

Table of Contents

COTS-Based Systems (CBS) Functional Density – A Heuristic for Better CBS Design	1
<i>Chris Abts</i>	
Meeting the Challenges of Commercial-Off-The-Shelf (COTS) Products: The Information Technology Solutions Evolution Process (ITSEP)	10
<i>Cecilia Albert, Lisa Brownsword</i>	
Lessons Learned Integrating COTS into Systems	21
<i>Thomas G. Baker</i>	
Risk Reduction in COTS Software Selection with BASIS	31
<i>Keith Ballurio, Betsy Scalzo, Lou Rose</i>	
European COTS User Working Group: Analysis of the Common Problems and Current Practices of the European COTS Users	44
<i>Gorka Benguria, Ana Belén García, David Sellier, Sandy Tay</i>	
Combined Selection of COTS Components	54
<i>X. Burgués, C. Estay, X. Franch, J.A. Pastor, C. Quer</i>	
Identifying Evolvability for Integration	65
<i>L. Davis, Rose Gamble</i>	
Issues in Developing Security Wrapper Technology for COTS Software Products	76
<i>John C. Dean, Li Li</i>	
A Process for COTS Software Product Evaluation	86
<i>Santiago Comella-Dorda, John C. Dean, Edwin Morris, Patricia Oberndorf</i>	
Five Hurdles to the Successful Adoption of Component-Based COTS in a Corporate Setting	97
<i>Anthony Earl</i>	
On Building Testable Software Components	108
<i>Jerry Gao, Kamal Gupta, Shalini Gupta, Simon Shim</i>	
Streamlining the Acquisition Process for Large-Scale COTS Middleware Components	122
<i>Ian Gorton, Anna Liu</i>	

Storyboard Process to Assist in Requirements Verification and Adaptation to Capabilities Inherent in COTS	132
<i>Sallie Gregor, Joseph Hutson, Colleen Oresky</i>	
Realizing the Potential for COTS Utilization: A Work in Progress	142
<i>Rhoda Shaller Hornstein, John K. Willoughby</i>	
Rethinking Process Guidance for Selecting Software Components	151
<i>N.A.M. Maiden, H. Kim, Cornelius Ncube</i>	
Definition and Classification of COTS: A Proposal	165
<i>Maurizio Morisio, Marco Torchiano</i>	
The Limitations of Current Decision-Making Techniques in the Procurement of COTS Software Components	176
<i>Cornelius Ncube, John C. Dean</i>	
COTS-Based System Engineering: The Linguistics Approach	188
<i>Nguyen Thanh Quang, Isabelle Comyn-Wattiau</i>	
Merging Integration Solutions for Architecture and Security Mismatch . . .	199
<i>Jamie Payton, Gerður Jónsdóttir, Daniel Flagg, Rose Gamble</i>	
The Integration of COTS/GOTS within NASA's HST Command and Control System	209
<i>Thomas Pfarr, James E. Reis</i>	
Replaceable Components and the Service Provider Interface	222
<i>Robert C. Seacord</i>	
The Standard Autonomous File Server, a Customized, Off-The-Shelf Success Story	234
<i>Susan K. Semancik, Annette M. Conger</i>	
Implementing Large-Scale COTS Reengineering within the United States Department of Defense	245
<i>James D. Smith, Duane Hybertson</i>	
Author Index	257
