pneumocystis</i> Pneumonia	331
Overview of Viral Pneumonias.....		335
CASE 67	Influenza Pneumonia/H1N1	336
CASE 68	Cytomegalovirus Pneumonia.....	342
CASE 69	Varicella-Zoster Pneumonia	344
Overview of Atypical Pneumonias.....		347
CASE 70	<i>Mycoplasma</i> Pneumonia.....	348
Overview of Parasitic Pneumonias		352
CASE 71	Pulmonary Cystic Hydatid Disease (Echinococcosis)	354
<i>Miscellaneous</i>		
CASE 72	Aspiration Pneumonia/Mendelson Syndrome	357

SECTION VI

Neoplastic Disease.....361

Overview		363
CASE 73	Lung Cancer: Invasive Adenocarcinoma.....	367
CASE 74	Lung Cancer: Minimally Invasive Adenocarcinoma.....	372
CASE 75	Pancoast Tumor: Adenocarcinoma	376
CASE 76	Lung Cancer: Squamous Cell Carcinoma.....	379
CASE 77	Lung Cancer: Small Cell Carcinoma.....	384
CASE 78	Lung Cancer: Large Cell Carcinoma.....	387
CASE 79	Multicentric Synchronous Lung Cancers	389
CASE 80	Pulmonary Metastases.....	393
CASE 81	Bronchial Carcinoid.....	397
CASE 82	Primary Pulmonary Lymphoma	401
CASE 83	Hamartoma	406

SECTION VII

Thoracic Trauma.....411

Overview		413
----------------	--	-----

Non-Vascular Thoracic Trauma

Pleura Injuries

CASE 84	Pneumothorax.....	415
CASE 85	Malpositioned Thoracostomy Tubes	421
CASE 86	Hemothorax	426
CASE 87	Chylothorax	430

Parenchymal Lung Injuries

CASE 88	Pulmonary Contusions	434
CASE 89	Pulmonary Lacerations	438
CASE 90	Traumatic Lung Herniation	441

Airways Injuries

CASE 91	Tracheobronchial Injury	444
CASE 92	Pneumomediastinum	447

Pericardial and Cardiac Injuries

CASE 93	Pneumopericardium	452
---------	-------------------------	-----

Diaphragmatic Injuries

CASE 94	Acute Diaphragmatic Injury	456
---------	----------------------------------	-----

Thoracic Skeletal and Chest Wall Injuries

CASE 95	Flail Chest	462
CASE 96	Sternal Fracture	466
CASE 97	Scapula Trauma	469
CASE 98	Sternoclavicular Dislocation.....	473
CASE 99	Thoracic Spine Fractures.....	476

Vascular Thoracic Trauma

CASE 100	Acute Traumatic Aortic Injury	480
CASE 101	Anatomic Variants Simulating Acute Injury.....	491

Miscellaneous

CASE 102	Diffuse Alveolar Damage (DAD) with Acute Respiratory Distress Syndrome (ARDS)	495
CASE 103	Fat Emboli Syndrome.....	499

SECTION VIII**Diffuse Lung Disease 505**

Overview	507
CASE 104 Acute Interstitial Pneumonia (AIP)	515
CASE 105 Non-Specific Interstitial Pneumonia (NSIP)	519
CASE 106 Pulmonary Alveolar Proteinosis	523
CASE 107 Eosinophilic Pneumonia.....	527
CASE 108 Desquamative Interstitial Pneumonia (DIP)	531
CASE 109 Lymphocytic Interstitial Pneumonia (LIP).....	534
CASE 110 Cryptogenic Organizing Pneumonia (COP)	537
CASE 111 Diffuse Alveolar Hemorrhage.....	541
CASE 112 Pulmonary Alveolar Microlithiasis (PAM).....	545
CASE 113 Exogenous Lipoid Pneumonia	549
CASE 114 Sarcoidosis.....	554
CASE 115 Hypersensitivity Pneumonia	559
CASE 116 Usual Interstitial Pneumonia (UIP)	563
CASE 117 Respiratory Bronchiolitis Interstitial Lung Disease (RB-ILD)	568
CASE 118 Kaposi Sarcoma	571
CASE 119 Lymphangitic Carcinomatosis.....	574
CASE 120 Pulmonary Langerhans' Cell Histiocytosis.....	578
CASE 121 Lymphangioleiomyomatosis	582
CASE 122 Amiodarone Pulmonary Toxicity	586
CASE 123 Nodular Parenchymal Amyloidosis.....	589

SECTION IX

Occupational Lung Disease.....593

Overview 595

CASE 124 Silicosis 597

CASE 125 Asbestosis..... 602

CASE 126 Farmer’s Lung 606

CASE 127 Hard Metal Pneumoconiosis 609

SECTION X

Adult Cardiovascular Disease.....611

Pulmonary Artery

CASE 128 Acute Pulmonary Thromboembolic Disease 613

CASE 129 Chronic Pulmonary Thromboembolic Disease 622

CASE 130 Chronic Thromboembolic Disease Pulmonary Hypertension (CTEPH) 629

Pulmonary Edema

CASE 131 Increased Hydrostatic Pressure Edema 637

CASE 132 Post-Obstructive (Negative Pressure) Pulmonary Edema..... 645

CASE 133 Re-Expansion Pulmonary Edema 648

CASE 134 Heroin-Induced Pulmonary Edema..... 652

Abnormalities of the Thoracic Aorta

CASE 135 Thoracic Aorta Aneurysm 655

CASE 136 Acute Dissection Thoracic Aorta..... 663

CASE 137 Intramural Hematoma Thoracic Aorta 671

Valvular Disease

CASE 138 Mitral Stenosis 678

CASE 139 Aortic Stenosis: Bicuspid Aortic Valve 682

Myocardial Calcifications

CASE 140 Left Ventricular Wall Aneurysm 686

Pericardial Disease

CASE 141 Pericardial Calcification..... 691

CASE 142 Pericardial Effusion 695

Vasculitides

CASE 143 Wegener Granulomatosis or ANCA-Associated Granulomatous Vasculitis..... 700

CASE 144 Takayasu Arteritis 704

Cardiac Masses

CASE 145 Lipomatous Infiltration of the Interatrial Septum..... 708

CASE 146 Atrial Myxoma 712

Miscellaneous

CASE 147 Sickle Cell Disease: Acute Chest Syndrome 717

CASE 148 Hepatopulmonary Syndrome 720

CASE 149 Pulmonary Artery Catheter-Related Vascular Pseudoaneurysm..... 724

CASE 150 Sternal Dehiscence 727

Cardiac Devices

CASE 151	Circulatory Assist Devices	732
CASE 152	Total Artificial Heart.....	739

SECTION XI**Abnormalities of the Mediastinum743**

Overview	745
CASE 153 Thymoma: Encapsulated	747
CASE 154 Thymic Carcinoid.....	751
CASE 155 Thymolipoma	755
CASE 156 Thymic Hyperplasia	759
CASE 157 Mature Teratoma.....	762
CASE 158 Malignant Germ Cell Neoplasm: Seminoma	766
CASE 159 Neoplastic Lymphadenopathy: Hodgkin Lymphoma.....	769
CASE 160 Non-Neoplastic Lymphadenopathy: Mediastinal Fibrosis	774
CASE 161 Non-Neoplastic Lymphadenopathy: Multicentric Castleman Disease.....	777
CASE 162 Congenital Cysts: Bronchogenic Cyst	780
CASE 163 Neurogenic Neoplasms: Schwannoma	785
CASE 164 Mediastinal Goiter	790
CASE 165 Lymphangioma.....	794
CASE 166 Paraesophageal and Esophageal Varices	798
CASE 167 Hiatus Hernia.....	801
CASE 168 Achalasia.....	805
CASE 169 Extramedullary Hematopoiesis.....	809
CASE 170 Mediastinal Abscess.....	813

SECTION XII**Pleura, Chest Wall, and Diaphragm817**

Overview.....	819
CASE 171 Pleural Effusion.....	821
CASE 172 Empyema: Bronchopleural Fistula.....	830
CASE 173 Asbestos-Related Pleural Plaques.....	835
CASE 174 Pneumothorax.....	840
CASE 175 Diffuse Malignant Pleural Mesothelioma.....	845
CASE 176 Pleural Metastases.....	849
CASE 177 Localized Fibrous Tumor of the Pleura.....	853
CASE 178 Chest Wall Infection (Actinomycosis).....	857
CASE 179 Chest Wall Lipoma.....	861
CASE 180 Elastofibroma Dorsi.....	865
CASE 181 Askin Tumor/Primitive Malignant Neuroectodermal Tumor (PNET).....	868
CASE 182 Chondrosarcoma.....	871
CASE 183 Pectus Excavatum.....	875
CASE 184 Bochdalek Hernia.....	880
CASE 185 Paralyzed Diaphragm.....	884

SECTION XIII

Post-Thoracotomy Chest.....889

CASE 186 Lobectomy 891

CASE 187 Pneumonectomy 898

CASE 188 Lung Volume Reduction Surgery (LVRS) for Giant Bullous Emphysema..... 904

CASE 189 Eloesser Pleurocutaneous Window for Chronic Empyema 907

CASE 190 Bilateral Lung Transplantation 911

CASE 191 Post-Transplant Lymphoproliferative Disease (PTLD) 916

CASE 192 Synthetic Interposition Grafts and Endovascular Stents 919

CASE 193 Postoperative Esophagectomy Chest..... 926

Index.....935
